Resources in Education ,1999-10 *Curriculum Development Library* ,1980 A Manual to Accompany The Study Readers Alberta Walker,Mary Rosetta Parkman,1925 **Canadian Journal of Counselling** ,2008 *Citizenship Education in the Era of Globalization* ,2008-01-01 This collection of timely articles is the first to explore the dynamics between globalization and education from a specifically Canadian perspective The articles engage with emergent debates and new discourses around global orientations to citizenship education currently defining scholarly work and teaching practices in Canada This book will therefore be of great interest to Canadian teacher educators who are seeking to infuse a global perspective into their pre service programs as well as to globally oriented undergraduate and graduate course instructors from a range of scholarly disciplines both in Canada and elsewhere The Canadian perspective proves to be not surprisingly global in essence The articles contained in *Citizenship Education in the Era of Globalization* Canadian Perspectives map the history of citizenship education and global studies and probe the notion of global citizenship for its possibilities and impossibilities Recognizing the importance of engaging with the lives of students and teachers the contributions also include articles reporting on research and theory about such topics as the complexities of second generation youth identity and the extent to which mainstream teachers can bring global citizenship education into their classrooms The collection presents an engaging look into the theory and practice of citizenship education in Canada during a time when bringing global issues to the classroom is an imperative of democratic schooling **Global Citizenship Education** ,2008-01-01 The essays in this edited collection argue that global citizenship education realistically must be set against the imperfections of our contemporary political realities As a form of education it must actively engage in a critically informed way with a set of complex inherited historical issues that emerge out of a colonial past and the savage globalization which often perpetuates unequal power relations or cause new inequalities The essays in the book explore these issues and the emergent world ideologies of globalism as well as present territorial conflicts ethnic tribal and nationalist rivalries problems of increasing international migration and asylum growing regional imbalances and increasing world inequalities Contributors to this collection each on their own way argues that global citizenship education needs to project new values to reality test and debate the language concepts and theories of global citizenship and the proto world institutions that seek to give expression to nascent aspirations for international forms of social justice and citizen participation in world government Many of the contributors argue that global citizenship education offers the prospect of extending the liberal ideologies of human rights and multiculturalism and of developing a better understanding of forms of post colonialism One thing is sure as the essays presented in this book demonstrate so clearly there can be no one dominant notion of global citizenship education as notions of global citizenship and education are all contested and open to further argument and revision Global citizenship education does not name the moment of global citizenship or even its emergence so much as the hope of a form of order

where the rights of the individual and of cultural groups irrespective of race gender ethnicity or creed are observed preserved and protected by all governments in order to become the basis of citizen participation in new global spaces that we might be tempted to call global civil society Research in Education ,1973 **Handbook of School-Based Mental Health Promotion** Alan W.
