possessing which no man could die **Buckets of Diamonds** Clifford D. Simak, 2023-06-13 This collection of stories from the Hugo Award winning science fiction author ranges from alien planets to the more peculiar corners of the American landscape A pioneering voice in twentieth century science fiction Clifford D Simak earned his place alongside such luminaries as Isaac Asimov and Ray Bradbury While some of his stories imagined interplanetary space travel many others depicted strange events in otherwise ordinary American towns in what some readers would come to think of as Simak Country This volume contains examples of each In *Horrible Example* a small town drunk reveals the extraordinary but essential role he plays in the community that shuns him A space crew attempts to find substances on Jupiter that might help cure ailing humans back on Earth in *Clerical Error* And in the title story a seemingly miraculous pile of treasure is scorned by a mysterious man of God Each story includes an introduction by David W Wixon literary executor of the Clifford D Simak estate and editor of this ebook **Off the Main Sequence** Tom Easton, 2006-10-01 Tom Easton has served as the monthly book review columnist for *Analog Science Fiction* for almost three decades having contributed during that span many hundreds of columns and over a million words of penetrating criticism on the best literature that science fiction has to offer His reviews have been celebrated for their wit humor readability knowledge and incisiveness His love of literature particularly fantastic literature is everywhere evident in his essays Easton has ever been willing to cover small presses obscure authors and unusual publications being the only major critic in the field to do so on a regular basis He seems to delight in finding the rare gem among the backwaters of the publishing field A reviewer's job he says is not to judge books for the ages but to tell readers enough about a book to give them some idea of whether they would enjoy it And this he does admirably whether he's discussing the works of the great writers in the field or touching upon the least amongst them This companion volume to *Periodic Stars* *Borgo Wildside* collects another 250 of Easton's best reviews from the last fifteen years of *The Reference Library* No one does it better and no other guide provides such lengthy or discerning commentary on the best SF works of recent times Complete with Introduction and detailed Index **The Animal Fable in Science Fiction and Fantasy** Bruce Shaw, 2010-04-23 Though animal stories and fables stretch back into the antiquity of ancient India Persia Greece and Rome the reasons for writing them and their resonance for readers and listeners remain consistent to the present This work argues that they were essential sources of amusement and instruction and were also often profoundly unsettling Such authors in the realm of the animal fable as Tolkien Freud Voltaire Bakhtin Cordwainer Smith Karel Capek Vladimir Propp and many more are discussed **The Year's Best Science Fiction: Thirty-Fourth Annual Collection** Gardner Dozois, 2017-07-11 Presents some of the best science fiction short stories written in 2016 **Star-Begotten** James Gunn, 2017-11-28 Hugo Award winning writer James Gunn 1923-2020 has been called the last Golden Age author of science fiction In a career of almost 70 years he wrote or edited 45 books and more than 100 short stories and participated in the production of films radio and television programs and comic books *Immortals* Gardner Dozois, Jack Dann, 2013-03-15
