**HOW TO PREDICT FUTURE LOTTERY RESULTS BOOK 4** Francis Isaac, 2014 This book is designed for lottery players around the world The prediction in this book is based on understanding the behavior and complexity of random systems Understanding the complexity of random systems is the best tool that we have of predicting future lottery results The prediction in this book is based on a month by month analysis because I believe that knowing that by the end of the month you will definitely win a certain amount of money but just not knowing how much it is going to be yet is a wonderful feeling That is how I feel each

month and I would also like all those who buy this book to have the same feeling every month First of all I want to show that it is possible to predict future lottery numbers at whatever combination be it two or three or four or five or six number combinations My first book titled How to Predict Future Lottery Results did present two number combinations You can see by checking the results page how accurate the prediction from the first book has been The first book was published on December 18 2013 All results from 6 49 lotteries around the world after that date have so far verified and validated my predictions on a month by month basis This book presents a three month snapshot of the matching numbers from eight countries around the world during January February and March 2014 These results correspond with the predictions in my first book I have now decided to publish the combinations for predicting four numbers on a month by month basis
