français-anglais Alfred Elwall,1877 **The Art of Useless** Calvin Hui,2021-09-21 Since embarking on economic reforms in 1978 the People s Republic of China has also undergone a sweeping cultural reorganization from proletarian culture under Mao to middle class consumer culture today Under these circumstances how has a Chinese middle class come into being and how has consumerism become the dominant ideology of an avowedly socialist country The Art of Useless offers an innovative way to understand China s unprecedented political economic social and cultural transformations showing how consumer culture helps anticipate produce and shape a new middle class subjectivity Examining changing representations of the production and consumption of fashion in documentaries and films Calvin Hui traces how culture contributes to China s changing social relations through the cultivation of new identities and sensibilities He explores the commodity chain of fashion on a transnational scale from production to consumption to disposal as well as media portrayals of the intersections of clothing with class gender and ethnicity Hui illuminates key cinematic narratives such as a factory worker s desire for a high quality suit in the 1960s an intellectual s longing for fashionable clothes in the 1980s and a white collar woman s craving for brand name commodities in the 2000s He considers how documentary films depict the undersides of consumption exploited laborers who fantasize about the products they manufacture as well as the accumulation of waste and its disposal revealing how global capitalism renders migrant factory workers scavengers and garbage invisible A highly interdisciplinary work that combines theoretical nuance with masterful close analyses The Art of Useless is an innovative rethinking of the emergence of China s middle class consumer culture **The Publishers' Circular and Booksellers' Record** ,1928

Hunting the Collectors Susan Cochrane,Max Quanchi,2014-11-10 This volume investigates Pacific collections held in Australian museums art galleries and archives and the diverse group of 19th and 20th century collectors responsible for their

acquisition The nineteen essays reveal varied personal and institutional motivations that eventually led to the conservation preservation and exhibition in Australia of a remarkable archive of Pacific Island material objects art and crafts photographs and documents Hunting the Collectors benchmarks the importance of Pacific Collections in Australia and is a timely contribution to the worldwide renaissance of interest in Oceanic arts and cultures The essays suggest that the custodial role is not fixed and immutable but fluctuates with the perceived importance of the collection which in turn fluctuates with the level of national interest in the Pacific neighbourhood This cyclical rise and fall of Australian interest in the Pacific Islands means many of the valuable early collections in state and later national repositories and institutions have been rarely exhibited or published But as the authors note enthusiastic museum anthropologists curators collection managers and university based scholars across Australia and worldwide have persisted with research on material collected in the Pacific This volume is a very important one for anyone studying the art and material culture of the Pacific It focuses on collections now in Australia Even those well versed in museum collections from the Pacific will learn about many important but little known collectors as well as better known figures like the anthropologists F E Williams and Thomas Farrell the husband of Queen Emma This will be a treat for students and specialist alike Professor Robert L Welsch University of Dartmouth
