Hans Richter, 1888-1976, Dadaist, Filmpionier, Maler, Theoretiker Hans Richter, 1982 **Crisis and the Arts:**

Exquisite Dada : a comprehensive bibliography Stephen C. Foster, 1996 Despite the short life of the Dada movement it has provoked the interest of art historians museum directors and literary critics from all over the world The present volume comprises the literary texts of individual Dadaists and periodicals from all Dada centers as well as books articles exhibition catalogs and bibliographies by international scholars Jo rgen Scha fer s Exquisite Dada is the most exhaustive bibliography on Dada that has ever been compiled so far By giving a synopsis of some decades of scholarly research it provides an indispensable source for further studies on the matter The Invention of Politics in the European Avant-Garde (1906-1940) ,2016-08-01 In 1906 for the first time in his life F T Marinetti connected the term avant garde with the idea of the future thus paving the way for what is now commonly called the modernist or historical avant garde Since 1906 the ties between the early twentieth century European aesthetic vanguard and politics have been a matter of debate With a century gone by The Invention of Politics in the European Avant Garde takes stock of this debate Opening with a critical introduction to the vast research archive on the subject this book proposes to view the avant garde as a political force in its own right that may have produced solutions to problems irresolvable within its democratic political constellation In a series of essays that combine close readings of texts and plastic works with a thorough knowledge of their political context the book looks at avant garde works as media producing political thought and experience Covering the canonised avant garde movements of Futurism Expressionism Dadaism and Surrealism but also focussing on the avant garde in Europe s geographical outskirts this book will appeal to all those interested in the modernist avant garde *The Emergence of Film Culture* Malte Hagener, 2014-09-01 Between the two world wars a distinct and vibrant film culture emerged in Europe Film festivals and schools were established film theory and history was written that took cinema seriously as an art form and critical writing that created the film canon flourished This scene was decidedly transnational and creative overcoming traditional boundaries between theory and practice and between national and linguistic borders This new European film culture established film as a valid form of social expression as an art form and as a political force to be reckoned with By examining the extraordinarily rich and creative uses of cinema in the interwar period we can examine the roots of film culture as we know it today **Art Books** Wolfgang M. Freitag, 2013-10-28 First published in 1997 For this second edition of Art Books A Basic Bibliography of Monographs on Artists the vast number of new books published since 1985 was surveyed and evaluated This has resulted in the selection of 3 395 additional titles These selections reflective of the increase in the monographic literature on artists during the last ten years are evidence of the activities of a larger number of art historians in more countries worldwide of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically and also of a lively international art market and the attendant gallery activities The selections of the first edition have been reviewed

errors have been corrected and important new editions and reprints have been noted The second edition contains 278 names of artists not represented in the first edition *Expressionist Film* Dietrich Scheunemann, 2003 Beginning with a fundamentally new interpretation of *Dr Caligari* and with fresh views of other expressionist classics this book offers new perspectives on important alternative styles and genres that emerged in films by such eminent directors as Lubitsch Fritz Lang and E A Dupont **Living Dangerously** Hans Schoots, 2000 Highly prized biography of one of the Netherlands most famous and controversial filmmakers **Subjectivity**, 2016-08-22 Subjectivity is one of the central issues of twentieth century philosophy literature and art Modernism which discovered the subconscious put an end to the belief in the Cartesian Subject as the autonomous centre of knowledge and self consciousness Instead the subject became something uncontrollable unreliable incomplete and fragmentary The attempts to recapture the unity of the subject led to the existential quest and the flight into ideology nazism communism Postmodernism the cultural movement of the second half of the twentieth century did not consider the subject any longer as an important category Attention was focused on the I and the Other on dialogism and polyphonism Bakhtin Ideology lost its appeal and so did the great stories Lyotard In this issue of *Avant Garde Critical Studies* the problem of subjectivity in twentieth century culture is discussed from various angles by specialists in the field of philosophy literature film music and dance **Audiovisions** Siegfried Zielinski, 1999 De productie de distributie en de waarneming van bewegende beelden zijn onderhevig aan een radicale transformatie Doordat steeds snellere computers en digitale technologie kracht bundelen ontstaat er een nieuwe vorm van audiovisie Bijna niets zal hetzelfde blijven De ooit normale media voor het uitdragen van film de bioscoop en de televisie blijken niet meer te zijn dan een intermezzo in de geschiedenis van de audiovisuele media Dit boek interpreteert de veranderingen niet als cultureel verlies maar als een uitdaging de nieuwe audiovisie moet anders benaderd worden om strategische interventie mogelijk te maken Audiovisions ondersteunt deze benadering op historische wijze Door te kijken naar 100 jaar van het eind van de negentiende tot aan het eind van de 20ste eeuw laat het zien waarom de bioscoop en televisie als eindige culturele vormen gezien moeten worden Tevens is het boek een pleidooi voor blijvend kracht van studies naar culturele technologie en de technologische cultuur van film Essayistisch in stijl is het boek gestructureerd rond verschillende historische fasen De beelden en bij de tekst zorgen voor supplementaire informatie contrast en aanvullend commentaar **Sounding the Gallery** Holly Rogers, 2013-03-13 *Sounding the Gallery* argues that early video art is an audiovisual genre The new video technology not only enabled artists to sound their visual work and composers to visualise their music during the 1960s it also initiated a spatial form of engagement that encouraged new relationships between art music practices and their audiences **Hans Richter, 1888-1976** Gisela Hossmann, 1985 *Hans Richter, 1888-1976* Hans Richter, Barbara Volkmann, Rose-France Raddatz, Akademie der Künste (Berlin, Germany), Kunsthau Zürich, 1982 **Film, Portraiture, and Primitivism in the Photomontages of Hannah Höch** Kristin Makhholm, 1999 Дада - искусство и антиискусство.
