Harvard Contract Law Syllabus:

Reimagining Contract Law Pedagogy Warren Swain, David Campbell, 2019-01-14 *Reimagining Contract Law Pedagogy* examines why existing contract teaching pedagogy has remained in place for so long and argues for an overhaul of the way it is taught. With contributions from a range of jurisdictions and types of university, it provides a survey of contract law courses across the common law world, reviewing current practice and expressing concern that the emphasis the current approach places on some features of contract doctrine fails to reflect reality. The book engages with the major criticism of the standard contract course, which is that it is too narrow and rarely engages with ordinary life or at least ordinary contracts, and argues that students are left without vital knowledge. This collection is designed to be a platform for sharing innovative teaching experiences with the aim of building a new approach that addresses such issues. This book will have international appeal and will be of interest to academics, researchers, and postgraduates in the fields of law and education. It will also appeal to teachers of contract law as well as governmental and legal profession policymakers.

A Comparative Study of Chinese and Western Legal Language and Culture Falian Zhang, 2021-03-08 This book involves a variety of aspects and levels, including the diachronic and synchronic dimensions. Law profoundly affects our daily lives, but its language and culture can at times be nearly impossible to understand. As a comparative study of Chinese and Western legal language and legal culture, this book investigates the similarities and differences of both sides and identifies their respective advantages and disadvantages. Accordingly, it considers both social and cultural functions and both theoretical and practical values. Firstly, the book addresses the differences that are the basic frameworks and disparities between the Chinese and Western legal languages and legal cultures. Secondly, it explores relevant changes over time, that is, the historical evolution and the basic driving forces that were at work before the Chinese and Western legal languages and cultures met. Lastly, the book elaborates on their fusion, that is, the conflicts and changes in Chinese and Western legal languages and cultures in China in the modern era, as well as the introduction, transplantation, and transformation of Western legal culture.

The Law of Trade Regulation, 1927

Great Debates in Gender and Law Rosemary Auchmuty, 2018-03-16 The first textbook to consider gender perspectives in relation to the whole undergraduate law curriculum in England and Wales. Gender is of central importance in every area of law, and every area of people's lives, but is rarely mentioned in the formal LLB syllabus. This book is designed to fill some of those gaps. 18 chapters, written by experts in the field, cover all the core modules on the English LLB, together with 11 of the most popular options. Aimed at students and lecturers on undergraduate and postgraduate Gender and Law modules, the book will also be useful for all LLB and LLM students studying English law who may use it to accompany their studies from their first to their final year, and also for prospective law students, legal scholars from outside England and Wales, and scholars in other disciplines.

Rewriting the History of the Law of Nations Paolo Amorosa, 2019-09-25 In the interwar years, international lawyer James Brown Scott wrote a series of works on the history of his discipline. He made the case that the

foundation of modern international law rested not as most assumed with the seventeenth century Dutch thinker Hugo Grotius but with sixteenth century Spanish theologian Francisco de Vitoria Far from being an antiquarian assertion the Spanish origin narrative placed the inception of international law in the context of the discovery of America rather than in the European wars of religion The recognition of equal rights to the American natives by Vitoria was the pedigree on which Scott built a progressive international law responsive to the rise of the United States as the leading global power and developments in international organization such as the creation of the League of Nations This book describes the Spanish origin project in context relying on Scott's biography changes in the self understanding of the international legal profession as well as on larger social and political trends in US and global history Keeping in mind Vitoria's persisting role as a key figure in the canon of international legal history the book sheds light on the contingency of shared assumptions about the discipline and their unspoken implications The legacy of the international law Scott developed for the American century is still with the profession today in the shape of the normalization and depoliticization of rights language and of key concepts like equality and rule of law

Aspiration and Reality in Legal Education David Sandomierski, 2020-02-24 Contrary to conventional narratives about legal education *Aspiration and Reality in Legal Education* reveals a widespread desire among law teachers to integrate both theory and practice into the education of versatile and civic minded lawyers Despite this stated desire however this aspiration is largely unrealized due to a host of intellectual and institutional factors that produce a profound gap between what professors believe about law and the ideas they communicate through their teaching Drawing on interviews with over sixty law professors in Canada David Sandomierski makes two important empirical discoveries in this book First he establishes that contrary to a dominant narrative in legal education that conceives of theory and practice as oppositional the vast majority of law professors consider theory to be vitally important in preparing better lawyers Second he uncovers a significant gap between the realist theoretical commitments held by a majority of professors and the formalist theories they almost uniformly convey through their teaching and conceptions of legal reasoning Understanding the intellectual and institutional factors that account for these tensions Sandomierski argues is essential for any meaningful project of legal education reform

Bulletin of the Carnegie Foundation for the Advancement of Teaching, 1914 **The Common Law and the Case Method in American University Law Schools** Josef Redlich, 1914 **Logic and**

Experience William P. LaPiana, 1994-01-20 The 19th century saw dramatic changes in the legal education system in the United States Before the Civil War lawyers learned their trade primarily through apprenticeship and self directed study By the end of the 19th century the modern legal education system which was developed primarily by Dean Christopher Langdell at Harvard was in place a bachelor's degree was required for admission to the new model law school and a law degree was promoted as the best preparation for admission to the bar William P LaPiana provides an in depth study of the intellectual history of the transformation of American legal education during this period In the process he offers a revisionist portrait of

Langdell the Dean of Harvard Law School from 1870 to 1900 and the earliest proponent for the modern method of legal education as well as portraying for the first time the opposition to the changes at Harvard Imperialism, Sovereignty and the Making of International Law Antony Anghie, 2007-04-26 Examines the relationship between imperialism and international law **The Nomination of Elena Kagan to be an Associate Justice of the Supreme Court of the United States** United States. Congress. Senate. Committee on the Judiciary, 2010 **Navigating Choppy Waters** Kent Kauffman, 2025-01-13 Reader friendly jargon free guide to legal issues all college faculty need to know so that they can make teaching decisions within the bounds of the law **Law School** Robert Bocking Stevens, 2001 Comprehensive history of American legal education Originally published Chapel Hill The University of North Carolina Press 1983 xvi 334 pp Law School Legal Education in America from the 1850s to the 1980s examines legal education and its impact on the legal profession and the society it serves This highly lauded work won a Certificate of Merit from the American Bar Association upon its original publication Stevens distinguished career in education and law includes his eight years as Master of Pembroke College Oxford seventeen year term as professor of law at Yale University and nine year term as president of Haverford College Well annotated and indexed with a thorough bibliography the most comprehensive treatment of the subject LAWRENCE M FRIEDMAN A History of American Law Third Edition 2005 589 **Bulletin** Carnegie Foundation for the Advancement of Teaching, 1928 **Directory of Teachers in Member Schools** Association of American Law Schools, 1923 Designing a Motivational Syllabus Christine Harrington, Melissa Thomas, 2023-07-03 A thoughtfully constructed syllabus can be transformative for your students learning communicating the path they can take to succeed This book demonstrates how rather than being a mundane document to convey policies you can construct your syllabus to be a motivating resource that conveys a clear sense of your course s learning goals how students can achieve those goals and makes evident your teaching philosophy and why you have adopted the teaching strategies you will use such as discussion or group activities Developing or revising a syllabus also presents you with a perfect opportunity to review the learning possibilities for the semester Well designed it can help you stay focused on achieving the learning outcomes as well as determine if the class is on track and whether adjustments to the schedule are needed The authors show how by adopting a welcoming tone and clearly stating learning outcomes your syllabus can engage students by explaining the relevance of your course to their studies create an all important positive first impression of you as an instructor and guide students through the resources you will be using the assignments ahead as well as clear guidance on how they will be assessed Referred to frequently as the course progresses an effective syllabus will keep students engaged and on task Christine Harrington and Melissa Thomas lead you through all the elements of a syllabus to help you identify how to present key messages and information about your course think through the impressions you want to create and equally importantly suggest how you can use layout and elements such as images and charts to make your syllabus visually appealing and easy to navigate The
