Winfield,2013-02-20 Winner of the Association of Asian Studies Southeast Conference Book Prize 2014 Does imagery help or hinder the enlightenment experience Does awakening involve the imagination or not Can art ever fully represent the realization of buddhahood In this study Pamela D Winfield offers a fascinating comparison of two pre modern Japanese Buddhist masters and their views on the role of imagery in the enlightenment experience Kukai 774-835 believed that real and imagined forms were indispensable to his new esoteric Mikkyô method for becoming a Buddha in this very body sokushin jobutsu yet he also deconstructed the significance of such imagery in his poetic and doctrinal works Conversely Dogen 1200-1253 believed that just sitting in Zen meditation without any visual props or mental elaborations could lead one to realize that this very mind is Buddha sokushin zebutsu but he also privileged select Zen icons as worthy of veneration In considering the nuanced views of both Kukai and Dogen anew Winfield updates previous comparisons of their oeuvres and engages their texts and images together for the first time In so doing she liberates them from past sectarian scholarship that has pigeon holed them into iconographic ritual vs philological philosophical categories She also restores the historical symbiosis between religious thought and artistic expression that was lost in the nineteenth century disciplinary distinction between religious studies and art history Finally Winfield breaks new methodological ground by proposing space and time as organizing principles for analyzing both meditative experience and visual material culture As a result this study presents a wider and deeper vision of how Japanese Buddhists themselves understood the role of imagery before during and after awakening *The Princeton Companion to Classical Japanese Literature* Earl Miner,Robert E. The Symbolism of the Stupa Adrian Snodgrass, 1992-01-01 In his preface to *The Symbolism of the Stupa* Prof Craig Reynolds writes The stupa is a symbolic form that pullulates throghout South Southeast and East Asia In its Indian manifestations it is an extreme case in terms of architectural function it has no usable has a basic simplicity In this state of the art studt Adrian Snodrass reads the stupa as a cultural artifact The mounment concretizes metaphyswical principles and generates multivalent meanings in ways that can be articulated with literary texts and other architectural forms This study analyses a pattern of interrelated meanings generated by the form of the stupa It does so by reference to myth to ritual and to doctrine viewing the architectural form from within the conceptual framework of the tradition to which it belongs This approach involves questions of aim and methodology A deeper understanding of a symbol is gained by studying the grid or net formed by its symbolic homologues The pattern of meaning that emerges from the juxtaposition of cognate symbols does not exhaust the significance of the symbol which is ultimately beyond worlds but it reinforces its intimations indicating a logical cohesion and integrity which in itself is an intimation of the all pervasiveness of Principle It is precisely this pattern of inter reflection or symbols that this study attempts to delineate By bringing together cognate symbols in apposition it attempts to mark out the field of symbolic interactions which the stupa generates *Tantra in Practice* David Gordon

White, 2000 *Tantra in Practice* is the eighth volume of Princeton Readings in Religions and the first substantial anthology of Tantric works ever to appear in English. The thirty-nine contributors drawn from around the world are leading scholars of Tantra. Each contributor has provided a translation of a key work, in most cases translated here for the first time. Each chapter in the volume begins with an introduction in which the translator discusses the history and influence of the work, identifying points of particular difficulty or interest. David White has provided a general introduction to the volume that serves as an ideal guide to the riches contained between the covers of this book. He has organized the volume thematically, providing fascinating juxtapositions of works from different regions, periods, and traditions. Two additional tables of contents are provided, organizing the works by tradition and by country of origin. The range of works represented here is remarkable, spanning the continent of Asia and the traditions of Hinduism, Buddhism, Jainism, and Islam over more than a millennium. With the publication of this volume, the long-disparaged and neglected Tantric traditions of Asia receive the attention they so rightly deserve. This is a groundbreaking work.
