

# Fraction Study Guide

Our test is on: \_\_\_\_\_

## Fractional Parts:

- You should be able to identify and equally section shapes according to a fraction.

Example: Section the following shape into fifths.

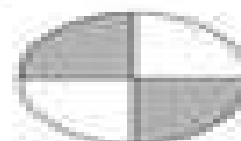

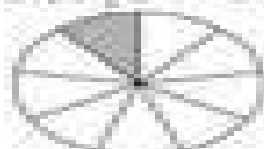

Example: The following shape is sectioned into equal parts. What is the name for each shape?

- Identify the fraction of shaded and not shaded parts of a shape.

Example: What fraction in the shapes below is shaded? Not shaded?

## Fractions On a Number Line:

- You should know how to create a fraction number line. Draw a line and place zero on one end and one at the other. You will section off the line into equal parts according to the denominator. Then, the numerator tells you how many equal parts to move. Take a look at my example below of how I identified  $3/4$ .

Now you try! On Line A identify  $2/5$  and on Line B identify  $4/6$ .

Line A

Line B

\*\*\* Be sure you know what zero and one looks like for the different fractions! \*\*\*
