Journal of Rehabilitation Research and Development ,2002 *The Promise of Assistive Technology to Enhance Activity and Work Participation* National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Health Care Services,Committee on the Use of Selected Assistive Products and Technologies in Eliminating or Reducing the Effects of Impairments,2017-08-01 The U S Census Bureau has reported that 56 7 million Americans had some type of disability in 2010 which represents 18 7 percent of the civilian noninstitutionalized population included in the 2010 Survey of Income and Program Participation The U S Social Security Administration SSA provides disability benefits through the Social Security Disability Insurance SSDI program and the Supplemental Security Income SSI program As of December 2015 approximately 11 million individuals were SSDI beneficiaries and about 8 million were SSI beneficiaries SSA currently considers assistive devices in the nonmedical and medical areas of its program guidelines During determinations of substantial gainful activity and income eligibility for SSI benefits the reasonable cost of items devices or services applicants need to enable them to work with their impairment is subtracted from eligible earnings even if those items or services are used for activities of daily living in addition to work In addition SSA considers assistive devices in its medical disability determination process and assessment of work capacity The Promise of Assistive Technology to Enhance Activity and Work Participation provides an analysis of selected assistive products and technologies including wheeled and seated mobility devices upper extremity prostheses and products and technologies selected by the committee that pertain to hearing and to

communication and speech in adults **Nursing Diagnosis Handbook - E-Book** Betty J. Ackley, Gail B. Ladwig, Mary Beth Flynn Makic, 2016-01-27 Ackley's Nursing Diagnosis Handbook: An Evidence-Based Guide to Planning Care, 11th Edition helps practicing nurses and nursing students select appropriate nursing diagnoses and write care plans with ease and confidence. This convenient handbook shows you how to correlate nursing diagnoses with known information about clients on the basis of assessment findings, established medical or psychiatric diagnoses, and the current treatment plan. Extensively revised and updated with the new 2015/2017 NANDA-I approved nursing diagnoses, it integrates the NIC and NOC taxonomies, evidence-based nursing interventions, and adult/pediatric/geriatric/multicultural/home care and client/family teaching and discharge planning considerations to guide you in creating unique individualized care plans. Comprehensive up-to-date information on all the 2015/2017 NANDA-I nursing diagnoses so you stay in the know. UNIQUE: Provides care plans for every NANDA-I approved nursing diagnosis plus two unique care plans for Hearing Loss and Vision Loss. Includes pediatric/geriatric/multicultural/client/family teaching and discharge planning, home care, and safety interventions as necessary for plans of care. Presents examples of and suggested NIC interventions and NOC outcomes in each care plan. UNIQUE: Care Plan Constructor on the companion Evolve website offers hands-on practice creating customized plans of care. 150 NCLEX exam-style review questions are available on Evolve. Promotes evidence-based interventions and rationales by including recent or classic research that supports the use of each intervention. Classic evidence-based references promote evidence-based interventions and rationales. Clear, concise interventions are usually only a sentence or two long and use no more than two references. Safety content emphasizes what must be considered to provide safe patient care. Step-by-step instructions show you how to use the Guide to Nursing Diagnoses and Guide to Planning Care sections to create a unique individualized plan of care. List of Nursing Diagnosis Index in back inside cover of book for quick reference. Three-column index is easy to use. Easy to follow sections I and II guide you through the nursing process and selecting appropriate nursing diagnoses. Alphabetical thumb tabs allow quick access to specific symptoms and nursing diagnoses. *Seating and Wheeled Mobility* Michelle L. Lange, Jean L. Minkel, 2024-06-01 *Seating and Wheeled Mobility: A Clinical Resource Guide* presents clinical assessment considerations when working with a person with a disability who may need wheelchair seating for postural support, skin integrity, or a wheelchair base to best meet dependent or independent mobility needs. Michelle L. Lange and Jean Minkel have designed this text to support occupational and physical therapists, complex rehabilitation technology suppliers, and even third-party payers who are interested in wheelchair seating and mobility assessment and applications. *Seating and Wheeled Mobility* provides a wide spectrum of information from foundational information for those practitioners who are new to the field to in-depth population-specific information for practitioners who perhaps have not worked with a particular population in the past. Information sharing opportunities for demonstration and trial and patience on the part of the clinician working with the person with a disability are all critical precursors to the actual process of making equipment recommendations. *Seating and*

Wheeled Mobility is divided into sections each addressing a different area of clinical practice The first section is an in depth presentation of the assessment process and the critical understanding of pressure management needed by the clinical team when working with a client population who rely on wheeled mobility The second section focuses on postural support Also included is a completely updated method to measure and describe the seated person and related support surfaces needed when recommending a device The third section lays the foundation for clinical decision making around the assessment for and application of the most appropriate wheeled mobility device The fourth section provides in depth clinical applications for each category of mobility devices Also addressed is proper documentation to assist in the funding of these devices The fifth section provides population specific information regarding the clinical application of position pressure management and functional mobility as it applies to the pediatric geriatric and bariatric populations as well as persons with both degenerative and complex neuromuscular impairments The last section presents additional considerations when working with persons who are aging with a disability environmental assessments transportation and the application of standards Seating and Wheeled Mobility A Clinical Resource Guide provides the depth and breadth of the clinical practice of wheelchair seating and mobility to both those who are new to the field as well as seasoned professionals **Case Management Resource Guide** ,1997
