Lost In Transplantation Memoir Of An Unconventional Organ Donor:

Lost in Transplantation Eldonna Edwards, 2013-12-24 One Gently Used Kidney Free to a Good Home When 48 year old single mother massage therapist and returning student Ellie meets a young woman with kidney disease she decides to make it her mission to save the girl Unfortunately outdated rules made it difficult for altruistic donors and besides the woman doesn't want a savior Does this stop Ellie from her quest to be the change one seeks in the world Not a chance Told with humor and self reflection this inspirational memoir of courage and compassion is interwoven with anecdotal stories that help the reader identify what kind of person commits the selfless act of organ donation Ellie a self described devout agnostic is kind but often irreverent She is generous but she is no saint Ultimately becoming a kidney donor has given her a renewed sense of purpose and fulfillment *Lost in Transplantation* asserts that we are all capable of altering a human being's life for the better including our own

Dancing with Rejection: A Beginner's Guide to Immortality Michael R. Gaudet, 2015-08-24 In 1979 at age 19 Michael Gaudet was diagnosed with end stage renal failure Thanks to a kidney transplant from his brother Michael survived and later rose to prominence as a Canadian painter of monumental murals *Dancing With Rejection A Beginner's Guide to Immortality* chronicles the untimely death of Michael's loving father our hero's own near death experience and his bohemian lifestyle in Canada of the 1970s and 80s A cast of eccentric characters weaves us in and out of lusty tales of romance gritty medical dramas and encounters with the paranormal Written like his murals in large bright swaths of sweeping narrative this is a cosmic joy ride of a read

Daring to Believe Amy Gray-Cunningham, 2018-03-09 One night through Facebook Amy's husband Chuck learned that the brother of a high school friend had polycystic kidney disease and would soon die without a kidney transplant Married to his high school sweetheart this man had two beautiful daughters and with an organ transplant he could still have a full life ahead of him After hearing his story Amy Gray Cunningham prayed that someone would step up and offer him a kidney Then the impossible happened She heard God's Voice tell her that she would be the someone to save this complete stranger's life by donating her kidney And she dared to believe Guided by faith Amy Chuck and other members of her family navigated their fear and trepidation to proceed with the donation Amy's faith and trust in God saw her through the surgery to not only save a man's life but also to find a renewed purpose in her own life and all of its infinite possibilities What might you be called to do if you dared to believe

Catchlight Genevieve Ruth, 2012-11-28 The boy I'd had a crush on since high school now my husband and father of our baby girl is fighting for his life after an aggressive staph infection has ravaged his heart and placed him at the top of the transplant list We're facing financial crisis massive lay offs soaring medical bills and worse impending toddlerhood Life can be so uncool Good thing I'm armed ABOUT CATCHLIGHT Finding humor hope and strength to endure just about anything may not seem as difficult after reading *Catchlight* a memoir that has already inspired thousands Open the pages to step inside the unique mind of an eternal optimist and experience how one thinks processes and responds to stress

Genevieve Ruth's conversational prose feels welcoming like an old friend and is infused with just enough self-deprecation to keep things light as she shares intimate details about her past, the very real, very scary present, and how she is able to remain positive and keep her sanity while fighting to stay strong for those who are unable to. Catchlight offers comfort, guidance, a few laughs, a perspective shift to a more positive outlook, unobstructed insight into the organ transplantation process, and a story that others can draw strength from when confronted by their own unimaginable circumstances.

ABOUT THE COVER ART It is one of several heart works created by the subject of this book years before knowing he would need a transplant. It features an older male and female connected by a purple heart with a gold center. It is a beautiful and symbolic image to honor and illustrate the story of both donor and recipient.

PHILANTHROPY A portion of proceeds from the sale of this book benefit non-profit organ donation advocacy programs and transplant-related research. Thank you for your support. **A**

Change of Heart Claire Sylvia, William Novak, 1998-03-01 After a heart and lung transplant operation, dancer Claire Sylvia discovered that new organs were not the only thing she inherited. Never having liked such foods as beer and chicken nuggets, she suddenly started craving them. After an extraordinary dream, she seeks out the family of her donor, a teenaged boy who died in a motorcycle accident, and learns that it is indeed possible for two souls to merge in one body. This is a story that must be told and heard, a fascinating example of how cellular memory can outlive physical death. Deepak Chopra, M.D. [A Life Everlasting](#)

Sarah Gray, 2016-09-27 A donor mother's powerful memoir of grief and rebirth that is also a fascinating medical science whodunit taking us inside the world of organ, eye, tissue, and blood donation and cutting-edge scientific research. When Sarah Gray received the devastating news that her unborn son, Thomas, was diagnosed with anencephaly, a terminal condition, she decided she wanted his death and life to have meaning. In the weeks before she gave birth to her twin sons in 2010, she arranged to donate Thomas's organs. Due to his low birth weight, they would go to research rather than transplant. As transplant donors have the opportunity to meet recipients, Sarah wanted to know how Thomas's donation would be used. That curiosity fueled a scientific odyssey that leads Sarah to some of the most prestigious scientific facilities in the country, including Harvard, Duke, and the University of Pennsylvania. Pulling back the curtain of protocol and confidentiality, she introduces the researchers who received Thomas's donations: held his liver in their hands, studied his cells under the microscope. Sarah's journey to find solace and understanding takes her beyond her son's donations, offering a breathtaking overview of the world of medical research and the valiant scientists on the horizon of discovery. She goes behind the scenes at organ procurement organizations, introducing skilled technicians for whom death means saving lives, empathetic counselors, and the brilliant minds who are finding surprising and inventive ways to treat and cure disease through these donations. She also shares the moving stories of other donor families. [A Life Everlasting](#) is an unforgettable testament to hope, a tribute to life and discovery, and a portrait of unsung heroes pushing the boundaries of medical science for the benefit of all humanity.

I Think I Need a New Heart: The Journey from Heart Failure to Transplant Manu Kalia, 2017-04-24 A frank and honest account of one patient s journey from end stage congestive heart failure to artificial heart assist pump implantation and eventually to heart transplantation recovery and health This memoir shares a first hand perspective of the fears challenges and joys of facing a life threatening illness and being given the gift of a second chance at life For all those who face organ failure and transplantation for their loved ones for those who work in the transplant healthcare arena and for organ donors and their families

From Death to Life Tim Hawkins, 2021-07 Two men One donor And one last chance to live life to the fullest Other than their shared affinity for the water you couldn t invent two men who were more different than swimmer Fred Nelis and sailor Gordon Veldman One a steady disciplined reserved Catholic business leader and family man The other man an impulsive and colorful serial monogamist and atheist Yet they would come to share the rarest of bonds when each received a second chance at life and vitality because of one generous organ donor Dubbed the Transplant Brothers by the media Fred and Gordon were already casual friends when they found themselves waiting for the news that the organs they needed to

survive had become available Remarkably the men would end up at the same hospital at the same time receiving a heart and a pair of lungs from the same donor linking them for the rest of their lives in ways most of us couldn't understand In these pages you'll encounter fear hardship and many obstacles that were hard to surmount But you will also encounter hope faith perseverance and healing as Fred and Gordon walk the transplant tightrope with friends and family alongside them

Partners 4 Life Jim Uhrig, 2014 Early in 2008 doing ordinary mundane things like tying his shoes and walking up steps literally took author Jim Uhrig's breath away He had trouble breathing and it seemed as though he could never catch his breath That was the beginning of a long journey for Uhrig who shares his story in *Partners 4 Life* In this memoir he narrates the path his life took after being diagnosed with the incurable idiopathic pulmonary fibrosis and undergoing a subsequent lung transplant in April of 2009 Uhrig not only discusses his diagnosis and treatment but also places special emphasis on the partners from his personal life his business and his sports activities who provided him with inspiration and help and played an integral role in his survival He includes his partners in medicine the donor and her family caregivers and special angels Uhrig's story relates how he tackled his lung disease and transplant with the same fervor he lived life *Partners 4 Life* communicates the saving grace of an organ transplant as well as the power of positive thinking

Wrapped in Mourning Sue Holtkamp, 2002 Based on 15 years of experience working with organ procurement organizations and donor families Wrapped in Mourning addresses the heretofore unexplored subject of organ donor family trauma This book covers the issues surrounding organ donation including the history of organ transplantation how organs are procured for transplantation as well as the medical procedure itself Each issue is explored with regards to its impact upon donor families Ways to reduce grief prevent problems and increase the benefits of donating organs for the donating family are also discussed

Raising the Dead Ronald Munson, 2002-01-17 Perhaps no medical breakthrough in the twentieth century is more spectacular more hope giving or more fraught with ethical questions than organ transplantation Each year some 25 000 Americans are pulled back from the brink of death by receiving vital new organs Another 5 000 die while waiting for them And what distinguishes these two groups has become the source of one of our thorniest ethical questions In Raising the Dead Ronald Munson offers a vivid often wrenchingly dramatic account of how transplants are performed how we decide who receives them and how we engage the entire range of tough issues that arise because of them Each chapter begins with a detailed account of a specific case Mickey Mantle's controversial liver transplant

for example followed by careful analysis of its surrounding ethical questions the charges that Mantle received special treatment because he was a celebrity the larger problems involving how organs are allocated and whether alcoholics should have an equal claim on donor livers In approaching transplant ethics through specific cases Munson reminds us of the complex personal and emotional dimension that underlies such issues The book also ranges beyond our present capabilities to explore the future possibilities in xenotransplantation transplanting animal organs into humans and stem cell technology that would allow doctors to grow new organs from the patient s own cells Based on extensive scientific research but written with a novelist s eye for the human condition *Raising the Dead* shows readers the reality of organ transplantation now the possibility of what it may become and how we might respond to the ethical challenges it forces us to confront [The Hero Within](#) Craig W Huber,Craig Huber,2024-04-04 He hadn t a worry in the world until he received a deadly diagnosis Would one man s faith get him through the fear Craig Huber was living the dream Now a hard working sales professional with an unswervingly supportive and caring wife by his side after nearly two decades serving as a full time minister in Central and South America he knew how blessed his life had been But when odd physical symptoms sent him to the doctor his heart sank at the crippling words of his physician late stage liver disease Told he didn t stand a shot at survival without a transplant Craig and his family struggled to keep their patience as they waited for test results So when he got the coveted call announcing a donor match the determined fighter rolled up his sleeves for the long and arduous road to recovery In this uplifting account of courage and strength transplant survivor Craig Huber walks readers down the unpredictable path of a harrowing medical ordeal And with an unwavering belief in God s plan this inspiring man s story will remind you that every hurdle is only a step in becoming the strongest and most fulfilled version of yourself *The Hero Within* is a powerful memoir of rising above life s toughest obstacles and finding determination If you like open and honest experiences organ donor insights and heartwarming second chances then you ll love Craig W Huber s eye opening journey of healing Buy *The Hero Within* to overcome the darkest of days today *Strange Harvest* Lesley A. Sharp,2006-10-04 *Strange Harvest* illuminates the wondrous yet disquieting medical realm of organ transplantation by drawing on the voices of those most deeply involved transplant recipients clinical specialists and the surviving kin of deceased organ donors In this rich and deeply engaging ethnographic study anthropologist Lesley Sharp explores how these parties think about death loss and mourning especially in light of medical taboos surrounding donor anonymity As Sharp argues new forms of embodied intimacy arise in response and the riveting insights gleaned from her interviews observations and descriptions of donor memorials and other transplant events expose how patients and donor families make sense of the transfer of body parts from the dead to the living For instance all must grapple with complex yet contradictory clinical assertions of death as easily detectable and absolute nevertheless transplants are regularly celebrated as forms of rebirth and donors as living on in others bodies New forms of sociality arise too recipients and donors relatives may defy sanctions against communication and through personal

encounters strangers are transformed into kin Sharp also considers current experimental research efforts to develop alternative sources for human parts with prototypes ranging from genetically altered animals to sophisticated mechanical devices These future trajectories generate intriguing responses among both scientists and transplant recipients as they consider how such alternatives might reshape established yet unusual forms of embodied intimacy [Organ Transplants](#) Henry Wouk,2013-08-01 Every ten minutes a new name is added to the ever growing national organ transplant waiting list Readers will explore the history of organ transplants and its current state Readers will learn about how organ donor and registry works as well as what it s like to be a patient waiting for this life saving medicine *Borrowing Life* Shelley Fraser Mickle,2020-04-14 Against a global backdrop of wartime suffering and postwar hope *Borrowing Life* gathers the personal histories of the men and women behind the team that enabled and performed the modern medical miracle of the world s first successful organ transplant An extraordinary work Shelley Fraser Mickle has not only provided a detailed fascinating documentation of the world s first successful organ transplant but she has also painted the lives of those involved doctors patients family members so vividly that the reader is completely enthralled and emotionally invested in their grieved losses as well as their successes The result is a beautiful tribute to medical science as well as to humanity Jill McCorkle NYT bestselling author of *Life After Life* Working with Dr Moore Dr Murray and Dr Vandam to create the painting commemorating their historic operation and the research leading up to it was the greatest adventure of my artistic career Having my painting on the cover of *Borrowing Life* renews that excitement for I know what grand adventure is waiting for the reader Joel Babb artist I was so very pleased to be involved with Shelley as she wrote her captivating compelling book I only wish that Ron could be here with me to read it Cynthia Herrick wife of the first successful organ transplant donor Had these men and women not worked diligently to save the life of Charles Woods I and my 5 brothers and 3 sisters would not have been born Charles Woods and Miriam Woods are my parents It is thrilling to read Ms Mickle s book as it closely mirrors the stories our dad and mom shared with us as children The amazing thing is that as a disfigured war hero our dad embraced his appearance as a badge of honor David Woods Performed at Boston s Peter Bent Brigham Hospital in 1954 the first successful kidney transplant was the culmination of years of grit compassion and the pursuit of excellence by a remarkable medical team Nobel Prize winning surgeon Joseph Murray his boss and fellow surgeon Francis Moore and British scientist and fellow Nobel laureate Peter Medawar Drawing on the lives of these members of the Greatest Generation *Borrowing Life* creates a compelling narrative that begins in wartime and tracks decades of the ups and downs personal and professional of these inspiring men and their achievements which continue to benefit humankind in so many ways [Some Assembly Required](#) Tj Condon,2021-05-20 *Some Assembly Required* is a humorous book about everything going wrong that could possibly go wrong **On the List** Lori D.
