The Wild Vine Todd Kliman, 2010-05-04 A rich romp through untold American history featuring fabulous characters The Wild Vine is the tale of a little known American grape that rocked the fine wine world of the nineteenth century and is poised to do so again today Author Todd Kliman sets out on an epic quest to unravel the mystery behind Norton a grape used to make a Missouri wine that claimed a prestigious gold medal at an international exhibition in Vienna in 1873 At a time when the vineyards of France were being ravaged by phylloxera this grape seemed to promise a bright future for a truly American brand of wine making earthy and wild And then Norton all but vanished What happened The narrative begins more than a hundred years before California wines were thought to have put America on the map as a wine making nation and weaves together the lives of a fascinating cast of renegades We encounter the suicidal Dr Daniel Norton tinkering in his experimental garden in 1820s Richmond Virginia Half on purpose and half by chance he

creates a hybrid grape that can withstand the harsh New World climate and produce good drinkable wine thus succeeding where so many others had failed so fantastically before from the Jamestown colonists to Thomas Jefferson himself Thanks to an influential Long Island New York seed catalog the grape moves west where it is picked up in Missouri by German immigrants who craft the historic 1873 bottling Prohibition sees these vineyards burned to the ground by government order but bootleggers keep the grape alive in hidden backwoods plots Generations later retired Air Force pilot Dennis Horton who grew up playing in the abandoned wine caves of the very winery that produced the 1873 Norton brings cuttings of the grape back home to Virginia Here dot com millionaire turned vintner Jenni McCloud on an improbable journey of her own becomes Norton s ultimate champion deciding against all odds to stake her entire reputation on the outsider grape Brilliant and provocative The Wild Vine shares with readers a great American secret resuscitating the Norton grape and its elusive inky drink and forever changing the way we look at wine America and long cherished notions of identity and reinvention

Robert W. Small, Michelle Couturier, 2011-09-13 Beverage Basics presents a new approach to understanding wine and other alcoholic beverages. The book includes an introduction to alcoholic beverages, information on important issues such as purchasing beverages, healthy drinking and alcohol and the law, and an introduction to wine including viticulture, viniculture, and the sensory evaluation of wine. The authors teach readers about wines by varietal as opposed to appellation, which is a much simpler entry point for beginners to the world of wine. In addition to all the major wine varieties, Chardonnay, Sauvignon Blanc, Cabernet Sauvignon, Merlot, etc., the book also covers hybrid and Native American varieties, sparkling wines, and dessert and fortified wines. Chapters on beer and distilled spirits include information on making, purchasing, and evaluating beer and spirits. The appendices include map-filled sections on The Old World and The New World of wine, as well as a thorough examination of the TTB requirements for alcoholic beverage labels and a complete glossary of terms. Author Robert Small is former Dean and Emeritus Professor of The Collins College of Hospitality Management at California State Polytechnic University Pomona, where he still teaches courses on wine, spirits, and beer, and on beverage marketing and food and beverage management, and is the Chairman of the Los Angeles International Wine Competition, one of the largest and most prestigious wine competitions in the United States.

Recovering 9/11 in New York Robert Fanuzzi, Michael Wolfe, 2014-04-23 This collection of essays offers a rich variety of approaches to how people and institutions in greater New York have sought to find meaning in the 9/11 attacks on the World Trade Center, now a decade on. The views and practices documented here join memory recovery and rebuilding together to form a vital new chapter in New York's metropolitan history. Contributors contest the dominant nationalist narrative about 9/11 to generate a more local and socially engaged form of scholarship that connects directly with the experiences of people who lived or came to work in New York that fateful day and the years that followed. In doing so, these essays give academics and clinical professionals an opportunity to reflect upon and work with the people of a community in this case, metropolitan New York, as essential partners and even the main protagonists in creating new paradigms to capture the significance of these events and their aftermath. The collection is comprised of sixteen essays by experts drawn from a wide range of scholarly and professional fields. They investigate how people across the New York metropolitan region initially responded to and have since remembered the events of September 11th as they rippled out into the city, the surrounding metropolitan region, and the nation at large. They engage directly with the emotional and psychological aftermath of the attacks, approaching the questions of healing and teaching from a variety of institutional, professional, and non-professional perspectives. The volume concludes with a selection of essays that grapple with the challenge of representing 9/11. Contributors to this section evaluate contemporary novels and films that have risked engagement with deep narrative traditions to translate the recent memory of public events into resonant stories and imaginative language. Readers are invited to consider how all these responses in literature, memorials, media representations, and the words and actions of diverse individuals still contribute to the complex yet inescapable challenge of making meaning.
