Handbook Of Worldwide Postal Reform Advances In Regulatory Economics:

Handbook of Worldwide Postal Reform Michael A. Crew, Paul R. Kleindorfer, James I. Campbell, 2009-01-01 The postal and delivery sector has been the subject of considerable interest in recent years This book brings together a number of contributions directed at understanding developments in the field of postal reform The authors review the experience and plans of individual countries to provide some perspective on the problems faced in the area and the varied approaches being taken to address it They also review key elements of policy and strategy that are important in this debate Multi-Modal Competition and the Future of Mail Michael A. Crew, Paul R. Kleindorfer, 2012 This compilation of original papers selected from the 19th Conference on Postal and Delivery Economics and authored by an international cast of economists lawyers regulators and industry practitioners addresses perhaps the major problem that has ever faced the postal sector electronic competition from information and communication technologies ICT This has increased significantly over the last few years with a consequent serious drop in mail volume All postal services have been hard hit by ICT but probably the hardest hit is the United States Postal Service which has lost almost a quarter of its mail volume since 2007 The loss of mail volume has a devastating effect on scale economies which now work against post offices forcing up their unit costs Strategies to stem the loss in volume include non linear pricing or volume discounts increased efficiency and the development of new products This loss of mail volume from ICT is one of a number of current problems addressed in this volume The Universal Service Obligation USO continues to be a leading issue and concern that ICT undermines postal services ability to finance the USO is discussed The importance of measuring and forecasting demand and costs take on even greater importance as ICT undermines the foundations of the postal business This thought provoking book brings to bear new analyses of the most serious threat post offices have ever faced and raises fundamental questions as to the future of mail Multi Modal Competition and the Future of Mail is an ideal resource for students researchers in regulation and competition law postal administrations policy makers consulting firms and regulatory bodies Reforming the Postal Sector in the Face of Electronic Competition Anheuser-Busch, 2013-01-01 Professors Crew and Kleindorfer have once again assembled a valuable collection of essays that address timely and important issues in postal sectors throughout the world The essays employ diverse methodologies to provide useful insights about recent and likely future developments in the postal industry This book will be a valuable resource for researchers industry practitioners and policymakers alike David E M Sappington University of Florida US In our increasingly technology focused world demand for traditional postal services is steadily shrinking This timely volume examines the many challenges that the worldwide postal sector is facing as a result of growing electronic competition and offers expert recommendations for reshaping postal structures to strengthen their competitiveness in an electronic age Drawn from a selection of papers presented at the 20th Conference on Postal and Delivery Economics in Brighton UK this book showcases expert contributions on the rapidly changing postal sectors in both the United States and Europe Topics

discussed include the various financial challenges posed by decreasing demand for postal services recent changes in how postal services are provided and new structures and modes of operation such as privatization that are currently affecting the industry Contributors offer a thorough breakdown of the issues as well as ideas for keeping the postal sector alive in a world that is growing ever more reliant on purely electronic means of communication Economists with an interest in regulatory economics innovation and public sector economics will find this volume useful and informative as will institutional libraries and industry professionals

Reinventing the Postal Sector in an Electronic Age Michael A. Crew,Paul R.

Kleindorfer,2011-01-01 This compilation of original essays by an international cast of economists regulators and industry practitioners analyzes some of the major issues now facing postal and delivery services throughout the world as competition from information and communication technologies ICT has increased Competition has become increasingly important in the postal sector for some time in the form of alternative entrants providing mail delivery However the competition from ICT in the form of email and instant messaging the Internet Facebook and other forms of social networking and portable wireless devices such as the iPad and Kindle may be even more significant Mail volumes are falling and the economies of scale that have made possible daily deliveries to every address are being eroded This book assesses volume these declines resulting from this so called eSubstitution and looks at the ways the postal sector can adapt to the rapid changes resulting from ICT The impact of electronic invoicing on transactions mail and the impact on bulk mail of electronic forms of advertising are examined Strategies including pricing and access policies are discussed in the context of the increasing impact of ICT A rethinking of the role of mail in an electronic age is taking place and this book provides the cutting edge of this rethinking and the attempts of POs to reinvent themselves while continuing to meet the public s expectation of continuing ubiquitous daily deliveries of traditional mail products Undergraduate and postgraduate students and researchers in regulation competition law innovation and public sector economics along with institutional libraries and industry professionals will find this volume informative and useful

Progress in the Competitive Agenda in the Postal and Delivery Sector Michael A.

Crew,Paul R. Kleindorfer,2009-01-01 Regulation continues to be an important issue in the postal and delivery sector of the global economy This latest volume in the Advances in Regulatory Economics series reflects the latest research on trends and policies affecting the postal sector and progress made in the industry s competitive agenda It is global in scope and covers a broad range of legal and economic issues from leading scholars researchers and policy makers Topics covered include service quality and price caps the impact of price regulation on service quality financing the USO cost analysis and pricing of innovative postal products postal demand studies the effects of intermedia competition mail order demand Internet advertising trends in direct mail legal and regulatory issues related to the postal sector competitive strategies in the parcel market and environmental impacts of mail The book also provides concrete analyses of the driving forces underlying restructuring transformation and privatization strategies of postal operators Scholars and practitioners in public sector

economics and postal regulation will appreciate this in depth treatment of their industry *The Role of the Postal and Delivery Sector in a Digital Age* Michael A Crew,Timothy J Brennan,2014-01-31 This volume the result of the 21st Conference on Postal and Delivery Economics Ireland 2013 describes the continuing problem of the decline of the postal sector in the face of electronic competition and offers strategies for the survival of mail s Heightening Competition in the Postal and Delivery Sector Michael A. Crew,Paul R. Kleindorfer,2010-01-01 This compilation of original essays by an international cast of top scholars addresses some of the major issues now facing postal and delivery services throughout the world The European Commission and member states wrestle with the problem of how to implement the scheduled liberalization of these sectors and maintain the universal service obligation while the United States Postal Service is coming to terms with the Postal Accountability and Enhancement Act In addition the book addresses the impact of electronic competition as well as other problems facing the field The contributors analyze pressing issues such as access to infrastructure and service elements changes in the national regulations of EU countries forecasting mail volumes and the evolving market environment issues surrounding universal service and others Undergraduate and postgraduate students and researchers in regulation and public sector economics along with industry professionals will find this volume informative and useful **International Handbook on Economic Regulation** Michael A. Crew,David Parker,2006 Michael Crew and David Parker have compiled a comprehensive up to date and detailed analytical work on leading research issues in the economics of regulation With contributions from international specialists in economic regulation the Handbook provides a comprehensive discussion of major developments in both the theory and practice of regulatory economics This book will be an indispensable source for both students and practitioners of regulation The Handbook begins by looking at the principles history and methods of regulation before turning to specialist themes including pricing and social welfare regulating service quality consumer representation performance benchmarking environmental regulation calculating the cost of capital information revelation and incentives the economics of access charging regulatory governance regulatory policy in developing countries particular issues in the regulation of the telecommunications energy transport and water sectors The International Handbook on Economic Regulation is essential reading for researchers in the economics of regulation and students of regulation on final year undergraduate and postgraduate degree courses As a major reference work it is of value and assistance to economists in regulatory offices regulated companies and government departments International Handbook of Network Industries Matthias Finger,R. W. K_nneke,2011 To learn about how economic and institutional forces have shaped the network industries and policies towards them read the first part of the book To discover their impacts on particular industries read the second part And to find out what has happened in particular countries read the third part I think anyone interested in network industries should read all of it The book s structure allows for many interesting comparisons across countries and sectors Richard Green University of Birmingham UK This is a very useful and comprehensive guide to reforms in network

industries in communications energy transport and water It is organized by generic topic sector and region Its authors are acknowledged experts I am confident that this Handbook will be a widely read and valuable resource for many years Martin Cave London School of Economics UK Quite an accomplishment this Handbook provides by far the most comprehensive overview of the role of the private sector and competition in infrastructure industries with thoughtful surveys of each of the major infrastructure sectors and of the key regions and countries Jos G mez Ib ez Harvard University US In recent decades all infrastructures have undergone significant restructuring This worldwide phenomenon is often labelled liberalization and although expectations were high with respect to lower prices greater efficiency and innovation the expected gains have not always been fully realized This extensive state of the art Handbook provides a comprehensive overview of the various experiences of liberalization across different sectors regions and disciplines The multidisciplinary approach focuses on the economic political and institutional aspects of liberalization as well as to a lesser extent on technological issues As such it constitutes a unique contribution as this broad overview is often lost in the sector specific country focused and purely disciplinary approaches prevalent in the current literature Sectors explored include telecoms the Internet energy and transport whilst the truly global perspective incorporates unique case studies from an array of developed and developing countries including the US China India and the EU The International Handbook of Network Industries will become the definitive volume for academics researchers and students of economics political science and law interested in infrastructure regulation It will also prove a valuable guide to practitioners and policy makers involved in liberalization and competition

The Changing Postal Environment Pier Luigi Parcu, Timothy J. Brennan, Victor Glass, 2020-04-06 This book addresses major issues facing postal and delivery services throughout the world Worldwide there is currently a considerable amount of interest in postal and delivery economics The industry is reacting to a state of near crisis and is implementing different drastic changes The European Commission and member States are still wrestling with the problem of how to implement entry liberalization into postal markets how to address digital competition and how to maintain the Universal Service Obligation USO Digitalization technological development and online platforms are strongly affecting both the way postal and delivery operators are managing their services as well as their role on the market Strong emphasis was attributed to the assets of Postal Operators POs and their added value in the digital age as well as on new business strategies This volume presents original essays by prominent researchers in the field selected and edited from papers presented at the 27th Conference on Postal and Delivery Economics held in Dublin Ireland 22 25 May 2019 Topics addressed by this volume include the fragmentation of the postal supply chain blockchain and digital postal services and the fading of traditional postal market boundaries This book will be a useful tool not only for graduate students and professors but also for postal administrations consulting firms and federal government departments **Development Strategies for the Postal Sector**, 2014 This book examines the economics of the postal sector through three lenses snapshot and trends models and

opportunities In the years to come the Universal Postal Union plans to develop its role as a knowledge centre for the postal sector from these perspectives At this time of radical transformation of the postal sector it is important to understand how the sector has evolved historically how it is connected with the economic system and where it is heading This book thus first presents a long run view focusing on incumbent operators over the last three decades and then describes their development in the last five to ten years It also offers a real time picture based on daily big postal data revealing one of the greatest opportunities for the sector in terms of forecasting and product design

Services of General Economic Interest in EU Competition Law Lei Zhu, 2020-05-08 This book provides a comprehensive examination of the interaction between Services of General Economic Interest SGEI and EU competition law covering in particular Article 106 of the Treaty on the Functioning of the European Union TFEU and state aid rules It also takes the telecommunications postal service and transport sectors as case studies taking into account the technological economic and political backgrounds to these sectors The area of SGEI has undergone fundamental developments over the past three decades and the most recent changes in the Lisbon Treaty recognizing SGEI as a shared value and granting explicit competence to the EU mark its constitutional significance The key issue is how to balance economic values underlying competitive markets and non economic public service values such as universal access to essential services The essence of the question is the relationship between the market and the state This controversial issue is addressed through a critical analysis of a number of landmark EU Court judgments and Commission decisions over the decades Offering a clear appreciation of the evolution of the EU regulatory framework on SGEI that lays out the limits and boundaries within which the Member States define organize and fund SGEI the book is particularly aimed at academics with a research interest in the interaction between public services and EU competition law but as it also demonstrates clearly how the application of EU competition law has transformed the public utilities sectors it will be of interest to law makers legal professionals and policy makers as well Dr Lei Zhu is a Research Associate at the Institute of International Law at Wuhan University in Wuhan China He studied at the Institute for Competition Procurement Studies of the Bangor University Law School in Wales United Kingdom where he obtained his PhD in law in 2015

The Routledge Companion to Network Industries Matthias Finger, Christian Jaag, 2015-11-19 In recent decades network industries around the world have gone through periods of de and re regulation With vast amounts of sometimes conflicting research carried out into specific network industries the time has come for a critical overarching assessment of this entire industry in order to provide a platform of understanding to aid future research and practice This comprehensive resource provides an orientation for academics policy makers and managers as to the main economic regulatory and commercial challenges in the network industries The book is split into sections covering market policy regulation management perspectives whilst all of the key network industries are covered including energy transport water and telecommunications Overseen by world class Editors and experts in the field this interdisciplinary resource is essential reading for students and researchers in
