Espín, Miguel H. Díaz, 1999-01-01 **Introducing Latino/a Theologies** Miguel A. De La Torre, Edwin David Aponte, 2001-01-01 The authors articulate the fundamental principles and perspectives with which Hispanics from different faith traditions do theology They show who Latino as are and how their various cultures have been shaped by historical movements such as colonialism and Christian mission BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Beyond Borders** Virgilio Elizondo, 2009-05-01 A celebration of the theology of Virgilio Elizondo that brings together his significant essays previously unpublished in book form along with critical reflections by a range of scholars *Beyond Borders* is an indispensable treatment of the breadth of Virgilio Elizondo's theological and pastoral vision Contributors include Thomas H Groome Orlando O Espín Jeeanette Rodriguez Roberto S Goizueta Justo L Gonzalez John A Coleman Alejandro Garcia Rivera Rosino Gibellini Gloria Ines Loya Anita de Luna R Stephen Warner Carlos Mendoza and Jacques Audinet **Full of Grace** Judith Dupre, 2010-11-02 Two thousand years ago a girl from Nazareth was transformed by a simple yes into the Mother of God the subject of sublime devotion divisive controversy and extravagant speculation A mother and a virgin a saint and a peasant a woman both tragic and triumphant Mary has held sway over the human imagination for centuries Yet she has never felt as relevant to our everyday lives as she does today In *Full of Grace* Judith Dupr the bestselling author of *Churches* offers an intimate exploration of this beloved figure now and through the ages In a series of poignant stories and essays Dupr examines Mary's artistic cultural and historical influence and at the same time shows how Mary's human journey of love compassion grief and humble strength inextricably connects her to our modern lives Accompanied by a breathtaking visual feast ranging from classic Renaissance portraits to unexpected contemporary images Dupr's text offers insights into the Virgin Mary as a mother

and as a religious icon Visits to the great shrines of Marian pilgrimage Lourdes Medjugorje Fatima and the Basilica of Our Lady of Guadalupe underscore the author's journey to find Mary's meaning in her own life In an essay about Mary in the Qur'an we see how Mary far from being an exclusively Catholic figure emerges as one of the central women in Islam Another piece details the author's travels in the Holy Land a landscape wracked by religious strife but still overflowing with the spirit of generosity that Mary embodies From Sudanese refugee camps to the painful reminders of Auschwitz from the struggle of divorce to the challenges of raising a child with autism we see how Mary's tenderness bravery and grace infuse the story of every mother young and old For men and women seeking to better understand their own life journey this book looks at the many miracles large and small along the way From the Hardcover edition [American Patroness](#) Katherine Dugan, Karen E. Park, 2024-01-02 A vital collection of interdisciplinary essays that illuminates the significance of Marian shrines and promises to teach scholars how to read them for decades to come American Patroness Marian Shrines and the Making of US Catholicism is a collection of twelve essays that examine the historical and contemporary roles of Marian shrines in US Catholicism The essays in this collection use historical ethnographic and comparative methods to explore how Catholics have used Marian devotion to make an imprint on the physical and religious landscape of the United States Using the dynamic malleability of Marian shrines as a starting place for studying US Catholicism each chapter reconsiders the American religious landscape from the perspective of a single shrine to Mary and asks What does this shrine reveal about US Catholicism and about American religion Each of the contributors in American Patroness examines why and how Marian shrines persist in the twenty first century and subsequently uses that examination to re read contemporary US Catholicism Because shrines are not neutral spaces they reflect and shape the elastic yet strict boundaries of what counts as Catholic identity and who controls prayer practices the studies in this collection also shed light on the contested dynamics of these holy sites American Patroness demonstrates that Marian shrines continue to be places where an American Catholic identity is continuously worked on negotiations about power occur and Marian relationships are fostered and nurtured in spaces that are simultaneously public and intimate [Butler's Saints of the Third Millennium](#) Paul Burns, 2001-01-01 Pope John Paul II has proclaimed an unprecedented number of new saints and blessed in the 25 years of his pontificate and shows few signs of slowing the process despite the criticism from at least one cardinal that the altars are getting a little crowded The proclamations have been made in a large number of countries from which the new saints and blessed have come This reflects a deliberate policy of strengthening the faith of local churches against the threats from totalitarianism secularism Pentecostalism etc the Vatican tends to see most of the outside world as a threat There has also been a deliberate policy to seek more examples of holiness from outside the ranks of clergy and religious The twentieth century has been seen as the century of martyrs largely those of Nazism and Communism and they feature prominently those of nominally Catholic military regimes are less favoured The Introduction will make such points This volume proposes to cover a four year period in

the Butler's style Blesseds appearing in the 1995-2000 volumes who have since been canonized will have their entries updated and expanded as necessary new blesseds will be featured with the information that is available which in the case of some Third World figures is not very much Entries will therefore range from around 3,000 words to 200 with an average of some 800 The number of entries will be approximately 80

**From Patmos to the Barrio** David A. Sánchez, Sanchez's subject is the power of imperial myths and the subversive power unleashed when resistance movements take over those myths for their own purposes Moving from John of Patmos's inversion of Roman imperial mythology in Revelation 12 to the indigenous appropriation of Spanish symbolism and mythology drawn from Revelation 12 in 17th century Mexico Sanchez then explores the continuing power of the Virgin of Guadalupe La Guadalupea to inspire movements for a better society in our own day From Patmos to the Barrio reveals new insights into the biblical Apocalypse of John and the enduring power of its legacy down to the present day as well as translations of two important 17th century documents concerning La Guadalupea Luis Laso de la Vega's Huei tlamahuiacoltica and Miguel Sanchez's Imagen de la Virgen Maria Also included are images of La Guadalupea in the murals of East Los Angeles

Kim,2012-05-03 The theological reflections of Virgilio

Elizondo and Gustavo Gutierrez are examples of the ecclesial fruitfulness of the second half of the twentieth century Following the directives of Pope John XXIII and the Second Vatican Council Elizondo and Gutierrez present the Gospel message in relevant terms to their own people by engaging the world as the Church of the poor Inspired by this moment in Church history while at the same time recognizing the plight of their people in their poor and marginal existence Elizondo and Gutierrez discovered a new way of doing theology by asking a specific set of questions based on their local context By investigating where God is present in the border crossers of the southwestern United States and the poorest of the poor in Latin America both theologians have uncovered a hermeneutical lens in rereading Scripture and deepening our understanding of ecclesial tradition Elizondo s mestizaje and Gutierrez s preferential option for the poor arose out of a theology of context a theological method that takes seriously the contextual circumstances of their locale By utilizing the common loci theologici of Scripture and tradition in conjunction with context and their own experience Elizondo and Gutierrez illustrate through their theologies how every group must embrace their own unique theological reflection *The*

*Oxford Handbook of Latin American Christianity* David Thomas Orique,Susan Fitzpatrick-Behrens, Virginia Garrard,2020 Latin America where 90% of the population is Christian and where nearly 40% of the world s Catholics reside has its own unique brand of Christianity The Oxford Handbook of Latin American Christianity offers a survey of Latin American Christianity from thirty three leading scholars The volume systematically introduces and examines dramatic shifts in Catholic and Protestant Christianity over the course of several centuries Its four sections explore the emergence of colonial

O'Connell, 2012 The idea and ideal of beauty has been used to oppress women of different ages body types skin color and physical ability The theoretical discussion of aesthetics has also been conditioned by these same dynamics of power and oppression In *She Who Imagines* a diverse set of scholars challenges the exclusion and false definitions while constructing capacious ideas that discover beauty in unexpected places In these essays the authors draw on a variety of arts media painting photography portraiture craftwork poetry and hip hop music thereby joining beauty to truth and in a richly defining way to the practice of justice In a variety of ways all the essays link women s definitions of beauty with experiences of suffering and hence with the yearning for justice All clearly prize resistance to degradation as an essential element of thought      **From Trent to Vatican II** Raymond F. Bulman, Frederick J. Parrella, 2006-06-15 The second Vatican Council was convened by Pope John XXIII between 1962 and 1965 It marked a fundamental shift toward the modern Church and its far reaching innovations replaced or radically changed many of the practices rules and attitudes that had dominated Catholic life and culture since the Council of Trent in the sixteenth century In this book a distinguished team of historians and theologians offers an impartial investigation of the relationship between Vatican II and Trent by examining such issues as Eucharistic theology liturgical change clerical reform the laity the role of women marriage confession devotion to Mary and interfaith understanding As the first book to present such a comprehensive study of the connection between the two great Councils this is an invaluable resource for students theologians and church historians as well as for bishops clergy and religious educators      **Farm Workers and the Churches** Alan J. Watt, 2010-02-23 In the mid 1960s the charismatic Cesar Chavez led members of California s La Causa movement in boycotting the grape harvest and melon pickers in South Texas called a strike against growers contesting unfair labor and wage practices in both states In *Farm Workers and the Churches* Alan J Watt shows how the religious and social contexts of the farm workers their leaders and the larger society helped or hindered these two pivotal actions Watt explores the ways in which liberal expressions of Northern Protestantism transplanted to California and combined with the pro labor wing of the Catholic Church and the heritage of Mexican popular piety provided a fertile field for the growth of broad support for Chavez and his organizing efforts Eventually La Causa was able to achieve collective bargaining victories including a historic labor contract between California agribusiness and farm workers The movement did not fare as well in Texas where the combination of a locally weak union leadership a more conservative Southern Protestant ethos and the strikebreaking measures of the Texas Rangers all boded ill However a general Chicano movement ultimately took permanent root in the state because of the workers struggle Watt offers a careful examination of the complex interactions among religious traditions social heritage and ethnicity as these factors affected the course and outcomes of these two pioneering campaigns undertaken by La Causa
