Making of the Tunisian Revolution Nouri Gana,2013-09-07 From late 2010 to the present day the Arab world has been shot through with

insurrection and revolt As a result Tunisia is now seen as the unlikely birth place and exemplar of the process of democratisation long overdue in the Arab world Mixing political historical economic social and cultural analyses and approaches these essays reflect on the local regional and transnational dynamics together with the long and short term factors that when combined set in motion the Tunisian revolution and the Arab uprisings Above all the book maps the intertwined genealogies of cultural dissent that have contributed to the mobilisation of protesters and to the sustenance of protests between 17 December 2010 and 14 January 2011 and beyond

Making Sense of Data in the Media Andrew Bell, Todd Hartman, Aneta Piekut, Alasdair Rae, Mark Taylor, 2019-11-04 The amount of data produced captured and transmitted through the media has never been greater But for this data to be useful it needs to be properly understood and claims made about or with data need to be properly scrutinized Through a series of examples of statistics in the media this book shows you how to critically assess the presentation of data in the media to identify what is significant and to sort verifiable conclusions from misleading claims How accurate are polls and how should we know How should league tables be read Are numbers presented as large really as big as they may seem at first glance By answering these questions and more readers will learn a number of statistical concepts central to many undergraduate social science statistics courses By tying them in to real life examples the importance and relevance of these concepts comes to life As such this book does more than teaches techniques needed for a statistics course it teaches you life skills that we need to use every single day

Media, Journalism, and Communication Read Mercer Schuchardt, 2018-03-15 In an age of accelerating information and increasing technology media matters more now than ever In this book Read Mercer Schuchardt helps us navigate the digital age from a distinctly Christian perspective offering guidance for becoming wise users of media rather than simply being used by media Highlighting the importance of studying and understanding communication arts and how they are changing this book will help you think creatively about using media effectively for the sake of the gospel the church and the world Part of the Reclaiming the Christian Intellectual Tradition series

Building National Campaigns David Dalton, 2007 For many organisations campaigning is a new type of activity and few have had the opportunity to help each other build capacity to campaign This book draws on Oxfam International's experience in supporting national labour rights campaigning initiatives at local and national level The authors describe and analyse what happened in five campaigns in Colombia Morocco Nicaragua Sri Lanka and the United States All faced enormous obstacles and all were able to overcome them through innovation new ways of working in alliance and patient persistence towards their target This book will be of interest to all campaigning individuals and organisations not just those working on labour rights The analysis includes learning points and examples of good practice The book offers a menu of approaches and activities and readers can choose those which are appropriate and useful to their situation A practical and up to date resources section helps the reader explore the issues further

Making Sense of Media and Politics Gadi Wolfsfeld, 2022-03-17 In *Making Sense of Media and Politics* Gadi

Wolfsfeld introduces readers to the most important concepts for examining the interrelationship of media and politics. Five major principles are used to summarize the major arguments: Political power can usually be translated into power over all forms of media. When the powerful lose control over the political environment, they also lose control over all forms of media. Every political story that appears in every form of media is biased. All forms of media are primarily dedicated to telling good stories which can have a major impact on political processes. Many of the most important effects of the various forms of media on citizens tend to be unintentional and unnoticed. By identifying these five key principles of political communication, Wolfsfeld examines those who package and send political messages, those who transform political messages into stories, and the effects this can have on citizens, and how the more active members of the public, users, can initiate their own stories. The result is a brief, engaging guide to help make sense of the wider world of media and politics, and an essential companion to more in-depth studies of the field.

New to the Second Edition: Up-to-date coverage of major political events in the last decade, including the landmark US elections of 2016 and 2020. Devotes more attention to the hybrid media system that has developed over the last decade, providing a greater balance between traditional news and social media, in particular. Includes more cross-national research, especially in non-Western and non-democratic countries. Refines the five principles of political communication to better reflect contemporary media trends. Covers key emerging topics, including misinformation and threats to democratic institutions, new forms of political engagement, and the economic base of the various forms of media.
