

Harry Potter and The Philosophers Stone

Task 1 - Read the Review

If Harry Potter himself played witness to the phenomenon he is creating, the sensation would cause his spectacles to steam up.

I'll admit, I'm a newcomer when it comes to J.K. Rowling's popular character, and in the media screening I attended, it was blatantly obvious, judging by the costumed and excited guests, that I had a lot of catching up to do. "Harry Potter and The Philosophers Stone" wasn't on my must-see list for the year - maybe it should have been.

Director Christopher Columbus has created a delightful and miraculous experience with possibly the greatest built-in audience since the 1930s. "Harry Potter and The Philosophers Stone" boasts wonderful performances, grand characters and a vivacious music score from John Williams - the perfect recipe for a successful film.

Young Harry Potter (Daniel Radcliffe) lives under a broom cupboard under his adopted parents home. Fortunately, to his quiet delight, Harry discovers on his 11th birthday that he is, in fact, the child of wizards and that his destiny is to leave the drab world of Muggles (non magic-folk) to attend the Hogwarts School of Witchcraft and Wizardry. Soon after the school's groundkeeper Hagrid (Robbie Coltrane) takes Harry on a shopping expedition to a hidden, magical part of London, he straps himself into a seat on The Hogwarts Train.

Hogwarts is a boarding school like no other. Children are taught to fly broomsticks, are given lectures on how to use their magical wand and play Quidditch, an airborne combination of rugby and rollerball. What Harry didn't count on would be that his heritage would cause him to be the target of a few sinister faculty members. However, with the assistance of two new friends he'll stir up a spell that'll make those shadowy villains think twice about messing with this tyke.

Where Harry Potter scores most of it's points is in casting. Daniel Radcliffe is a dead-ringer for the screen Potter, and has great screen
