because of its high level of effectiveness It s also fairly easy to follow In fact you may find it simpler and easier to stick with than other weight loss plans There is some evidence that shows that keto dieters do not develop heart disease at the same rate as non keto dieters However this doesn t mean you shouldn t take a supplement if you re worried about heart disease or have had some kind of heart problem in the past The supplement will help to lower bad cholesterol and raise good cholesterol levels People who take the supplement and have not been diagnosed with a heart disorder may have an increased risk of having a heart attack later in life Some experts think that people who take the supplement and have heart problems might also be at a higher risk of developing depression and anxiety as adults *Ketogenic Diet* Mark Evans,2021-02-09
