Love Letter to the Milky Way Drew Dellinger, 2002 *World as Lover, World as Self* Joanna Macy, 2007-10-28 A new beginning for the environment must start with a new spiritual outlook In this book author Joanna Macy offers concrete suggestions for just that showing how each of us can change the attitudes that continue to threaten our environment Using the Buddha's teachings on Paticca Samuppada which stresses the interconnectedness of all things in the world and suggests that any one action affects all things Macy describes how decades of ignoring this principle has resulted in a self centeredness that has devastated the environment Humans Macy implores must acknowledge and understand their connectedness to their world and begin to move toward a more focused effort to save it **MY FIRST LOVE LETTER**

interdisciplinary convergences are developed by an astronomer collaborating with a theologian **Sacred Instructions** Sherri Mitchell, 2018-02-13 A profound and inspiring collection of ancient indigenous wisdom for anyone wanting the healing of self society and of our shared planet Peter Levine author of Waking the Tiger Healing Trauma A Penobscot Indian draws on the experiences and wisdom of the First Nations to address environmental justice water protection generational trauma and more Drawing from ancestral knowledge as well as her experience as an attorney and activist Sherri Mitchell addresses some of the most crucial issues of our day including indigenous land rights environmental justice and our collective human survival Sharing the gifts she has received from the elders of her tribe the Penobscot Nation she asks us to look deeply into the illusions we have labeled as truth and which separate us from our higher mind and from one another Sacred Instructions explains how our traditional stories set the framework for our belief systems and urges us to decolonize our language and our stories It reveals how the removal of women from our stories has impacted our thinking and disrupted the natural balance within our communities For all those who seek to create change this book lays out an ancient world view and set of cultural values that provide a way of life that is balanced and humane that can heal Mother Earth and that will preserve our communities for future generations *Coming Back to Life* Joanna Macy, Molly Young Brown, 2014-11-01 *Coming Back to Life* has helped people transform denial despair and grief in the face of the social and ecological challenges of our time This new completely updated edition repositions the classic work within the context of deepening global crises and the cognitive spiritual and perceptual revolutions occurring all around us **Shamanic Breathwork** Linda Star Wolf, 2009-11-17 Utilizing the healing power of breath to change consciousness Explains how to enter altered states of consciousness increase paranormal abilities and resolve old traumas using breathwork Introduces the Five Cycles of Change that bring about major life shifts and how to work with them Includes 70 minute audio download of chakra attuned rhythms to play during the journey Incorporating psychospiritual tools with her Shamanic Breathwork practice Linda Star Wolf shows how to spiritually journey in the same way shamans entrain to the rhythms of drums or rattles using the breath either alone or together with music Much like traveling to sacred places or ingesting entheogens this practice can be used to enter altered states of consciousness connect to cosmic consciousness increase paranormal abilities and awaken the shaman within Breathwork can also be used to resolve old traumas and shapeshift unproductive modes of thinking in order to move beyond them Utilizing the healing power of breath along with chakra attuned music Linda Star Wolf explores the Five Cycles of Change the Alchemical Map of Shamanic Consciousness and how these cycles affect you as you move through major shifts in your life Filled with personal stories and case histories the book also includes 70 minute audio download of shamanic trance rhythms and a guided meditation to awaken the chakras during practice Humankind and Nature Artur K. Wardega, Albert Wong, 2015-01-12 As climate change continues to batter the coastlines of North America and elsewhere and as extreme weather events provide abundant proof of its reality religious leaders can no longer ignore the fact that the human has

become a geologic force a force that must be re educated and re formed in order to guarantee safe passage into a sustainable future Hopefully Jesuits and their lay partners can continue to provide leadership in regard to this issue correctly identified by Fr Adolfo Nicol s SJ as a top priority In this particular context the role of religions and their valuable contributions must be evaluated Religion s role is not simply one of morality rather it seeks especially in Christianity to show the face of God It is out of this relation that believers then seek to live towards the good especially in relation to their neighbours creation and God Religious believers may have failed severely in communicating this relationship in the twenty first century This publication gathers together a roster of Western and Asian experts contributions from various fields of knowledge related to ecology anthropology religions and ethics economics technology and to environmental and health protection studies This collection of essays embracing a wide scope of current topics theme and questions will renew awareness of the ecological dilemma and stimulate reflection on its spiritual and social dimensions **Ecopiety** Sarah McFarland Taylor,2019-11-12

Tackles a human problem we all share the fate of the earth and our role in its future Confident that your personal good deeds of environmental virtue will save the earth The stories we encounter about the environment in popular culture too often promote an imagined moral economy assuring us that tiny acts of voluntary personal piety such as recycling a coffee cup or purchasing green consumer items can offset our destructive habits No need to make any fundamental structural changes The trick is simply for the consumer to buy the right things and shop our way to a greener future It s time for a reality check Ecopiety offers an absorbing examination of the intersections of environmental sensibilities contemporary expressions of piety and devotion and American popular culture Ranging from portrayals of environmental sin and virtue such as the eco pious depiction of Christian Grey in Fifty Shades of Grey to the green capitalism found in the world of mobile device carbon sin tracking software applications to the socially conscious vegetarian vampires in True Blood the volume illuminates the work pop culture performs as both a mirror and an engine for the greening of American spiritual and ethical commitments Taylor makes the case that it is not through a framework of grim duty or obligation but through one of play and delight that we may move environmental ideals into substantive action **Thomas Berry, Dreamer of the Earth** Ervin Laszlo,Allan Combs,2011-01-27

essays from leading philosophers scientists and spiritual visionaries including Matthew Fox Joanna Macy Duane Elgin Sean Esbjorn Hargens Ervin Laszlo and Allan Combs on the genius of Berry's work and his quest to resolve our global ecological and spiritual challenges as well as a little known but essential essay by Berry himself Revealing Berry's insights as far ahead of their time these essays reiterate the radical nature of his ideas and the urgency of his most important conclusion that money and technology cannot solve our problems rather we must reestablish the indigenous connection with universal consciousness and return to our fundamental spontaneous nature still evident in our dreams in order to navigate our ecological challenges successfully
