Reference Guide to Africa Alfred Kagan, Atoma Batoma, 2014-10-16 This third edition of the Reference Guide to Africa explains the most important resources for the study of the continent of Africa. It contains a general sources section and a larger disciplinary oriented section. All sources are annotated. A new edition is sorely needed since the last edition was published nine years ago. The previous editions have been successfully used in research libraries worldwide since 1999 and it has been used to teach several African studies research courses. The book provides an orientation for researching almost any topic in the arts, humanities and social sciences concerning the continent of Africa and all of its countries and ethnic groups. The first part explains and lists portals, databases, bibliographies, indexes, guides, encyclopedias, country sources, biography, primary sources, government publications and statistics. The second part presents 16 subject oriented chapters mostly in the arts, humanities and social sciences from agriculture and food security to women studies. It covers sources that broadly cover the continent or in some cases only North Africa and the Middle East. It generally excludes sources limited to one country or region of Africa except for North Africa because of the nature of the literature. One third of the sources in this edition are new and nearly half of them are available in electronic format. There are author, title and subject indexes. This unique work is intended for students, teachers, librarians and researchers. It likely will be used most by reference librarians and teachers for students in high school through graduate studies. It will also be used independently by undergraduate and graduate students. It can be used to answer simple reference questions, provide the resources for an undergraduate paper or for comprehensive work by advanced students and researchers. *Film: The Essential Study Guide* Ruth Doughty, Deborah Shaw, 2008-10-30

Providing a key resource to new students, *Film: The Essential Study Guide* introduces all the skills needed to succeed on a film studies course. This succinct, accessible guide covers key topics such as: Using the library, Online research and resources, Viewing skills, How to watch and study foreign language films, Essay writing, Presentation skills, Referencing and plagiarism, Practical Filmmaking. Including exercises and examples, *Film: The Essential Study Guide* helps film students understand how study skills are applicable to their learning and gives them the tools to flourish in their degree. *Metals Powders* Francisco P. Gómez Cuevas, 2020-07-01

This book gathers several manuscripts dealing with powder metallurgy processing. Both powders production and their processing to reach a final product can be found. In particular, the extraction of Ta and Ti powders from their oxides by the action of Mg is studied. Moreover, the synthesis of ball milled Mn-Bi powder for magnetic uses is also presented in the book. Regarding powders processing, sintering of Fe-Co-Cu powder mixtures for their use as diamond impregnated tools, electrical resistance sintering of mechanically alloyed amorphous Al-Ti powders, cold pressed Fe-Si-B alloys with magnetic uses, hot extruded functionally graded Al based materials, space holder sintering of Ti for medical implants, sintering of hard Co based material and electrical resistance sintering of Fe-WC hardmetals can be found in this book. **DAC Guidelines and Reference Series Promoting Pro-Poor Growth Policy Guidance for Donors**

Classifying Entities and the Meaning of 'Tax Transparency' Michael McGowan,2023-01-10 Imposing UK tax on an entity or those linked to it involves understanding what kind of entity is being dealt with especially when it is formed outside the UK Is it a company a partnership a trust or something else This often involves considering whether the entity is tax transparent and if so what that means While of great importance the UK tax rules for classifying entities are notoriously vague as is the UK meaning of tax transparency This book breaks new ground by exploring these topics comprehensively in a world which is well aware of the problems created by entity classification mismatches In so doing it addresses with emphasis on UK tax law issues such as the meaning of a partnership and a trust what is meant and is not meant by tax transparency across a range of taxes and situations how tax treaties have dealt with entity classification questions and related transparency issues how

entity classification questions are impacted by EU law and how the UK approach could be improved policy wise and practically without facilitating tax avoidance The book compares in detail the UK entity classification approach with that of the US the Netherlands and France Appendices consider the unusual UK capital gains tax treatment of partnerships as well as the special transparency rules which can apply where a partnership is party to loans or derivative contracts or owns intangible assets Questions of entity classification and tax transparency are of fundamental importance in any mature tax system and especially in a globalised economy This book unlocks those questions for both academics and practitioners
