Beyond Think-Pair-Share Christina M. Krantz, Laura Gullette Smith, 2020-10-26 This book shows you how to teach K 12 students to work in pairs and groups more effectively so that true collaboration can happen in the classroom Coming from their experience in social work and classroom teaching Christina M Krantz and Laura Gullette Smith explain the problems that can occur with traditional Think Pair Share models and offer refreshing solutions They provide practical strategies to help students build collegial peer relationships learn to share tasks and hold deeper discussions Each chapter offers useful strategies that you can implement immediately This book includes an invaluable appendix of resources that the authors share when leading workshops as well as rubrics agendas and classroom tools designed with the strategies covered in each chapter in mind

Cultivating Social Justice Teachers Paul C. Gorski, Nana Osei-Kofi, Jeff Sapp, Kristien Zenkov, 2023-07-03 Frustrated by the challenge of opening teacher education students to a genuine understanding of the social justice concepts vital for creating an equitable learning environment Do your students ever resist accepting that lesbian gay bisexual transgender or queer people experience bias or oppression or that their experiences even belong in a conversation about diversity multiculturalism or social justice Recognizing these are common experiences for teacher educators the contributors to this book present their struggles and achievements in developing approaches that have successfully guided students to complex understandings of such threshold concepts as White privilege homophobia and heteronormativity overcoming the bottlenecks that impede progress toward bigger learning goals and understandings The authors initiate a conversation one largely absent in the social justice education literature and the discourse about the common content and pedagogy related challenges that social justice educators face in their work particularly for those doing this work in relative or literal isolation where collegial understanding cannot be found down the hall or around the corner In doing so they hope not only to help individual teachers in their practice but also strengthen social justice teacher education more systemically Each contributor identifies a learning bottleneck related to one or two

specific threshold concepts that they have struggled to help their students learn Each chapter is a narrative about individual efforts toward sometimes profound pedagogical adjustment about ambiguity and cognitive dissonance and resistance about trial and error and about how these educators found ways to facilitate foundational social justice learning among a diversity of education students Although this is not intended to be a how to manual or to provide five easy steps to enable straight students to get heteronormativity each chapter does describe practical strategies that teachers might adapt as part of their own practice
