Siracusa, 2012-09-07 An expansive reference that overviews John F Kennedy's presidency covering the people, places and events that comprised the political landscape of the Kennedy era. The Kennedy family has played a leading role in the annals of American politics for over 100 years no greater than when John F Kennedy JFK became the 35th president of the United States. Encyclopedia of the Kennedys: The People and Events That Shaped America is a three volume reference set that provides an in depth look at JFK's presidency including his foreign and domestic policies, political allies and enemies and major events and speeches. This A-Z encyclopedia also contains entries on the events of the 1960s that changed our nation forever such as JFK's assassination and the Warren Commission report, the space program and the My Lai Massacre as well as the individuals who defined the time such as writers Norman Mailer and James Baldwin, folk musicians Bob Dylan and Joan Baez and activists Cesar Chavez and Martin Luther King Jr. Appendices provide a substantial archive of primary documents and identify officeholders during JFK's presidency while an annotated bibliography supplies sources for additional research.
