The Triumph of the Thriller Patrick Anderson, 2007-02-06

There's been a revolution in American popular fiction. The writers who dominated the bestseller lists a generation ago with blockbuster novels about movie stars and exotic foreign lands have been replaced by a new generation writing a new kind of bestseller: one that hooks readers with crime suspense and ever-increasing violence. Patrick Anderson, *The Washington Post's* man on the thriller beat, calls this revolution the triumph of the thriller and lists among its stars Thomas Harris, Michael Connelly, George Pelecanos, Dennis Lehane, Sue Grafton, and Elmore Leonard. In his provocative, caustic, and often hilarious survey of today's popular fiction, Anderson shows us who the best thriller writers are and the worst. He shows how Michael Connelly was inspired by Raymond Chandler, how George Pelecanos toiled in obscurity while he mastered his craft, how Sue Grafton created the first great woman private eye, and how Thomas Harris transformed an insane cannibal into the charming man of the world who made FBI agent Clarice Starling his lover. Anderson shows Scott Turow inventing the modern legal thriller and John Grisham translating it into a stunning series of bestsellers. He casts a cold eye on Tom Clancy's militaristic techno thrillers and praises Alan Furst and Robert Littell as world-class spy novelists. He examines the pioneering role of Lawrence Sanders, the offbeat appeal of Dean Koontz, the unprecedented success of *The Da Vinci Code*, and the emergence of the literary thriller. Most of all, Anderson demands that the best of these novelists be given their due: not as genre writers but as some of the most talented men and women at work in American fiction. Don't trust the literary elites to tell you what to read; he warns, make up your own minds. *The Triumph of the Thriller* will convince many readers that we've entered an important new era in popular fiction. This book can be your guide to it.

Reading Tolkien in Chinese Eric Reinders, 2024-03-21 Approaching translations of Tolkien's works as stories in their own right, this book reads multiple Chinese translations of Tolkien's writing to uncover the new and unique perspectives that enrich the meaning of the original texts. Exploring translations of *The Lord of the Rings*, *The Hobbit*, *The Silmarillion*, *The Children of Hurin*, and *The Unfinished Tales*, Eric Reinders reveals the mechanics of meaning by literally back-translating the Chinese into English to dig into the conceptual common grounds shared by religion, fantasy, and translation, namely the suspension of disbelief and questions of truth, literal, allegorical, and existential. With coverage of themes such as gods and

heathens elves and Men race mortality and immortality fate and doom and language Reinder s journey to Chinese Middle earth and back again drastically alters views on Tolkien s work where even basic genre classification surrounding fantasy literature look different through the lens of Chinese literary expectations Invoking scholarship in Tolkien studies fantasy theory and religious and translations studies this is an ambitious exercises in comparative imagination across cultures that suspends the prejudiced hierarchy of originals over translations
