Knowledge As Sexual Metaphor Knowledge As Sexual Metaphor:

Knowledge as Sexual Metaphor George Joseph Seidel, 2000 The work then proceeds to give a critical examination of representative samplings of theories of knowledge from different periods and traditions in the history of philosophy pointing out the sexual metaphors involved BOOK JACKET *Sexual and Marital Metaphors in Hosea, Jeremiah, Isaiah, and Ezekiel* Sharon Moughtin-Mumby, 2008-06-05 Sharon Moughtin Mumby considers the often unrecognised impact of different approaches to metaphor on readings of the prophetic sexual and marital metaphorical language She outlines a practical and consciously simplified approach to metaphor placing strong emphasis on the influence of literary context on metaphorical meaning Drawing on this approach she read Hosea 4 14 Jeremiah 2 1 4 4 Isaiah Ezekiel 16 and 23 and Hosea 1 3 with fresh eyes Her lucid new readings reveal the way in which scholarship has repeatedly stifled the prophetic metaphorical language by reading it within the default contexts of the marriage metaphor and cultic prostitution which for so many years have been simply assumed Readers are encouraged instead to read these diverse metaphors and similes within their distinctive literary contexts in which they have the potential to rise vividly to life provoking the question how are we to respond to these disquieting powerful texts in the midst of the Hebrew Bible Critical Communication Theory Sue Curry Jansen, 2002-11-19 Critical theorist feminist and censorship expert Sue Curry Jansen brings a fresh perspective to contemporary communication inquiry Jansen engages two key questions at the heart of a critical politics of communication What do we know And how do we know it The questions are not unique to our era she notes but our responses to them are our own Looking at issues of globalization science politics gender social inequality and other social formations that shape our world this insightful book advocates a new agenda not only for communication research but also for the writing_and language_that comes out of it

Thoreau's Living Ethics Philip Cafaro, 2010-01-25 Thoreau's Living Ethics is the first full rigorous account of Henry Thoreau's ethical philosophy Focused on Walden but ranging widely across his writings the study situates Thoreau within a long tradition of ethical thinking in the West from the ancients to the Romantics and on to the present day Philip Cafaro shows Thoreau grappling with important ethical questions that agitated his own society and discusses his value for those seeking to understand contemporary ethical issues Cafaro's particular interest is in Thoreau's treatment of virtue ethics the branch of ethics centered on personal and social flourishing Ranging across the central elements of Thoreau's philosophy life virtue economy solitude and society nature and politics Cafaro shows Thoreau developing a comprehensive virtue ethics less based in ancient philosophy than many recent efforts and more grounded in modern life and experience He presents Thoreau's evolutionary experimental ethics as superior to the more static foundational efforts of current virtue ethicists Another main focus is Thoreau's environmental ethics The book shows Thoreau not only anticipating recent arguments for wild nature's intrinsic value but also demonstrating how a personal connection to nature furthers self development moral character knowledge and creativity Thoreau's life and writings argues Cafaro present a positive life affirming environmental ethics

combining respect and restraint with an appreciation for human possibilities for flourishing within nature Gender at the Crossroads of Knowledge Micaela di Leonardo, 2023-09-01 Gender at the Crossroads of Knowledge brings feminist anthropology up to date highlighting the theoretical sophistication that characterizes recent research Twelve essays by outstanding scholars written with the volume's concerns specifically in mind range across the broadest anthropological terrain assessing and contributing to feminist work on biological anthropology primate studies global economy new reproductive technologies ethno linguistics race and gender and more The editor's introduction not only sets two decades of feminist anthropological work in the multiple contexts of changes in anthropological theory and practice political and economic developments and larger intellectual shifts but also lays out the central insights feminist anthropology has to offer us in the postmodern era The profound issues raised by the authors resonate with the basic interests of any discipline concerned with gender that is all of the social sciences and humanities Gender at the Crossroads of Knowledge brings feminist anthropology up to date highlighting the theoretical sophistication that characterizes recent research Twelve essays by outstanding scholars written with the volume's concerns specifically in *Space, Gender, Knowledge: Feminist Readings* Linda McDowell, Joanne Sharp, 2016-04-29 Space Gender Knowledge is an innovative and comprehensive introduction to the geographies of gender and the gendered nature of spatial relations It examines the major issues raised by women's movements and academic feminism and outlines the main shifts in feminist geographical work from the geography of women to the impact of post structuralism In making their selection the editors have drawn on a wide range of interdisciplinary material ranging across spatial scales from the body to the globe The book presents influential arguments for the importance of the intersection between space and gender Looking both at geography and beyond the discipline it explores the gendered construction of space and the spatial construction of gender Divided into a number of conceptual sections each prefaced by an editorial introduction this reader includes extracts from both landmark texts and less well known works making it an indispensable introduction to this dynamic field of study **Gender and Knowledge** Susan J. Hekman, 2013-05-02 After the success of the hardback students and academics will welcome the publication of this book in paperback The aim of the book is to explore the connection between two perspectives that have had a profound effect upon contemporary thought post modernism and feminism Through bringing together and systematically analysing the relations between these Hekman is able to make a major intervention into current debates in social theory and philosophy The critique of Enlightenment knowledge she argues is at the core of both post modernism and feminism Each also offers a basis for critical reflections about the other In particular post modern philosophy provides a means of criticizing aspects of contemporary feminism and thus contributing to the development of a more sophisticated approach to current feminist issues An Alchemical Quest for Universal Knowledge Georgiana D. Hedesan, 2016-04-20 History of science credits the Flemish physician alchemist and philosopher Jan Baptist Van Helmont 1579 1644 for his contributions to the development of chemistry and medicine Yet as

this book makes clear focussing on Van Helmont's impact on modern science does not do justice to the complexity of his thought or to his influence on successive generations of intellectuals like Robert Boyle or Gottfried Leibniz. Revealing Van Helmont as an original thinker who sought to produce a post-Scholastic synthesis of religion and natural philosophy, Georgiana Hedesan reconstructs his ambitious quest for universal knowledge as it emerges from the text of the *Ortus medicinae* 1648. Published after Van Helmont's death by his son, the work can best be understood as a compilation of finished and unfinished treatises, the historical product of a life unsettled by religious persecution and personal misfortune. The present book provides a coherent account of Van Helmont's philosophy by analysing its main tenets. Divided into two parts, the study opens with a background to Van Helmont's concept of an alchemical Christian philosophy, demonstrating that his outlook was deeply grounded in the tradition of medical alchemy as reformed by Theophrastus von Hohenheim, called Paracelsus (1493–1541). It then reconstitutes Van Helmont's biography while giving a historical dimension to his intellectual output. The second part reconstructs Van Helmont's Christian philosophy, investigating his views on God, nature and man, as well as his applied philosophy. Hedesan also provides an account of the development of Van Helmont's thought throughout his life. The conclusion sums up Van Helmont's intellectual achievement and highlights avenues of future research.

Law and Self-Knowledge in the Talmud Ayelet Hoffmann Libson, 2018-05-17. This book examines the emergence of self-knowledge as a determining legal consideration among the rabbis of Late Antiquity from the third to the seventh centuries CE. Based on close readings of rabbinic texts from Palestine and Babylonia, Ayelet Hoffmann Libson highlights a unique and surprising development in Talmudic jurisprudence whereby legal decision-making incorporated personal and subjective information. She examines the central legal role accorded to individuals' knowledge of their bodies and mental states in areas of law as diverse as purity laws, family law and the laws of Sabbath. By focusing on subjectivity and self-reflection, the Babylonian rabbis transformed earlier legal practices in a way that cohered with the cultural concerns of other religious groups in Late Antiquity. They developed sophisticated ideas about the inner self and incorporated these notions into their distinctive discourse of law.

Carnal Knowledge and Imperial Power Ann Laura Stoler, 2002. Looking at the way cultural competencies and sensibilities entered into the construction of race in the colonial context, this text proposes that cultural racism in fact predates its postmodern discovery.

The Analytic Imaginary Marguerite La Caze, 2018-09-05. The notion of the philosophical imaginary developed by Michel Le Doeuff refers to the capacity to imagine as well as to the stock of images philosophers employ. Making use of this notion, Marguerite La Caze explores the idea of the imaginary of analytic philosophy. Noting the marked tendency of analytic philosophy to be unselfconscious about the use of figurative language and the levels at which it works, La Caze shows how analytic images can work to define the parameters of debates and exclude differing approaches, including feminist ones. La Caze focuses on five influential types of images in five central areas of contemporary analytic philosophy: analogies and how they are used in the abortion debates, thought experiments in personal identity, the

myth of the social contract Thomas Nagel's use of visual and spatial metaphors in epistemology and Kendall Walton's use of children's games as a foundational model in aesthetics The author shows how the image promotes assumptions and conceals tensions in philosophical works how the image persuades and how it limits debate and excludes ideas In providing an analysis of and reflection on the nature of the analytic imaginary La Caze suggests that a more open ended and reflexive approach can result in richer more fruitful philosophical work Fire Metaphors Jonathan Charteris-Black,2016-11-17 This detailed study of fire metaphors provides a deep understanding of the purposeful work of metaphor in discourse It analyses how and why fire metaphors are used in discourses of awe mythology and religion and authority political speeches and media reports Fire serves as a productive and salient lexical field for metaphors that seek to create awe and impose authority These metaphors offer a rich linguistic and conceptual resource for authors of mythologies theologies literature speeches and journalism and provide insight into the rich interplay of thought language and culture This book explores the purpose of fire metaphors in genres ranging from the Norse sagas to religious texts from Shakespeare to British and American political speeches Ultimately it arrives at an understanding of the rhetorical work that metaphor accomplishes in communicating evaluations and ideologies **Beyond the Body Proper** Margaret M.
