Classical Strategic Thought

Third Edition

Michael L. Handel

Routledge

Masters Of War Classical Strategic Thought

Marcel A. Müller

Masters Of War Classical Strategic Thought:

Masters of War Michael I. Handel, 1996 *Masters of War* is the first comprehensive study based on a detailed textual analysis of the classical works on war by Clausewitz and Sun Tzu and to a lesser extent by Jomini and Machiavelli. Brushing stereotypes aside, the author takes a fresh look at what these strategic thinkers actually said, not what they are widely believed to have said. He finds that despite their apparent differences in terms of time, place, cultural background, and level of material/technological development, all had much more in common than previously supposed. In fact, the central conclusion of this book is that the logic of waging war and of strategic thinking is as universal and timeless as human nature itself.

Masters of War Michael I. Handel, 2005-12-05 This is the first comprehensive study based on a detailed textual analysis of the classical works on war by Clausewitz, Sun Tzu, Mao Tse-tung, and to a lesser extent Jomini and Machiavelli. Brushing stereotypes aside, the author takes a fresh look at what these strategic thinkers actually said, not what they are widely believed to have said. He finds that despite their apparent differences in terms of time, place, cultural background, and level of material/technological development, all had much more in common than previously supposed. In fact, the central conclusion of this book is that the logic of waging war and of strategic thinking is as universal and timeless as human nature itself. This third revised and expanded edition includes five new chapters and some new charts and diagrams. **Masters of War**

Michael I. Handel, 2001-01-01 Based on textual analysis of the works of Clausewitz, Sun Tzu, Mao Tse-tung, Jomini, and Machiavelli, *examines the essential timeless elements of waging war and thinking strategically*. Studyguide for Masters of War Cram101 Textbook Reviews, 2013-12 Never HIGHLIGHT a Book Again! Includes all testable terms, concepts, persons, places, and events. Cram101 Just the FACTS101 studyguides gives all of the outlines, highlights, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanies 9780714681320. This item is printed on demand. *The Gulf War of 1991 Reconsidered* Andrew J. Bacevich, Efraim Inbar, 2013-10-31 The Gulf War of 1991 Reconsidered subjects one of the formative events of the post-Cold War era and a watershed in Middle Eastern

international politics to a comprehensive reassessment. Considering events from Arab, Israeli, and American viewpoints, the book examines the Gulf War's historical origins, conduct, and legacy. *Strategic Logic and Political Rationality* Bradford A. Lee, Karl F. Walling, 2004-08-02 One of three volumes in honour of the teaching and scholarship of the late Michael I. Handel, this book details the universal logic of strategy and the ability of liberal democratic governments to address this logic rationally. Treating war as an extension of politics, the diverse contributors drawn from the United States, the United Kingdom, Australia, and Israel explore the difficulties in matching strategy to policy, especially in free societies. **War, Peace and Progress in the 21st Century** Mark Berger, Heloise Weber, 2013-09-13 The history of development is one marked by

insecurities, violence, and persistent conflict. It is not surprising, therefore, that development is now thought of as one of the central challenges of world politics. However, its complexities are often overlooked in scholarly analysis and among policy

practitioners who tend to adopt a technocratic approach to the crisis of development and violence This book brings together a wide range of contributions aimed at investigating different aspects of the history of development and violence and its implications for contemporary efforts to consolidate the development security nexus From environmental concerns through vigilante citizenship to the legacies of armed conflicts during and after decolonization the different chapters reconstruct the contradictory history of development and critically engage contemporary responses and their implications for social and political analyses In examining violence and insecurity in relation to core organising principles of world politics the contributors engage the problems associated with the nation state and the inter state system and underlying assumptions of the promises of progress The book offers a range of perspectives on the contradictions of development and on how domination violence and resistance have been conceived At the same time it exemplifies the relevance of alternative methodological and conceptual approaches to contemporary challenges of development This book was published as a special issue of Third World Quarterly [America, Technology and Strategic Culture](#) Brice Harris, 2008-08-21 This book analyses the American way of war within the context of Clausewitzian theory In doing so it draws conclusions about the origins viability and technical feasibility of America's current strategic approach The author argues that the situation in which America has found itself in Iraq is the direct result of a culturally predisposed incli **Air University Library Index to Military Periodicals**, 1997 [Strategy: Key Thinkers](#) Tom Kane, 2013-11-15 Over twenty two centuries ago the Greek general Pyrrhus questioned the real gains of military victory Today we might reflect on the recent wars in Iraq and Afghanistan in much the same way War is not only cruel but capricious its outcomes are often bitter and frustrating even for the winning side Strategy Key Thinkers expertly introduces the ideas of major strategic thinkers whose work explores the complex challenges associated with the use of military force Early chapters deal with the foundational work of Sun Tzu Sunzi Thucydides Vegetius Machiavelli and Carl von Clausewitz and their relevance to problems facing Western militaries today The book then considers broader issues such as the distinctive importance of air and maritime operations the difficulty of waging offensive land warfare in the face of modern firepower the implications of nuclear weapons and the potential of irregular warfare It concludes by highlighting key themes which connect and distinguish the works under consideration noting how these similarities and differences can inform the strategic debates of the early twenty first century

Australia's Defence Strategy Adam Lockyer, 2017-01-30 How would we know a good defence strategy if we saw one The Asian Century is challenging many of the traditional assumptions at the heart of Australian defence policy and strategy Defence scholars have risen to the challenge of these transformational times and have collectively produced a smorgasbord of alternatives for policy makers The problem is that these recommendations all point in very different directions How should we evaluate these options Adam Lockyer tackles this question and develops a novel conceptual framework for evaluating defence strategies By doing so this book breaks new theoretical ground and makes an important contribution to our

understanding of strategy in general and defence strategy in particular Lockyer then applies this analytical tool to the leading arguments in Australia's defence debate and finds that there is still substantial work to be done Lockyer concludes by proposing a new Australian defence strategy for a contested Asia that would pass the test for a good defence strategy The result is essential reading for anyone interested in strategy or the future of Australian defence policy **The Eurasian Way**

of War David A. Graff, 2016-03-10 This book is a comparative study of military practice in Sui Tang China and the Byzantine Empire between approximately 600 and 700 CE It covers all aspects of the military art from weapons and battlefield tactics to logistics campaign organization military institutions and the grand strategy of empire Whilst not neglecting the many differences between the Chinese and Byzantines this book highlights the striking similarities in their organizational structures tactical deployments and above all their extremely cautious approach to warfare It shows that contrary to the conventional wisdom positing a straightforward Western way of war and an Oriental approach characterized by evasion and trickery the specifics of Byzantine military practice in the seventh century differed very little from what was known in Tang China It argues that these similarities cannot be explained by diffusion or shared cultural influences which were limited but instead by the need to deal with common problems and confront common enemies in particular the nomadic peoples of the Eurasian steppes Overall this book provides compelling evidence that pragmatic needs may have more influence than deep cultural imperatives in determining a society's way of war Decoding Clausewitz Jon Tetsuro Sumida, 2008 A pathbreaking critique of the thought of military studies icon Carl Phillip Gottfried von Clausewitz and his magnum opus *On War* that illuminates why and how that work should be viewed as much more mature coherent innovative and complete than suggested by previous accounts *Clausewitz and Contemporary War* Antulio J. Echevarria II, Antulio Joseph Echevarria, 2007-09-27 An engaging new interpretation of Clausewitz's classic *On War* and its relevance to contemporary world conflicts

Translation, Reception and Canonization of The Art of War Tian Luo, 2022-04-27 *The Art of War* by Sun Tzu is an ancient yet invaluable Chinese military classic that is still relevant today This book presents a systematic and in depth investigation into the translation and reception of *The Art of War* in Western strategic culture Aided by three self built corpora this book adopts a mixed method of qualitative and quantitative analysis and takes both the core text and its paratexts of *The Art of War* into consideration The author highlights the significance of proper approaches to translating culture in regards to the core text and effective measures of culture reconstruction in regards to the paratexts It is revealed by this investigation that the translated Sun Tzu has undergone three major stages before its canonization in Western discourse The findings bring to light the multiple factors that contribute to the incorporation of Sun Tzu's strategic wisdom into Western culture For scholars interested in translation studies critical discourse analysis as well as strategic studies this book provides fresh insights and new perspectives **Understanding Modern Warfare** David Jordan, James D. Kiras, David J. Lonsdale, Ian

Speller, Christopher Tuck, C. Dale Walton, 2016-07-14 A fully revised and updated new edition of this leading introduction to

the theory and conduct of warfare in the twentieth and twenty first centuries The book combines analysis of key concepts theory and military doctrine with reference to relevant examples from history and integrates the land sea and air environments

Machiavelli on War Christopher Lynch, 2023-12-15 Machiavelli on War offers a comprehensive interpretation of the philosopher historian s treatment of war throughout his writings from poems and memoranda drafted while he was Florence s top official for military matters to his posthumous works The Prince and Discourses on Livy Christopher Lynch argues that the issue of war permeates the form and content of each of Machiavelli s works the substance of his thoughts and his own activity as a writer concluding that he was the first great modern philosopher because he was the first modern philosopher of war Lynch details Machiavelli s understanding of warfare in terms of both actual armed conflict and at the intellectual level of thinkers competing on the field of knowledge and belief Throughout Machiavelli s works he focuses on how military commanders knowledge of human necessities beginning with their own enables and requires them to mold soldiers organizationally and politically to best deploy them in operations attuned to political context and changing circumstances Intellectually leaders must shape minds their own and others to reject beliefs that would weaken their purpose for Machiavelli this meant overcoming the classical and Christian traditions in favor of a new teaching of human freedom and excellence As Machiavelli on War makes clear prevailing both on the battlefield and in the war of ideas demands a single minded engagement in reasoning about everything beginning with oneself For Machiavelli Lynch shows the successful military commander is not just an excellent leader but also an excellent human being in constant pursuit of the truth about themselves and the world

War, Peace and International Relations Colin S. Gray, Professor Emeritus of Strategic Studies Colin S Gray, 2007-06-11 Chapter Introduction Strategic history chapter 1 Themes and contexts of strategic history chapter 2 Carl von Clausewitz and the theory of war chapter 3 From limited war to national war The French Revolution and the Napoleonic way of war chapter 4 The nineteenth century I A strategic view chapter 5 The nineteenth century II Technology warfare and international order chapter 6 World War I I Controversies chapter 7 World War I II Modern warfare chapter 8 The twenty year armistice 1919 39 chapter 9 The mechanization of war chapter 10 World War II in Europe I The structure and course of total war chapter 11 World War II in Europe II Understanding the war chapter 12 World War II in Asia Pacific I Japan and the politics of empire chapter 13 World War II in Asia Pacific II Strategy and warfare chapter 14 The Cold War I Politics and ideology chapter 15 The Cold War II The nuclear revolution chapter 16 War and peace after the Cold War An interwar decade chapter 17 9 11 and the age of terror chapter 18 Irregular warfare Guerrillas insurgents and terrorists chapter 19 War peace and international order chapter 20 Conclusion Must future strategic history resemble the past

Financing Armed Conflict, Volume 1 Thomas M. Meagher, 2016-12-04 This first part of a two volume series examines in detail the financing of America s major wars from the American Revolution to the Civil War It interweaves analyses of political policy military strategy and operations and war finance and economic mobilization with examinations of

the events of America's major armed conflicts offering useful case studies for students of military history and spending policy
policymakers military comptrollers and officers in training **Strategic Review**, 1997 dedicated to the advancement and
understanding of those principles and practices military and political which serve the vital security interests of the United
States
