Unwinding Of The

Globalist Dream, The: Eu, Russia And China Steven Rosefielde, Masaaki Kuboniwa, Satoshi Mizobata, Kumiko Haba, 2017-11-14

This collection of essays documents and investigates the conflicts in Europe, Russia and China that sparked populist revolts against the established globalist order in the European Union. It shows that the populist surge was not an anomaly; it was a reflection of the internal contradictions of globalism that sparked nationalist resentment inside the EU and backlashes against Western soft power aspirations in Russia and China. The idealist rhetoric of the globalist dream was persuasive. It lulled many into believing that the movement should not and could not be stopped until the 2008 global financial crisis started the dream to unwind. The essays in this volume show that globalism is not dead but will have to reinvent itself to revive.

*China's 40 Years of Economic Reform and Development* Xinli Zheng, 2018-10-12. This book aims to explain the secret to China's rapid growth over the last 40 years from the viewpoint of a firsthand witness. Zheng Xinli was enrolled as a graduate student of economics 40 years ago at a time when very few Chinese people could enroll in higher level education let alone graduate school. Since 1978 he has been engaged in the study of macroeconomic theory and economic policy. He has worked with the economic group of the Research Section of the Secretariat of the Central Committee of the Communist Party of China, the State Information Center and the Policy Research Office of the State Planning Commission as well as other organizations. His work serves to help Chinese leaders in making economic decisions. In 2013 Zheng Xinli appeared on the list of China's Top Ten Economists. With the addition of several up to date articles, this book is mainly a condensed version of a 16 volume collection of essays selected from among the more than 500 articles published by Zheng between 1981 and 2016. Addressing some of the major issues in China, namely Reform and Development, Development Patterns, Macro Regulation, Balanced Urban and Rural Development, Innovation and Industry Revitalization, the book as Zheng himself puts it visualizes the birth process of different policies and measures which have catered to the different stages of reform. As an insider and also partly as a designer and architect, Zheng Xinli provides readers with a view of China's reform from the top.

*Xi Jinping's 'Chinese Dream'* Prashant Kumar Singh, 2022-12-30. Singh analyses the influence of Xi's Chinese Dream on China's foreign relations and security postures. Xi Jinping's rise has led to a paradigm shift in many aspects of China's domestic and international politics. A key element of this has been the ideological vision shorthanded as the Chinese Dream, combining elements of nationalism, Confucian ideology and economic expansionism. Singh evaluates the various changes in China's nominally communist ideology in the post-Mao era with an emphasis on the implications for China's economic and security relations with other countries. He particularly focusses on China's approach to South Asia and the Indian Ocean Region, key elements of China's strategy. An insightful guide to understanding the direction of China's foreign and security policy and especially its impact on

India China relations
