Knoeien Met Het Verleden:

I Was Vermeer Frank Wynne, 2011-01-15 Frank Wynne's remarkable book tells the story of Han van Meegeren a paranoid drug addicted second rate painter whose Vermeer forgeries made him a secret superstar of the art world During van Meegeren's heyday as a forger of Vermeers he earned the equivalent of fifty million dollars the acclaim of the world's press and the satisfaction of swindling Hermann Göring himself trading the Nazi commander one of his forgeries in exchange for the return of hundreds of looted Dutch paintings But he was undone by his very success thriving so noticeably during World War II that when it ended he was arrested as a Nazi collaborator His only defense was to admit that he himself had painted the Old Masters that had passed through his hands a confession the public refused to believe until in a huge media event the courts staged the public painting of what would be van Meegeren's last Vermeer *I Was Vermeer* is a gripping real life mystery that exposes the life and techniques of the consummate art forger the fascinating work of the experts who try to track down the fakes and the collusion and ego in the art establishment that even today allow forgery to thrive Wry amoral and plotted like a thriller it is the first major book in forty years on this astonishing episode in history Frank Wynne is a writer and award winning literary translator Born in Ireland he has lived and worked in Dublin Paris Amsterdam London and Buenos Aires and currently lives in San José Costa Rica He has translated more than a dozen novels among them the works of Michel Houellebecq Frédéric Beigbeder Pierre Moret and Ahmadou Kourouma A journalist and broadcaster he has written for the Sunday Times the Independent the Irish Times Melody Maker and Time Out

Censorship of Historical Thought Antoon De Baets, 2001-12-30 History is an important dangerous and fragile subject Historical thought can be censored in widely diverging political and historiographical contexts as historians are well aware Yet the problems of censorship often thought to be obvious are rarely studied Filling a significant void this guide supplies information on the censorship of historical thought and the fate of persecuted historians in over 130 countries from Afghanistan to Zimbabwe and from 1945 to 2000 With each entry providing a chronological overview of cases and giving a full listing of sources the book is the first systematic effort to overview the repression of historical thought Aiming to encompass all countries in which censorship and persecution have taken place De Baets sketches a world map of repression that goes beyond the well known and well studied cases It assembles scattered data from three types of sources the works of censors and censored historical and biographical dictionaries and historiographical surveys and reports from international human rights organizations

Showing the universality of historical censorship and its infinite variety in amount and degree the book also provides a basis for further comparative research

Imprint and Trace Sonja Neef, 2012-01-01 Today writing by hand seems a nearly archaic process Nearly all of our written communication is digital our letters are via email or text message our manuscripts are composed using word processors our journals are blogs and we sign checks to pay bills with the push of a button Sonja Neef believes that what we have lost in our modern technological conversation is the ductus the physical and material act of handwriting In Imprint and Trace Neef argues however that handwriting throughout its history has always been threatened with erasure It exists in a dual state able to be standardized repeated copied much like an imprint and yet persistently singular original and authentic as a trace or line Throughout its history from the first prehistoric handprint through the innovations of stylus quill and printing press handwriting has revealed an interweaving ever changing relationship between imprint and trace Even today in the age of the digital revolution the trace of handwriting is still an integral part of communication whether etched photographed pixelated or scanned Imprint and Trace presents an essential re evaluation of the relationships between handwriting and technology and between the various imprints and traces that define communication

The Engaged Historian Stefan Berger, 2019-04-01 On the surface historical scholarship might seem thoroughly incompatible with political engagement the ideal historian many imagine is a disinterested observer focused exclusively on the past In truth however political action and historical research have been deeply intertwined for as long as the historical profession has existed In this insightful collection practicing historians analyze reflect on and share their experiences of this complex relationship From the influence of historical scholarship on world political leaders to the present day participation of researchers in post conflict societies and the Occupy movement these studies afford distinctive humane and stimulating views on historical practice and practitioners

Remembrance and Imagination Joseph Theodoor Leerssen, 1997 The nineteenth century witnessed the growth of Irish cultural nationalism as a dominant force in the country's political and literary life Remembrance and Imagination is a major study which charts the development and impact of a national self image through key texts and key episodes and does so by placing the history of two cultural spheres side by side literature and historical scholarship The literary and discursive work of writers like Lady Morgan Maturin Thomas Moore Thomas Davis Yeats and Synge is placed against the background of contemporary debates concerning the true historical and cultural identity of Ireland while developments in the historical sciences are traced in their impact on the literary imagination Special attention is given to the influential scholar George Petrie and to the far ranging and persistent controversy concerning the round towers The Irish self image in the nineteenth century attempted to formulate permanence tradition and continuity in the face of historical and political divisions and incoherence The cultivation of a gloried past and of an idyllic peasantry are central preoccupations in Irish national thought This book analyzes the discourse rhetoric stereotypes and ingrained attitudes with which those preoccupations were invested both in literature and historical scholarship The book closes with a reinterpretation of the position of Synge and Joyce in repudiating the nineteenth century schemata of representing Ireland

Saints, Scholars, and Politicians Mathilde van Dijk, Renée Nip, 2005 Over the past eighteen years gender has become a major analytical tool in medieval studies The purpose of this volume is to evaluate its use and to search for ways in which to improve and enhance its value The authors address the question of how gender relates to other tools of medieval research Several articles criticize the way in which an exclusive focus on gender tends to obscure the impact of other factors for instance class politics economy or the genre in which a source is written Other articles address wrong ways of using gender for instance monolithic or anachronistic views of what constitutes differences between men and women **Sign Here!** F.
