

The background of the cover is an abstract painting. It features a silhouette of a person's head and shoulders in profile, looking towards the right. The person is positioned in the center-right of the frame. The background is divided into horizontal bands of color. The top band is a light blue and white, suggesting a sky or clouds. Below this is a wide band of pink and purple, which transitions into a deep red and magenta band at the bottom. The overall effect is one of a vast, open landscape under a dramatic, colorful sky.

Making a Soul John Godolphin Bennett,1995-01-01 **Classical Spirituality in Contemporary America** Michael S. Pittman,2012-03-08 G I Gurdjieff d 1949 remains an important if controversial figure in early 20th century Western Esoteric thought Born in the culturally diverse region of the Caucasus Gurdjieff traveled in Asia Africa and elsewhere in search of practical spiritual knowledge Though oftentimes allusive references to Sufi teachings and characters take a prominent position in Gurdjieff s work and writings Since his death a discourse on Gurdjieff and Sufism has developed through the contributions as well as critiques of his students and interlocutors J G Bennett began an experimental Fourth Way school in England in the 1970s which included the introduction of Sufi practices and teachings In America this discourse has further expanded through the collaboration and engagement of contemporary Sufi teachers This work does not simply demonstrate the influence of Gurdjieff and his ideas but approaches the specific discourse on and about Gurdjieff and Sufism in the context of contemporary religious and spiritual teachings particularly in the United States and highlights some of the adaptive boundary crossing and hybrid features that have led to the continuing influence of Sufism **A New Theory Of**

Music: An Introduction H. K. Grumbein,2013-01-02 This book is an introduction to a new music theory based upon the perspectives of an artist which are supported by correspondences between sound and light and the philosophies gleaned from extensive research into the esoteric teachings of Christianity This book clearly and concisely introduces the basic framework for a completely new and fundamentally holistic approach to understanding writing and learning music Rather than learning the countless specific rules and exceptions and hundreds of historical examples this approach begins with a practical foundation in the general principles of music theory and encourages one to creatively discover original examples of how the different parts work together as a whole Most importantly this works aims to distill the most essential elements of music and to convey them in a simplified manner that grants potential artists a way to penetrate into the mysteries of music
