Elena G. Popkova, Elena Zavyalova

Key Concepts In Work Sage Key Concepts Series:

Key Concepts in Media and Communications Paul Jones, David Holmes, 2011-11-10 A sprightly critical and intelligent guided tour around the mansion of media and communications cultural research enormously useful for students and researchers James Curran Goldsmiths University of London A highly comprehensive guide to core concepts in media theory and criticism Andrew Goodwin University of San Francisco A great resource for new under grads and something I urge my students to buy and use as a hand first port of call throughout their studies Paul Smith De Montfort University This book covers the key concepts central to understanding recent developments in media and communications studies Wide ranging in scope and accessible in style it sets out a useful clear map of the important theories methods and debates The entries critically explore the limits of a key concept as much as the traditions that define it They include clear definitions are introduced within the wider context of the field and each one is fully cross referenced is appropriately illustrated with examples tables and diagrams provides a guide to further reading This book is an essential resource for students of media and communications across sociology cultural studies creative industries and of course media and communications courses

New Institutions for Socio-Economic Development Elena G. Popkova, Elena Zavyalova, 2021-06-08 The strategies and practical approaches for socio economic development are undergoing systemic changes under the influence of new developments in global economic systems and markets The most significant factors influencing such changes are connected to the start of the Fourth Industrial Revolution Industry 4 0 which is impacting all economic systems to a greater or lesser extent The creation of the digital economy and transition to Industry 4 0 particularly increases the significance of hi tech for socio economic development Secondly there is now a transition underway from a period of unlimited globalization and comprehensive integration to more limited globalization and selective economic integration The growing importance of regionalization on the global economic system is manifested in the formation and rapid development of new integration unions at the regional or country level e g the EU and the EAEU and company level e g regional sectoral economic clusters special economic areas technological parks and innovative networks Thirdly there s an urgent need for faster innovation which leads to the formation of more innovative economies The global financial crisis drew attention to the problems of managing sustainability and achieving balance in socio economic development The formation and exponential growth of the information society based on digital technologies is now stimulating the growth and significance of corporate social and environmental responsibility as a prerequisite for entrepreneurial success Thus the paradigm of socio economic development is changing from absolute rationality economic effectiveness and stability which has historically been associated with problems of stagnation to responsibility limited and socially oriented rationality and dynamism quick innovative development based on leading technologies This book aims to provide a scientific substantiation for this new paradigm

Psychology:
The Key Concepts Graham Richards, 2008-08-18 Psychology The Key Concepts is a comprehensive overview of 200 concepts
