intended to appeal to the reader's personal practical perspective to help generate the creativity and inspiration needed in order to maintain the equilibrium between consolidation and change. In the Council of Europe much thought has been given to these problems in recent years. The Higher Education and Research Committee (CC HER) previously known as the Standing Conference of University Problems (CC PU) has established a Legislation Reform Programme for Higher Education (LRP). The Programme is intended to give effective support to the process of legislative reform in higher education particularly but not exclusively in the new member states in central and eastern Europe. To promote dissemination of experience acquired throughout Europe and as a complement to its ongoing advisory and multilateral activities the Programme's Steering Group has decided to publish a series entitled *Legislating for Higher Education and Research in Europe*. The first volume of this series *Relations between State and Higher Education* is hereby presented to the general public. *Relations between State and Higher Education* has been compiled in close co-operation with States Parties to the European Cultural Convention. It seeks as will subsequent volumes to identify core issues which countries may need to confront in their legislations and offers examples of good practice.
