When Bad Things Happen to Privileged People Dara Z. Strolovitch, 2023-07-06 A deep and thought provoking examination of crisis politics and their implications for power and marginalization in the United States From the climate crisis to the opioid crisis to the Coronavirus crisis the language of crisis is everywhere around us and ubiquitous in contemporary American politics and policymaking But for every problem that political actors describe as a crisis there are myriad other equally serious ones that are not described in this way Why has the term crisis been associated with some problems but not others What has crisis come to mean and what work does it do In *When Bad Things Happen to Privileged People* Dara Z Strolovitch brings a critical eye to the taken for granted political vernacular of crisis Using systematic analyses to trace the evolution of the use of the term crisis by both political elites and outsiders Strolovitch unpacks the idea of crisis in contemporary politics and demonstrates that crisis is itself an operation of politics She shows that racial justice activists innovated the language of crisis in an effort to transform racism from something understood as natural and intractable and to cast it instead as a policy problem that could be remedied Dominant political actors later seized on the language of crisis to compel the use of state power but often in ways that compounded rather than alleviated inequality and injustice In this eye opening and important book Strolovitch demonstrates that understanding crisis politics is key to understanding the politics of racial gender and class inequalities in the early twenty first century

Interrogating Disability in India Nandini Ghosh, 2016-09-13 This book discusses the multifaceted concept of disability in the context of India Through analyses of theoretical propositions of disability in South Asia and empirical explorations of the lives of persons with disabilities in India this book not only brings to the forefront a hitherto unexplored realm in academic discourse but also bridges the gap between theory and lived reality and between policy and practice Thus it is an important addition to the field of development studies in South Asia The papers herein represent multidisciplinary and interdisciplinary perspectives from architects lawyers sociologists political scientists historians economists and linguists to social work practitioners from the grassroots level This range of insights from different disciplines allows for the exploration of a wide range of issues around disability and the lives of disabled people moving from theoretical assumptions to exploring structural and infrastructural barriers to problematizing different aspects of the lives of disabled people and from objective realms to more subjective domains Along with students and researchers of disability studies this book is of interest to a diverse readership encompassing the social sciences mental health and development studies
