China cooperation Non-Traditional Security Issues and the South China Sea Shicun Wu, Keyuan Zou, 2016-05-23 While there is abundant literature discussing non traditional security issues there is little mention of such issues existing in the South China Sea This area is vulnerable to natural hazards and marine environmental degradation The marine ecosystem is threatened by various adverse sources including land based pollution busy shipping lanes and over exploitation activities which threaten the security of the surrounding population This area is also threatened by piracy and maritime crimes but law enforcement becomes difficult due to unclear maritime boundaries This volume is designed to explore the security cooperation and regional approaches to these non traditional security issues in the hope to build a peaceful environment and maintain international and regional security and order in the South China Sea region China and Southeast Asia in the Xi Jinping Era Alvin Cheng-Hin Lim, Frank Cibulka, 2018-12-12 In 2012 the Communist Party of China CPC inaugurated the Xi Jinping era when it elected him to be the General Secretary of the CPC The following year Xi was elected President of the People s Republic of China The Xi Jinping era has seen a remarkable transformation of Chinese foreign policy which has been adjusted to facilitate the achievement of what Xi has proclaimed as the Great Rejuvenation of the Chinese Nation Xi s Belt and Road Initiative has become a major element of Chinese economic diplomacy while the Chinese military industrial complex under his leadership has strengthened China s extensive claims in the South China Sea with reclamation works and the installation of military facilities on its occupied islands This edited volume will focus on the countries of Southeast Asia and examine how their relations with China have been transformed in the Xi Jinping era The Domestic Sources of China's Foreign Policy Lai Hongyi, 2010-04-28 As China s political and economic influence in the world is rapidly increasing it is essential to understand how China s domestic politics affects its foreign political and economic policy This book offers an accessible informative and up to date systemic analysis of the foreign policy of China Where mainstream literature on international relations usually suggests that China s foreign policy is primarily determined by external factors such as the international system and external settings this book demonstrates instead that domestic factors profoundly shape China s foreign policy from the late Mao s era to the reform era It demonstrates how China s foreign policy is driven by the preservation of political and economic regimes the political survival of the top leader the top leader s vision for and skills in managing external affairs the leader s policy priorities dramatic events and the process of policymaking It presents its argument in depth analysis of major cases of Chinese foreign policy for example China s difficult relations with Southeast Asia China s 15 year accession to the World Trade Organization WTO China s oil diplomacy in the recent decade and the diversified process of foreign policy making in the twenty first century **Changing European Visions of Disaster and Development** Vanessa Pupavac, Mladen Pupavac, 2020-09-02 Goethe s 1832 poem Faust offers a vision of humanity realising freedom and prosperity through transcending natural adversity Changing European Visions of Disaster and Development returns to Faust as a way of exploring the rise and fall of European humanist aspirations to build free and prosperous

national political communities protected from natural disasters Faust stories emerged in early modern Europe linked to the shaking of the traditional religious and political order and the pursuit of new areas of human knowledge and activity which led to a shift from viewing disasters as acts of God to acts of nature Faust's dam building and land reclamation project in Goethe's poem was inspired by Dutch hydro engineering and in turn inspired others Faustian dreams of an engineered future were pursued by the American Yugoslav inventor Nikola Tesla and the country of his birth towards establishing its national independence and escaping the fate of being a borderland Faust remains a compelling reference point to explore European visions of disaster and development If Faust captured the European spirit of earlier centuries what is today's outlook Ambitious Faustian development visions to eradicate natural disasters have been replaced by anti Faustian risk cosmopolitanism sceptical towards human activity in ways counter to building collective protection from disaster Tesla's country of birth fears returning to being an insecure borderland of Europe This powerful and timely book calls for a rekindling of European humanism and Faust's vision of free people standing on free land
