Tait,2002-10-23 This book is the first detailed examination of death in early modern Ireland It deals with the process of dying the conduct of funerals the arrangement of burials the private and public commemoration of the dead and ideas about the afterlife It further considers ways in which the living fashioned ceremonies of death and the reputations of the dead to support their own ends It will be of interest to those concerned with Irish history and death studies generally

character study of medieval Ireland and a panoramic view of the country c 1169 followed by nineteen chapters of narrative history with a survey of Land and People c 1300 There are further chapters on Gaelic and colonial society economy and trade literature in Irish French and English architecture and sculpture manuscripts and illuminations and coinage Immigrants in the Valley Mark Wyman,2016-11-09 Thousands of newcomers flocked into the Upper Mississippi country in the decades leading up to the Civil War Illinois Wisconsin Iowa Missouri and Minnesota received immigrants from most areas of Europe as well as Americans from the Upper South New England and the Middle Atlantic states They all carried with them religious beliefs experiences and expectations that differed widely attitudes and opinions which often threw them into conflict with each other Drawing extensively on family letters sent home to Europe missionary reports employment records and other diverse materials from 1830 to 1860 Wyman shows the interplay between the major groups traveling the roads and waterways of the Upper Mississippi Valley during those crucial decades The result is a lively richly illustrated account that will help Americans everywhere better understand their diverse heritage and the environment in which their family trees took root A new preface to this paperback edition helps to bring the scholarship up to date *Social Origins of the Irish Land War* Samuel Clark,2014-07-14 Arguing that social movements can be explained and understood only in a comparative historical perspective and not in terms of immediate social or political conditions the author identifies the causes of the Land War in the evolution of social structure and collective action in the Irish countryside over the course of the nineteenth century Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Making Ireland English** Jane Ohlmeyer,2012-06-26 This groundbreaking book provides the first comprehensive study of the remaking of Ireland s aristocracy during the seventeenth century It is a study of the Irish peerage and its role in the establishment of English control over Ireland Jane Ohlmeyer s research in the archives of the era yields a major new understanding of early Irish and British elite and it offers fresh perspectives on the experiences of the Irish English and Scottish lords in wider British and continental contexts The book examines the resident peerage as an aggregate of 91 families not simply 311 individuals and demonstrates how a reconstituted peerage of mixed faith and ethnicity assimilated the established Catholic aristocracy Tracking the impact of colonization civil war and other significant factors on the fortunes of the peerage in Ireland Ohlmeyer arrives at a fresh assessment of the key accomplishment of the new Irish elite making Ireland English Landscapes of the Learned Elizabeth FitzPatrick,2023-04-15 Gaelic literati were an elite and influential group in the social hierarchy of Irish lordships between c 1300 and 1600 From their estates they served Gaelic and Old English ruling families in the arts of history law medicine and

poetry They farmed kept guest houses conducted schools and maintained networks of learning In other capacities they were involved in political assemblies and memorializing dynastic histories in landscape This book presents a framework for identifying and interpreting the settings and built heritages of their estates in lordship borderscapes It shows that a more textured definition of what this learned class represented can be achieved through the material record of the buildings and monuments they used and where their lands were positioned in the political map Where literati lived and worked are conceived as expressions of their intellectual and political cultures Mediated by case studies of the landscapes of their estates dwellings and schools the methodology is predominantly field based using archaeological investigation and topographic and spatial analyses and drawing on historical and literary texts place names and lore in referencing named people to places More widely the study contributes a landscape perspective to the growing body of work on autochthonous intellectual culture and the exercise of power by ruling families in late medieval and early modern northern European societies *The Archaeology of Prehistoric Burnt Mounds in Ireland* Alan Hawkes, 2018-08-13 This book details the archaeology of burnt mounds fulachta fia in Ireland one of the most frequent and under researched prehistoric site types in the country It presents a re evaluation of the pyrolithic phenomenon in light of some 1000 excavated burnt mounds

Ribbon Societies in Nineteenth-century Ireland and Its Diaspora Kyle Hughes (Lecturer in British history), Donald M. MacRaild, 2018 This is the first full length study of Irish Ribbonism tracing the development of the movement from its origins in the Defender movement of the 1790s to the latter part of the century when the remnants of the Ribbon tradition found solace in a new movement the quasi constitutional affinities of the Ancient Order of Hibernians Placing Ribbonism firmly within Ireland s long tradition of collective action and protest this book shows that owing to its diversity and adaptability it shared similarities but also stood apart from the many

rural redresser groups of the period and showed remarkable longevity not matched by its contemporaries The book describes the wider context of Catholic struggles for improved standing explores traditions and networks for association and it describes external impressions Drawing on rich archives in the form of state surveillance records show trial proceedings and press reportage the book shows that Ribbonism was a sophisticated and durable underground network drawing together various strands of the rural and urban Catholic populace in Ireland and Britain Ribbon Societies in Nineteenth Century Ireland and its Diaspora is a fascinating study that demonstrates Ribbonism operated more widely than previous studies have revealed
