Seeds of Success Sheryl Towers,2009-11-30 The pursuit of success can drive people to endlessly seek outside acceptance Raises and praise from employers and social peer groups may be a sign of prosperity and progress but should not be mistaken for genuine achievement According to Sheryl Towers the founder of Life Enrichment Skills only that which

contributes to a person's overall happiness and enthusiasm can be considered true success. By using the metaphor of seeds blossoming into life, Towers adds a depth and personalization that transcends the standard step-by-step self-improvement guide. Through seventeen basic principles or seeds such as honesty, integrity, and faith, Towers lays the groundwork for a life of fulfillment. Each tenet, when cultivated and practiced, can enhance a person's sense of self and help them prepare a better future. Her view is a combination of realism and optimism. Seeking true success, she admits, can take time, patience, and resolve. As someone who has risen above negative conditioning to live by her own terms, Towers provides firm encouragement to support the reader through their journey. Words of wisdom from respected intellectuals, sports figures, and business executives combine with inspirational stories to guide those who wish to add true value to every aspect of their lives. **The**

Burack-Weiss, 2006-03-14 Ann Burack Weiss explores a rich variety of published memoirs by authors who cared for ill or disabled family members. Contrary to the common belief that caregiving is nothing more than a stressful situation to be endured, memoirs describe a life-transforming experience, self-discovery, a reordering of one's priorities, and a changed view of the world. *The Caregiver's Tale* offers insight and comfort to individuals caring for a loved one and is a valuable resource for all health care professionals. Identifying common themes, Burack Weiss describes how the illness, career, and social meaning of cancer, dementia, HIV/AIDS, mental illness, and chemical dependence affect the caregiving experience. She applies the same method to an examination of family roles: parents caring for ailing children, couples and siblings caring for one another, and adult children caring for aging parents. Jamaica Kincaid, Sue Miller, Paul Monette, Kenzaburo Oe, and Philip Roth are among the many authors who share their caregiving stories. Burack Weiss provides an annotated bibliography of the more than one hundred memoirs and an accompanying chart to help readers locate those of greatest interest to them. **To Be**

She's in need of a fake friendly boyfriend to charm her family. He's the last bachelor up for auction and a grumpy last-minute stand-in. Neither satisfies the other's requirements, but they might just be what each of them needs. With Lauren Connelly's ex marrying her sister, the last thing she wants is to show up at the wedding without a date. Which means finding a fake boyfriend ASAP. The charity bachelor auction provides a solution to her problem, except the man she bids on turns out to be a gorgeous but grumpy executive who scowls more than he smiles. Chase Gossard wants nothing to do with Lauren's plan to make him her plus one at a destination wedding and pretend that he's in love. He doesn't do relationships, fake or otherwise, but she paid a lot of money for the privilege. So why does their touching, kissing, and sharing one bed feel all too real? Lauren is smart and witty and sexy as hell. A down-to-earth combination that somehow softens his hard edges, and somewhere along the way, he's falling hard for his fake date. But when it's time to part ways, can the pretend girlfriend convince the confirmed bachelor to make things real? Identity Excellence Perry L. Glanzer, 2022-07-18. American higher education historically and inherently is a morally formative endeavor. Yet in order to respond to America's moral pluralism, higher education has increasingly taken a reductionistic approach to moral formation. Consequently, it abandoned the effort to supply students with moral expertise. Current approaches help students learn how to be excellent professionals and citizens, but they fail to provide the necessary tools for living the good life in college and beyond. Identity Excellence: A Theory of Moral Expertise for Higher Education addresses this problem by setting forth a multidisciplinary theory of moral expertise for fostering moral excellence in an array of important identities. To this end, it teases apart the essential elements of what it means to be excellent in an identity before discussing the philosophical, sociological, psychological, and educational processes necessary for students to internalize traditions of identity excellence as part of their own moral identities. Overall, the emergent theory exposes the shortcomings in contemporary general education, professional ethics, and co-curricular education. Finally, this book sets forth a bold but compelling vision for a more hopeful future for American higher education. As outlined, such education involves teaching students excellence in the Great Identities as well as how to prioritize and integrate their pursuit of identity excellence. **Foundations and Clinical Applications of**
