Che's Afterlife Michael J. Casey, 2012-06-06 In 1960 Cuban photographer Alberto Korda captured fabled revolutionary Ernesto Che Guevara in what has become history's most reproduced photo Here Michael Casey tells the remarkable story of this image detailing its evolution from a casual snapshot to an omnipresent graphic plastered on everything from T-shirts to vodka to condoms and into a copyrighted brand As Casey follows it across the Americas and through cyberspace he finds governments exploiting it and their dissenters attacking it merchants selling it and tourists buying it We see how this image is ultimately a mercurial icon that still ignites passion and a reflection of how we view ourselves **Che's Travels** Paulo

Irish on the Inside Tom Hayden,2020-05-05 Tom Hayden first realized he was Irish on the inside when he heard civil rights marchers in Northern Ireland singing We Shall Overcome in 1969 Though his great grandparents had been forced to emigrate to the US in the 1850s Hayden s parents erased his Irish heritage in the quest for respectability In this passionate book he explores the losses wrought by such conformism Assimilation he argues has led to high rates of schizophrenia depression alcoholism and domestic violence within the Irish community Today s Irish Americans Hayden contends need to re inhabit their history to recognize that assimilation need not entail submission By recognizing their links to others now experiencing the prejudice once directed at their ancestors they can develop a sense of themselves that is both specific and inclusive The survival of a distinct Irish soul is proof enough that Anglo culture will never fully satisfy our needs We have a unique role in reshaping American society to empathize with the world s poor for their story is the genuine story of the Irish

No Exit Yoav Di-Capua,2018-03-30 It is a curious and relatively little known fact that for two decades from the end of World War II until the late 1960s existentialism s most fertile ground outside of Europe was in the Middle East and Jean Paul Sartre was the Arab intelligentsia s uncontested champion In the Arab world neither before nor since has another Western intellectual been so widely translated debated and celebrated By closely following the remarkable career of Arab existentialism Yoav Di Capua reconstructs the cosmopolitan milieu of the generation that tried to articulate a political and philosophical vision for an egalitarian postcolonial world He tells this story by touring a fascinating selection of Arabic and Hebrew archives including unpublished diaries and interviews Tragically the warm and hopeful relationships forged between Arab intellectuals Sartre Simone de Beauvoir and others ended when on the eve of the 1967 war Sartre failed to embrace the Palestinian cause Today when the prospect of global ethical engagement seems to be slipping ever farther out of reach No Exit provides a timely humanistic account of the intellectual hopes struggles and victories that shaped the Arab experience of decolonization and a delightfully wide ranging excavation of existentialism s non Western history

Knowledge and Power in the Global Economy David Gabbard,2017-07-05 Advancing a three fold political agenda this volume illuminates how the meanings assigned to a whole vocabulary of words and phrases frequently used to discuss the role and reform of U S public schools reflect an essentially economic view of the world contends that education or educational reform conducted under an economized worldview will only intensify the effects of the colonial relations of political and economic domination that it breeds at home and abroad and offers a set of alternative concepts and meanings for reformulating the role of U S public schools and for considering the implications of such a reformulation more generally for the underlying premises of all human relationships and activities Toward these ends the authors in Part I critically examine many of the most commonly used terms within the rhetoric of educational reform since the early 1980s and before Part II links today s economized worldview to curricular and instructional issues These essays are especially important

Kantowicz,2000 An independent scholar and former history professor addresses the post WWII period in Volume 2 of his narrative history of the 20th century His account revolves around two dominant global events the Cold War and the revolt against imperialism showing how these events both drove nations apart while creating political and regional alliances Annotation copyrighted by Book News Inc Portland OR Left-Wing Melancholia Enzo Traverso,2017-01-10 The fall of the Berlin Wall marked the end of the Cold War but also the rise of a melancholic vision of history as a series of losses For the political left the cause lost was communism and this trauma determined how leftists wrote the next chapter in their political struggle and how they have thought about their past since Throughout the twentieth century argues Left Wing Melancholia from classical Marxism to psychoanalysis to the advent of critical theory a culture of defeat and its emotional overlay of melancholy have characterized the leftist understanding of the political in history and in theoretical critique Drawing on a vast and diverse archive in theory testimony and image and on such thinkers as Karl Marx Walter Benjamin Theodor W Adorno and others the intellectual historian Enzo Traverso explores the varying nature of left melancholy as it has manifested in a feeling of guilt for not sufficiently challenging authority in a fear of surrendering in disarray and resignation in mourning the human costs of the past and in a sense of failure for not realizing utopian aspirations Yet hidden within this melancholic tradition are the resources for a renewed challenge to prevailing regimes of historicity a passion that has the power to reignite the dialectic of revolutionary thought **Saints** Françoise Meltzer,Jas Elsner,2024-05-31 While the modern world has largely dismissed the figure of the saint as a throwback we remain fascinated by excess marginality transgression and porous subjectivity categories that define the saint In this collection Fran oise Meltzer and Jas Elsner bring together top scholars from across the humanities to reconsider our denial of saintliness and examine how modernity returns to the lure of saintly grace energy and charisma Addressing such problems as how saints are made the use of saints by political and secular orders and how holiness is personified Saints takes us on a photo tour of Graceland and the cult of Elvis and explores the changing political takes on Joan of Arc in France It shows us the self fashioning of culture through the reevaluation of saints in late antique Judaism and Counter Reformation Rome and it questions the political intent of underlying claims to spiritual attainment of a Muslim sheikh in Morocco and of Sephardism in Israel Populated with the likes of Francis of Assisi Teresa of Avila and Padre Pio this book is a fascinating inquiry into the status of saints in the modern world Youth and the Cuban Revolution Anne Luke,2018-10-15 Youth and the Cuban Revolution Youth Culture and Politics in 1960s Cuba is a new history of the first decade of the Cuban Revolution exploring how youth came to play such an important role in the 1960s

on this Caribbean island Certainly youth culture and politics worldwide were in the ascendant in that decade but in this pioneering and thought provoking work Anne Luke explains how the unique circumstances of the newly developing socialist revolution in Cuba created an ethos of youth which becomes one of the factors that explains how and why the Cuban Revolution survives to this day By examining how youth was constructed and constituted within revolutionary discourse policy and the lived experience of young Cubans in the 1960s Luke examines the conflicted but ultimately successful development of a revolutionary youth culture She explores the fault lines along which the notion of youth was created between the internal and the external between discourse and the everyday between politics and culture Luke looks at how in the first decade of the Cuban Revolution a young leadership Fidel Ra l and Che were complemented by a group of new protagonists from Cuba s young generation These could be literacy teachers party members militia members teachers singers poets all aiming to define and shape the Cuban Revolution Together young Cubans took part in defining what it meant to be young socialist and Cuban in this effervescent decade The picture that emerges is one in which neither youth politics nor youth culture can alone help to explain the first decade of the Revolution rather through the sometimes conflicted intersection of both there emerged a generation constantly to be renewed a youth in Revolution
