**Love and Rockets**, 2006      **A User's Guide to Postcolonial and Latino Borderland Fiction** Frederick Luis Aldama, 2010-01-01 Why are so many people attracted to narrative fiction How do authors in this genre reframe experiences people and environments anchored to the real world without duplicating real life In which ways does fiction differ from reality What might fictional narrative and reality have in common if anything By analyzing novels such as Arundhati Roy's *The God of Small Things* Amitav Ghosh's *The Glass Palace* Zadie Smith's *White Teeth* and Hari Kunzru's *The Impressionist* along with selected Latino comic books and short fiction this book explores the peculiarities of the production and reception of postcolonial and Latino borderland fiction Frederick Luis Aldama uses tools from disciplines such as film studies and cognitive science that allow the reader to establish how a fictional narrative is built how it functions and how it defines the boundaries of concepts that appear susceptible to limitless interpretations Aldama emphasizes how postcolonial and Latino borderland narrative fiction authors and artists use narrative devices to create their aesthetic blueprints in ways that loosely guide their readers imagination and emotion In *A User's Guide to Postcolonial and Latino Borderland Fiction* he argues that the study of ethnic identified narrative fiction must acknowledge its active engagement with world narrative fictional genres storytelling modes and techniques as well as the way such fictions work to move their audiences      *The Official Overstreet Comic Book Companion, 11th Edition* Robert M. Overstreet, 2010 Describes and lists the values of popular collectible comics and graphic novels issued from the 1950s to today providing tips on buying collecting selling grading and caring for comics and including a section on related toys and rings      **Strips, Toons, and Bluesies** D. B. Dowd, M. Todd Hignite, 2006-07-06 The authors of *Strips Toons and Bluesies* address such key issues as the intertwined origins of comics and animation the sex violence and taboo breaking of 200 years of underground comics from Jack T Chick to Chris Ware the popular *Locas* stories of Jaime Hernandez's *Love and Rockets* and the political and racial portrayals of African Americans in 1960s comics including works by Stan Lee and R Crumb The book also includes a 25 page history of comics from 1380 to today a thorough and novel approach to the genre **BOOK JACKET**      [Your Brain on Latino Comics](#) Frederick Luis Aldama, 2012-10-19 Though the field of comic book studies has burgeoned in recent years Latino characters and creators have received little attention Putting the spotlight on this vibrant segment *Your Brain on Latino Comics* illuminates the world of superheroes Firebird Vibe and the new Blue Beetle while also examining the effects on readers who are challenged to envision such worlds Exploring mainstream companies such as Marvel and DC as well as rising stars from other segments of the industry Frederick Aldama provides a new reading of race ethnicity and the relatively new storytelling medium of comics themselves Overview chapters cover the evolution of Latino influences in comics innovations and representations of women demonstrating Latino transcendence of many mainstream techniques The author then probes the rich and complex ways in which such artists affect the cognitive and emotional responses of readers as they imagine past present and future worlds Twenty one

interviews with Latino comic book and comic strip authors and artists including Laura Molina Frank Espinosa and Rafael Navarro complete the study yielding captivating commentary on the current state of the trade cultural perceptions and the intentions of creative individuals who shape their readers in powerful ways **The New York Times Index** ,2008

Alternative Comics Charles Hatfield,2009-11-12 In the 1980s a sea change occurred in comics Fueled by Art Spiegelman and Françoise Mouly's avant garde anthology *Raw* and the launch of the *Love Rockets* series by Gilbert Jaime and Mario Hernandez the decade saw a deluge of comics that were more autobiographical emotionally realistic and experimental than anything seen before These alternative comics were not the scatological satires of the 1960s underground nor were they brightly colored newspaper strips or superhero comic books In *Alternative Comics An Emerging Literature* Charles Hatfield establishes the parameters of alternative comics by closely examining long form comics in particular the graphic novel He argues that these are fundamentally a literary form and offers an extensive critical study of them both as a literary genre and as a cultural phenomenon Combining sharp eyed readings and illustrations from particular texts with a larger understanding of the comics as an art form this book discusses the development of specific genres such as autobiography and history *Alternative Comics* analyzes such seminal works as Spiegelman's *Maus* Gilbert Hernandez's *Palomar* *The Heartbreak Soup* *Stories* and Justin Green's *Binky Brown Meets the Holy Virgin Mary* Hatfield explores how issues outside of cartooning the marketplace production demands work schedules can affect the final work Using Hernandez's *Palomar* as an example he shows how serialization may determine the way a cartoonist structures a narrative In a close look at *Maus* *Binky Brown* and Harvey Pekar's *American Splendor* Hatfield teases out the complications of creating biography and autobiography in a substantially visual medium and shows how creators approach these issues in radically different ways **Official@**
