*Multicultural America* Carlos E. Cortés, 2013-08-15  
 This comprehensive title is among the first to extensively use newly released 2010 U S Census data to examine multiculturalism today and tomorrow in America  
 This distinction is important considering the following NPR report by Eyder Peralta Based on the first national numbers released by the Census Bureau the AP reports that minorities account for 90 percent of the total U S growth since 2000 due to immigration and higher birth rates for Latinos  
 According to John Logan a Brown University sociologist who has analyzed most of the census figures The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations  
 Both non Hispanic whites and blacks are getting older as a group These groups are tending to fade out he added  
 Another demographer William H Frey with the Brookings Institution told The Washington Post that this has been a pivotal decade We're pivoting from a white black dominated American population to one that is multiracial and multicultural  
 Multicultural America A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today  
 Pedagogical elements include an introduction a thematic reader's guide a chronology of multicultural milestones a glossary a resource guide to key books journals and Internet sites and an appendix of 2010 U S Census Data  
 Finally the electronic version will be the only reference work on this topic to augment written entries with multimedia for today's students with
