Gabriel,2023-07-03 This is a book for all faculty who are concerned with promoting the persistence of all students whom they teach Most

recognize that faculty play a major role in student retention and success because they typically have more direct contact with students than others on campus. However, little attention has been paid to the role of the faculty in this specific mission or to the corresponding characteristics of teaching teacher-student interactions and connection to student affairs activities that lead to students' long-term engagement to their academic success and ultimately to graduation. At a time when the numbers of underrepresented students, working adults, minority, first-generation, low-income, and international students is increasing, this book is a companion to her earlier *Teaching Underprepared Students*, which addresses that lack of specific guidance by providing faculty with additional evidence-based instructional practices geared toward reaching all the students in their classrooms, including those from groups that traditionally have been the least successful while maintaining high standards and expectations. Recognizing that there are no easy answers, Kathleen Gabriel offers faculty ideas that can be incorporated in or modified to align with faculty's existing teaching methods. She covers topics such as creating a positive and inclusive course climate, fostering a community of learners, increasing engagement and students' interactions, activating connections with culturally relevant material, reinforcing self-efficacy with growth mindset and mental toughness techniques, improving lectures by building in meaningful educational activities, designing reading and writing assignments for stimulating deep learning and critical thinking, and making grade and assessment choices that can promote learning.

*Introduction to Teaching* Gene E. Hall, Linda F. Quinn, Donna M. Gollnick, 2015-12-09. *Introduction to Teaching: Making a Difference in Student Learning*, Second Edition, is the ideal text for aspiring teachers. Acclaimed authors Gene Hall, Linda Quinn, and Donna Gollnick thoroughly prepare teacher education candidates to make a difference as teachers, presenting first-hand stories and evidence-based practices while offering a student-centered approach to learning. The authors target one of the biggest challenges facing many of today's schools: making sure that all students are learning and help teachers make student learning the primary focus in all that they do. From true-to-life challenges that teachers will face, high-stakes testing, student learning assessments, low teacher retention, Common Core Standards, to the inspiration and joy they will discover throughout their teaching careers, this text paints a realistic picture of the real life of a teacher.
