economics environmental science business and cultural studies Specifically sustainable waste disposal and management is a growing concern as both solid and liquid wastes are rapidly expanding in direct correlation with population growth and improved economic conditions across regions The Handbook of Research on Waste Management Techniques for Sustainability explores the topic of sustainable development in an era where domestic and municipal waste is becoming a concern for both human and environmental health Highlighting a number of topics relating to pollution green initiatives and waste reduction in both the public and private sector this research based publication is designed for use by environmental scientists business executives researchers graduate level students and policymakers seeking the latest information on sustainability in business medicine agriculture and society *The Art of Strategy* Hwy-Chang Moon,2018-08-09 When it comes to strategy how should we define victory For centuries Eastern and Western thinkers have grappled with this question offering different answers What can we learn from this difference In *The Art of Strategy* Moon provides a novel and systematic integration of the two dominant frameworks of the East and West Sun Tzu's military strategy and Michael Porter's business strategy This unlikely combination of thinking suggests an innovative extension of our understanding and practice of strategy which will appeal to scholars students practitioners and general readers with an interest in strategy By aligning the perspectives of these two great thinkers Moon argues that true winning is about maximizing and optimizing overall value for all engaged stakeholders and this requires a more efficient approach to strategy **Corporate Social Responsibility in India** Nirbhay Lumde,2018-10-10 In India CSR as a mandatory obligation is around five years and the subject area is evolving The last five years have been a roller coaster ride for many CSR professionals and the journey will continue to be intriguing with an ever changing landscape It may take a few more years before we could have seamless processes and systems in place A good number of development organisations are trying out various ways and means of creating impact with access and availability of CSR grants It has also seen the emergence of CSR agencies social enterprises and platforms that will boost and recognise NGO efforts and corporate reputation These are interesting times indeed With the emergence of CSR as an important subject in the academia government and media echelons it is critical that development practitioners and CSR professionals have a philosophical background of the topic It is also important to understand definitions of various social economic and political jargons related institutions and world systems The book restates and simplifies these from a CSR practitioner's point of view and captures CSR professional's journey of understanding the subject area over the years It also provides few practical approaches to make their role relevant contextual and prepare for the future The book also fills the gap of non availability from a practitioner's point of view of the CSR subject **RÉVOLUXION** Siavash Rezaeinasab,2019-11-13 In this Book the focus will be on redefining the concept of luxury and what it means to us In the future luxury will not mean expensive fancy and branded As we already know resources all around the world are becoming scarce It will not come as a surprise that the fate of humankind appears to be intimately linked to the availability of matter

and energy This is not new We have to find and develop ways to use them as best as we can This is where we redefine luxury Luxury will be the use of material and construction techniques in the best and most sturdy method We must build to make things last This is to preserve the remaining resources in the future and we will be considered as a luxury we will try to show their ways and solutions to minimize its negative impacts especially for the future generation and the world With changing some attitudes that branding systems use and have adapted to we can provide a method for luxury brands to create value shared by business communities individuals and be control in seizing the opportunities for leadership in the current socio economic and technological environment and their trajectory for the future Business and Sustainability Scott T. Young,K. Kathy Dhanda,Steve Hollenhorst,2023-12-28 In the twenty first century sustainability has come to the forefront of the debate regarding the responsibilities of corporations and the roles they play in society Society holds them accountable so businesses need to develop and execute sustainability strategies that consider the social economic cultural and natural dimensions of the business environment Young Dhanda and Hollenhorst combine experience in business and environmental studies introducing students in both disciplines to the value of sustainability When sustainability is fully realized and implemented well by corporations it can help develop and retain creative dedicated employees that will drive a bottom line strategy to save costs and a top line strategy to reach a new consumer base
