Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

Language for Those Who Have Nothing Peter Good, 2006-04-11 The aim of Language for those who have Nothing is to think psychiatry through the writings of Mikhail Bakhtin Using the concepts of Dialogism and Polyphony the Carnival and the Chronotope a novel means of navigating the clinical landscape is developed Bakhtin offers language as a social phenomenon and one that is fully embodied Utterances are shown to be alive and enfolded and their meanings realised in the context of

given social dimensions The organisation of this book corresponds with carnival practices of taking the high down to the low before replenishing its meaning anew Thus early discussions of official language and the chronotope become exposed to descending levels of analysis and emphasis Patients and practitioners are shown to occupy an entirely different spatio-temporal topography These chronotopes have powerful borders and it is necessary to use the Carnival powers of cunning and deception in order to enter and to leave them The book provides an overview of practitioners who have attempted such transgression and the author records his own unnerving experience as a pseudopatient By exploring the context of psychiatry's unofficial voices its terminology jokes parodies and everyday narratives the clinical landscape is shown to rely heavily on unofficial dialogues in order to safeguard an official identity *A Dictionary of Modern Critical Terms* Roger Fowler, 2016-09-19 This book first published in 1987 differs from many other dictionaries of criticism in concentrating less on time honoured rhetorical terms and more on conceptually flexible powerful terms Each entry consists of not simply a dictionary definition but an essay exploring the history and full significance of the term and its possibilities in critical discourse This title is an ideal basic reference text for literature students of all levels **Dictionary of the Theatre** Patrice Pavis, 1998-01-01 An encyclopedic dictionary of technical and theoretical terms the book covers all aspects of a semiotic approach to the theatre with cross referenced alphabetical entries ranging from absurd to word scenery Bartók and the Grotesque Julie A.
