Mamary, 2021-01-05 When Harry Potter first boards the Hogwarts Express he journeys to a world which Rowling says has alchemy as its internal logic The Philosopher's Stone known for its power to transform base metals into gold and to give immortality to its maker is the subject of the conflict between Harry and Voldemort in the first book of the series But alchemy is not about money or eternal life it is much more about the transformations of desire of power and of people through love Harry's equally remarkable and ordinary power to love leads to his desire to find but not use the Philosopher's Stone at the start of the series and his wish to end the destructive power of the Elder Wand at the end This collection of essays on alchemical symbolism and transformations in Rowling's series demonstrates how Harry's work with magical objects people and creatures transfigure desire power and identity As Harry's leaden existence on Privet Drive is transformed in the company of his friends and teachers the Harry Potter novels have transformed millions of readers inspiring us to find the gold in our ordinary lives Transmedia Harry Potter Christopher E. Bell, 2019-09-03 Transmediation the telling of a single story across multiple media is a relatively new phenomenon While there have been adaptations books to films for example for more than a century modern technology and media consumption have expanded the scope of trans mediating practices Nowhere are these more evident than within the Harry Potter universe where a coherent world and narrative are iterated across books films video games fan fiction art music and more Curated by a leading Harry Potter scholar this collection of new essays explores the range of Potter texts across a variety of media **Cultural Politics in Harry Potter** Rubén Jarazo-Álvarez, Pilar Alderete-Diez, 2019-08-29 Cultural Politics in Harry Potter Life Death and the Politics of Fear is the first book length analysis of topics such as death fear and biopolitics in J K Rowling's work from controversial and interdisciplinary perspectives This collection brings together recent theoretical and applied cultural studies and focuses on three key areas of inquiry 1 wizarding biopolitics and intersected discourses 2 anxiety death resilience and trauma and 3 the

politics of fear and postmodern transformations As such this book provides a comprehensive overview of national and gender discourses as well as the transiting bodies in between in relation to the Harry Potter books series and related multimedia franchise situates the transformative power of death within the fandom transmedia and film depictions of the Potterverse and critically deconstructs the processes of subjectivation and legitimation of death and fear examines the strategies and mechanisms through which cultural and political processes are managed as well as reminding us how fiction and reality intersect at junctions such as terrorism homonationalism materialism capitalism posthumanism and technology Exploring precisely what is cultural about wizarding politics and what is political about culture this book is key reading for students of contemporary literature media and culture as well as anyone with an interest in the fictional universe and wizarding world of Harry Potter
