Target Round

Problems 1 and 2

Name \_\_\_\_\_

School \_\_\_\_\_

State \_\_\_\_\_

**DO NOT BEGIN UNTIL YOU ARE INSTRUCTED TO DO SO**

Five teams of the competition entered at each school. There will be questions to solve in pairs. While you wait for the questions will be assigned and answers will be collected before the time limit is announced. You must leave the hall for all team problems at the end. The last team to complete a problem must stop at the door. If you want to show how the problem was solved, you may stay in the problem area until asked. Please do not talk while the problems are being read. When instructed to begin, work as your group and begin writing. Record your final answer in the designated space on the answer sheet. An answer may be fractional, decimal, and simplified to three places. The word "answer" may be written, and simplified, but that is not an answer. Your final answer will be checked. If you complete the problem before time is called, use the time thinking of another problem.
