Data Analytics and AI Jay Liebowitz, 2020-08-06 Analytics and artificial intelligence AI what are they good for The bandwagon keeps answering absolutely everything Analytics and artificial intelligence have captured the attention of everyone from top executives to the person in the street While these disciplines have a relatively long history within the last ten or so years they have exploded into corporate business and public consciousness Organizations have rushed to embrace data driven decision making Companies everywhere are turning out products boasting that artificial intelligence is included We are indeed living in exciting times The question we need to ask is do we really know how to get business value from these exciting tools Unfortunately both the analytics and AI communities have not done a great job in collaborating and communicating with each other to build the necessary synergies This book bridges the gap between these two critical fields The book begins by

explaining the commonalities and differences in the fields of data science artificial intelligence and autonomy by giving a historical perspective for each of these fields followed by exploration of common technologies and current trends in each field The book also readers introduces to applications of deep learning in industry with an overview of deep learning and its key architectures as well as a survey and discussion of the main applications of deep learning The book also presents case studies to illustrate applications of AI and analytics These include a case study from the healthcare industry and an investigation of a digital transformation enabled by AI and analytics transforming a product oriented company into one delivering solutions and services The book concludes with a proposed AI informed data analytics life cycle to be applied to unstructured data Harnessing Dynamic Knowledge Principles in the Technology-Driven World Nissen, Mark,2013-11-30

In a technology driven world it is essential that enterprises develop reliable and rapid flows of knowledge to distribute evenly across organizations time and place and individuals in order to sustain a competitive advantage However most leaders and managers are unacquainted with effective knowledge flow practices Harnessing Dynamic Knowledge Principles in the Technology Driven World provides actionable principles of Knowledge Flow Theory to identify and solve problems for implementing these principles into practice With emerging developments and widespread applicability this book is a practical guide for scholars business managers and enterprise leaders and managers interested in understanding the dynamics of knowledge flows for competitive advantage in a technology driven world **A Research Agenda for**

Knowledge Management and Analytics Jay Liebowitz,2021-01-29 Leveraging the knowledge gained from Knowledge Management and from the growing fields of Analytics and Artificial Intelligence AI this Research Agenda highlights the research gaps issues applications challenges and opportunities related to Knowledge Management KM Exploring synergies between KM and emerging technologies leading international scholars and practitioners examine KM from a multidisciplinary perspective demonstrating the ways in which knowledge sharing worldwide can be enhanced in order to better society and improve organisational performance **Bursting the Big Data Bubble** Jay Liebowitz,2014-07-25 As we

get caught up in the quagmire of Big Data and analytics it remains critically important to be able to reflect and apply insights experience and intuition to your decision making process In fact a recent research study at Tel Aviv University found that executives who relied on their intuition were 90 percent accurate in their decisions Bursting the Big Data Bubble The Case for Intuition Based Decision Making focuses on this intuition based decision making The book does not discount data based decision making especially for decisions that are important and complex Instead it emphasizes the importance of applying intuition gut feel spirituality experiential learning and insight as key factors in the executive decision making process Explaining how intuition is a product of past experience learning and ambient factors the text outlines methods that will help to enhance your data driven decision making process with intuition based decision making The first part of the book the Research Track presents contributions from leading researchers worldwide on the topic of intuition based decision making as

applied to management In the second part of the book the Practice Track global executives and senior managers in industry government universities and not for profits present vignettes that illustrate how they have used their intuition in making key decisions The research part of the book helps to frame the problem and address leading research in intuition based decision making The second part then explains how to apply these intuition based concepts and issues in your own decision making process **#SUCCESSFUL CORPORATE LEARNING tweet Book07** Mike Hower,Michael Prevou,Mitchell

Levy,2014-10-10 The phrase communities of practice is relatively new the concept and its utility is not Simply put a community of practice is a learning community When people realize that they can benefit from sharing their knowledge experience and insights with like minded and similarly motivated people the seed for a community of practice gets planted E learning communities continuing education groups cooperative education groups and apprenticeship programs are all in some form or fashion communities of practice In a few rare instances a community of practice will build and nurture itself with little apparent or active management Much more common is the case whereby a community of practice needs conscious and thoughtful input to be conceived nurtured and brought to flourish When a community of practice is implemented correctly it becomes a powerful and enabling tool for improving productivity encouraging professional development and creating a culture of continuous learning in an organization Expert knowledge disseminators and learning facilitators two communities experts Mike Hower and Michael Prevou work with corporate learning expert Mitchell Levy to show you in their very actionable new book how to get a community of practice initiative off the ground and drive adoption in your organization In their last several years of work in this pathbreaking area both authors have repeatedly been asked how to get a community defined how to measure its value and how to keep a valuable community successful Their book is a direct result of such questioning indeed the authors demonstrate how communities of practice are the killer app of knowledge management This is a practical and implementable volume that provides vital tips for knowledge leaders managers and facilitators who support these communities in such a way that they make a positive contribution to creating and sharing organizational knowledge a contribution that engages people and leads to a competitive advantage in today s business environment **SUCCESSFUL CORPORATE LEARNING tweet Book07** is part of the THiNKaha series whose slim and handy books contain 140 well thought out quotes tweets ahas **#Successful Corporate Learning Tweet Book05** Michael Prevou,Mitchell Levy,2012
