Public Performances Jack Santino,2017-12-15 *Public Performances* offers a deep and wide ranging exploration of relationships among genres of public performance and of the underlying political motivations they share Illustrating the connections among three themes the political the carnivalesque and the ritualesque this volume provides rich and comprehensive insight into public performance as an assertion of political power Contributors consider how public genres of performance express not only celebration but also dissent grief and remembrance examine the permeability of the boundaries between genres and analyze the approval or regulation of such events by municipalities and other institutions Where the particular use of public space is not sanctioned or where that use meets with hostility from institutions or represents a critique of them performers are effectively reclaiming public space to make public statements on their own terms an act of popular sovereignty Through these concepts *Public Performances* distinguishes the sometimes overlapping dimensions of public symbolic display Carnival and thus the carnivalesque is

understood to possess tacit social permission for unconventional or even deviant performance on the grounds that normal social order will resume when the performance concludes Ritual and the ritualesque leverages a deeper symbolic sensibility one believed or at least intended by the participants to effect transformative longer term change Contributors Roger D Abrahams John Borgonovo Laurent S bastien Fournier Lisa Gilman Barbara Graham David Harnish Samuel Kinser Scott Magelssen Elena Martinez Pamela Moro Beverly J Stoeltje Daniel Wojcik Dorothy L Zinn *El Niño Fidencio and the Fidencistas* Antonio Noé Zavaleta Ph.D.,2016-08-17 *El Nio Fidencio and the Fidencistas* Folk Religion on the U S Mexican Borderland is an biographical ethnography examining the life of Mexico's most famous folk healer as well as the folk religious healing cult that has followed him since his death in 1938 Dr Zavaleta examines curanderismo the transmigrational patterns of Mexicans in the United States as well as Latino a social psychology and importance of folk beliefs and practices in their daily lives In 2009 Zavaleta's lifetime of research supporting Mexican nationals living abroad Mexicanos en el Extranjero earned him the prestigious Ohtli a Nahuatl Aztec word meaning pathfinder The Ohtli is regarded as the highest community minded awards which the Republic of Mexico bestows to non Mexican citizens for their service to Mexico In 2010 Zavaleta was appointed by President Obama to the Good Neighbor Environmental Commission of the EPA which reports directly to the President and dedicated to observing and analyzing ongoing events within the cross border eco systems of the United States Mexico borderlands Zavaleta studied anthropology at The University of Texas at Austin completing a doctoral degree in 1976 For the past 40 years he has been a faculty member and administrator at The University of Texas at Brownsville and Texas Southmost College and The University of Texas Rio Grande Valley Dr Zavaleta retired in 2016 and lives in Brownsville Texas

The Religious Men in Jebel Marra Bakheit M. Nur Mohammed,2017 The study investigates how Muslim religious specialists fuqar sing fak acquire Qur'anic knowledge in the context of the communities of practice It contextualises the Qur'anic schools of Jebel Marra in the Sudan arguing that the fuqar increase their access to knowledge of the Qur'an by socially interacting with each other The book is grounded in an ethnographic study of Qur'anic memorisation and activities that the fuqar perform after graduation from Qur'anic schools It thus provides a fresh perspective to Islamic learning and epistemology The great value of the study lies in the author's reconstruction of the practices and techniques cognitive and corporeal which are systematically employed to memorise the whole of the Qur'an Page 4 of cover Religion and Anthropology Brian Morris,2006 This important textbook provides a critical introduction to the social anthropology of religion focusing on more recent classical ethnographies Comprehensive free of scholastic jargon engaging and comparative in approach it covers all the major religious traditions that have been studied concretely by anthropologists Shamanism Buddhism Islam Hinduism Christianity and its relation to African and Melanesian religions and contemporary Neopaganism Eschewing a thematic approach and treating religion as a social institution and not simply as an ideology or symbolic system the book follows the dual heritage of social anthropology in combining an interpretative understanding and sociological

Daniel, 2018-03-27 A necessary task of missionaries in recent decades has been to help local Christians inculturate or contextualize their faith although the criteria for doing so often came from outside the context in which new believers developed their understanding of Christianity Highlighting the voices of non Western scholars this work recognizes the importance of ritual and ceremony in the life of communities that seek to worship God in ways that reflect culturally appropriate responses to Scripture The contributors some of missiology s leading lights discuss rituals beliefs and practices of diverse peoples supporting the conclusion that orthodox Christianity is hybrid Christianity Steering Human Evolution Yehezkel Dror, 2020-05-07 Humanity must steer its evolution As human knowledge moves a step ahead of Darwin s theories this book presents the emergence of human made meta evolution shaping our alternative futures This novel process poses fateful challenges to humanity which require regulation of emerging science and technology which may endanger the future of our species However to do so successfully a novel humanity craft has to be developed main ideologies and institutions need redesign

national sovereignty has to be limited a decisive global regime becomes essential some revaluation of widely accepted norms becomes essential and a novel type of political leader based on merit in addition to public support is urgently needed Taking into account the strength of nationalism and vested interests it may well be that only catastrophes will teach humanity to metamorphose into a novel epoch without too high transition costs But initial steps such as United Nation reforms are urgent in order to contain calamities and may soon become feasible Being both interdisciplinary and based on personal experience of the author this book adds up to a novel paradigm on steering human evolution It will be of great interest to scholars and researchers of modern history evolution sciences future studies political science philosophy of action and science and technology It will also be of wide appeal to the general reader anxious about the future of life on Earth Comments on the Corona pandemic add to the book's concrete significance
