Louis XI The Universal Spider:

Louis XI Paul Murray Kendall, 1974 The Universal Spider. The Life of Louis XI of France. Translated and Edited by Paul Kendall Philippe de COMINES (Seigneur d'Argenton.), Paul Murray Kendall, 1973 **The Universal Spider** Philippe de Commynes, 1973 The Memoirs of Philippe de Commynes have been celebrated for more than four hundred years both as a remarkable literary work and as a priceless contribution to the history of the fifteenth century They fall into two quite different parts The first comprising Books I VI narrates the intense violent struggle for the dominance of western Europe between Louis XI of France and his greatest vassal Charles the Rash Duke of Burgundy which was resolved by the triumph of the king it begins with the appearance of Commynes on the political scene in 1464 as a young squire in the service of the House of Burgundy and ends in 1483 with the death of Louis XI at which Commynes was himself present In the second part Books VII VIII he recounts the first French invasion of Italy in 1494 under Louis XI's feeble son Charles VIII He took part in that ill fated expedition as a royal councillor and diplomat and fought at Charles VIII's side in the desperate battle of Fornovo but the chief adviser and confidant of Louis XI enjoyed little influence in King Charles's frivolous household The Memoirs conclude in 1498 following the death of Charles VIII with Commynes entering the service of that monarch's successor Louis XII It is the earlier and much richer part of the Memoirs that is here translated introduction page 7 **Louis XI** Paul Murray Kendall, 1971 Defining Neomedievalism(s) II Karl Fugelso, 2011 The focus on neomedievalism at the 2007 International Conference on Medievalism in ever more sessions at the annual International Congress on Medieval Studies and by many recent or forthcoming publications has left little doubt that this important new area of study is here to stay and that medievalism must come to terms with it In response to an essay in *Studies in Medievalism XVIII* defining medievalism in relationship to neomedievalism this volume therefore begins with seven essays defining neomedievalism in relationship to medievalism **The Artillery of the Dukes of Burgundy, 1363-1477** Robert Douglas Smith, Kelly DeVries, 2005 A major new exploration of the history and development of gunpowder weapons in the 15th century based on the artillery of the Dukes of Burgundy The four Valois Dukes of Burgundy created in little more than a century a fabulously wealthy and independent state Their centralised control and chancellery have bequeathed to us a vast treasure trove of documents including accounts and inventories of the Masters of the artillery under the later Dukes Although many of these were extracted and transcribed in the late nineteenth century modern historians have largely ignored their unprecedented insights into fifteenth century guns and their use When Charles the Bold the last Valois Duke took on the combined Swiss confederate forces in 1476 he lost not just the battles and his personal fortune but much of his artillery train as well Of the dozens of cannons captured at least 25 pieces survive in Swiss museums The documents that survive from the Valois state give us almost for the first time in medieval Europe the ability to see the course of history in a period when Europe was undergoing some of the most profound changes before the 20th century The Artillery of the Dukes of Burgundy is the first attempt to

combine all these sources bringing new and fresh insights into the development and use of artillery in the fifteenth century. Moreover, this is the first modern study of medieval cannon, one of the most important discoveries of the post-classical world. KELLY DeVRIES has authored numerous books and articles on medieval warfare. ROBERT DOUGLAS SMITH, formerly Head of Conservation in the Royal Armouries Tower of London, is an acknowledged expert on medieval artillery. This study is the first major fruit of their combined researches. **The French Monarchical Commonwealth, 1356-1560** James B.

Collins, 2022-05-19. Offers a new perspective on the nature of political society in the French monarchy across more than two centuries. **Ritual, Ceremony and the Changing Monarchy in France, 1350-1789** Lawrence M. Bryant, 2024-08-01. This collection of articles explores changes in images of the French monarchy propagated in ceremonies that townspeople and officials created for their kings. Bryant looks at royal entries as massive processional and street theaters in which members of the kingdom both discoursed with and exalted the king in a multiplicity of ritual forms, symbolism, and public art. These ceremonies personalized the idea of the state as embodied in the king and they publicized rights and authority, new historical or mythological themes, innovative styles of monumental architecture, and art and theories of ideal and shared government.

An Astrologer at Work in Late Medieval France Helena Avelar de Carvalho, 2021-07-19. This book explores the notebooks of S. Belle, an astrologer who lived in late fifteenth-century France, as a case study of late medieval astrological practice. These notebooks combine astrological doctrine, a large collection of horoscopes, an almanac, and three complete judgments of nativities. By studying Belle's methods, processes of learning, and practices, this book contributes to a better understanding of the internal architecture of astrology in the pre-modern world; this includes its techniques, methodologies, goals, transmission, and development throughout history. It offers an internalist view of the practice of astrology as a counterpart to the existing research into astrology's social and cultural impact. The Valois Robert Knecht, 2007-04-01. The house of Valois ruled France for 250 years, playing a crucial role in its establishment as a major European power. This extremely well-written and structured book will appeal to the general reader.

A Cumulative Bibliography of Medieval Military History and Technology Kelly DeVries, 2001-11-01. There is perhaps no other more lively area for study in medieval history than medieval military history, with its attendant and complementary field, the history of medieval military technology. In the past twenty years, it seems that more major scholarly inroads have been made in this field than in any other historical genre of medieval studies or chronological period of military history. What this has meant is that it is now more difficult to keep up with all of the trends and sources in the field than ever before. Hence the need for a reference work which covers what has previously been written and which in turn can assist the

scholar both the more experienced academic and the beginner to improve his or her work in medieval military history or the history of medieval military technology Utilizing library catalogues bibliographies and footnotes this bibliography has compiled the most complete list of secondary references to works in medieval military history and the history of military technology It keeps fairly strictly to a geography which centers on conventional medieval boundaries Europe Byzantium and the Middle East However the chronology does differ from the conventional medieval dates Because of its influence on the early Middle Ages references to Late Antiquity especially to the military history and technology of the third and fourth century Roman Empire have been included For the opposite reason the influence of the Middle Ages on the sixteenth and early seventeenth centuries references to military history and technology up to 1648 have been included as well This is especially important in the study of the Ottoman Turkish Wars and Arms and Armor where the end of the fifteenth century as a chronological terminus makes little sense **"Women, Manuscripts and Identity in Northern Europe, 1350?550 "**

parties to each grant including the crown and its local representatives and the various elements of the local community It compares and contrasts the charters with those granted to Guernsey and sets them in the wider context of franchises and liberties across the territories of the English crown through the late medieval and early modern period Overall the book highlights the crucial role of these charters in establishing the constitutional position of the bailiwick of Jersey This is more than a subject of historical interest The foundations of the constitutional position of Jersey are of great significance for the people of Jersey now and into the future Jersey's constitutional relationship with the Crown is continuing to evolve including to address the trading implications of Brexit Understanding the distinct constitutional position of Jersey and the development of its rights to be governed by its own laws and customs may inform constitutional developments in Jersey the crown dependencies and elsewhere

Contested Canonizations Ronald C. Finucane, 2011-10-12

Pope John Paul II famously canonized more saints than all his predecessors combined Several of these candidates were controversial To this day there remain holy men and women on the books of the Vatican's Congregation for the Causes of Saints whose canonization would provoke considerable debate This was no less true during the period covered in this pioneering study by renowned medieval historian Ronald C Finucane This work which forms an important bridge between medieval and Counter Reformation sanctity and canonization provides a richly contextualized analysis of the ways in which the last five candidates for sainthood before the Reformation came to be canonized Finucane uncovers the complex interplay of factors that lay behind the success of such campaigns success that could never be taken for granted even when the candidate's holy credentials appeared uncontroversial and his backers politically powerful Written by a master of the historical craft whose studies on miracles and popular religion for the high Middle Ages have long been an important point of reference for students this work presents brilliantly reconstructed case studies of the last five successful canonization petitions of the Middle Ages Bonaventure Leopold of Austria Francis of Paola Antoninus of Florence and Benno of Meissen

ABOUT THE AUTHOR Ronald Finucane died at the height of his critical powers in 2009 shortly after he submitted this work for publication Distinguished professor of history at Oakland University he was the author of four books including *Miracles and Pilgrims* *Popular Beliefs in Medieval England* and *Soldiers of the Faith* *Crusaders and Moslems at War* both History Book Club selections This book was brought to publication by Simon Ditchfield reader in history at the University of York

PRAISE FOR THE BOOK In this meticulously researched and carefully structured study Finucane establishes his work as a critical touchstone for future studies of canonization procedures and their revision in the early modern period David Collins S J associate professor of history Georgetown University On the surface the book is a meticulous detailed but fairly traditional discussion of the processes or politics if you will of saint making However Finucane's use of a case study approach allows him to find important commonalities among successful canonization cases without losing the inevitable complexity involved in the pursuit of each one There is a great deal to learn from this book *American Historical Review*
