Film Review, 2004 "*Rapt in Secret Studies*" Laurie Johnson, 2010-07-12 Rapt in Secret Studies Emerging Shakespeares is a collection of new essays in Shakespeare Studies from a generation of scholars presently emerging out of Australia and New Zealand These 18 essays respond in a myriad of ways to the challenge of Prospero's phrase from The Tempest in which he tells his daughter Miranda that in his life before the island he had been rapt in secret studies to an early modern audience these words were likely to mean much more than a predilection for the black arts as modern audiences tend to hear in them Each of the key words used by Prospero evoked a range of meanings in early modern times to which the emerging scholars represented in this collection responded by imagining new pathways in Shakespeare Studies a field of study that has in recent times risked being marginalised even within the traditional liberal arts The secret studies of which Prospero speaks are in fact more liberal than dark and so the response by new scholars to a challenge issued by one of Shakespeare's characters more than four centuries ago has a renewed sense of relevance in the academy today The essays are divided into three sections each of which is oriented toward meanings that are specifically associated with one of the key terms in Prospero's phrase The rapt section has essays concerned with excess in its various forms jealousy obsession sex violence and even death as well as with travel and its impact on ways of knowing about the world In the secret section the nature of things about which the early modern could scarcely speak are taken into consideration with essays on prevailing early modern myths infidelities stillborn children contagion and the instruments of secrecy such as gossip and spies Finally in the study section essays cover issues related both to early modern textual practice the use of historical source materials in Shakespeare's writing questions of multiple authorship and the issue of early modern style and kinds of drama and to more modern scholarly practice such as the role of Shakespeare in the New Bibliography and the New Historicism

Martin Scorsese Vincent LoBrutto, 2007-11-30 Martin Scorsese's current position in the

international film community is unrivaled and his name has become synonymous with the highest standards of filmmaking excellence. He is widely considered America's best living film director and his *Taxi Driver* and *Raging Bull* appear frequently on worldwide surveys of the best films of all time. Here in the first biographical account of this artist's life, Vincent LoBrutto traces Scorsese's Italian American heritage, his strict Catholic upbringing, the continuing role of religion in his life and art, his obsessive love of cinema history, and the powerful impact that the streets of New York City had on his personal life and his professional career. Meanwhile, the filmmaker's humble, soft-spoken public persona tells only part of the story, and LoBrutto will delve into the other side of a complex and often tortured personality. Scorsese's intense passion, his private relationships, his stormy marriages, and his battles with drugs and depression are all chronicled here, and in many cases for the first time. In addition, the book includes an interview with the director as well as filmographies cataloging his work as a director, producer, actor, and presenter. As his Best Director award at the 2007 Oscars clearly demonstrated, Scorsese has become something like Hollywood royalty in recent years, finally enjoying the insider status and favor that eluded him for most of his career. But these recent developments aside, Scorsese is also notable as a distinctly American type of artist, one whose work created in a medium largely controlled by commercialism and marketing has always been unmistakably his own, and who thus remains a touchstone of artistic integrity in American cinema. In *Martin Scorsese: A Biography*, readers can examine not only the work of one of the form's genuine artists but also the forces that have propelled the man behind it.

The Pleasure and Pain of Cult Horror Films Bartłomiej Paszyk, 2009-06-08 The horror genre harbors a number of films too bold or bizarre to succeed with mainstream audiences but offering unique, startling, and often groundbreaking qualities that have won them an enduring following. Beginning with Victor Sjöström's *The Phantom Carriage* in 1921, this book tracks the evolution and influence of underground cult horror over the ensuing decades, closing with William Winckler's *Frankenstein vs. the Creature from Blood Cove* in 2005. It discusses the features that define a cult film, trends and recurring symbols, and changing iconography within the genre through insightful analysis of 88 movies. Included are works by popular directors who got their start with cult horror films, including Oliver Stone, David Cronenberg, and Peter Jackson.

Learning the Left Paul J. Ramsey, 2015-05-01 *Learning the Left* examines the ways in which young people and adults learned and continue to learn the tenets of liberal politics in the United States through the popular media and the arts from the turn of the twentieth century to the present. This collection of essays foregrounds mass culture as an educational site; it is hoped that this focus on the history of the civic functions of the popular media and arts will begin a much-needed conversation among a variety of scholars, notably historians of education.
