 one **True Love's Bite** Colette Marie Murphy, 2010 Regardless of whether or not we read fairy tales or horror stories we  
 are acculturated with the structure motifs and moral expectations and lessons that accompany these genres As the traditions  
 morph over time society learns and maintains assumptions about the characters and the plots that are featured within both  
 types of stories In the Twilight saga Stephenie Meyer creates texts that feature supernatural characters most commonly

associated with horror stories however the saga's plot structure is easily mapped onto Vladimir Propp's thirty one functions of the fairy tale By manipulating our expectations of the vampire story and turning it into a fairy tale Meyer has written her texts to be consumed by a culture that is primed to be receptive of this familiar plot structure which allows Meyer's moral and cultural themes to infiltrate consumers cultural DNA and positions the Twilight saga to be what Douglas Rushkoff defines as a media virus As the virus spreads questions arise as to how the Twilight saga will infect its audience particularly the young adult females that make up the primary fan base
