**Book Dealers' Weekly**, 1925      *An Introduction to the Methods and Materials of Literary Criticism* Charles Mills  
Gayley, Fred Newton Scott, 1899      Material Powers Tony Bennett, Patrick Joyce, 2013-05-13 This edited collection is a major contribution to the current development of a material turn in the social sciences and humanities It does so by exploring new understandings of how power is made up and exercised by examining the role of material infrastructures in the organization of state power and the role of material cultural practices in the organization of colonial forms of governance A diverse range of historical examples is drawn on in illustrating these concerns from the role of territorial engineering projects in seventeenth century France through the development of the postal system in nineteenth century Britain to the relations between the state and road building in contemporary Peru for example The colonial contexts examined are similarly varied ranging from the role of photographic practices in the constitution of colonial power in India and the measurement of the bodies of the colonized in French colonial practices to the part played by the relations between museums and expeditions in the organization of Australian forms of colonial rule These specific concerns are connected to major critical re examination of the limits of the earlier formulations of cultural materialism and the logic of the cultural turn The collection brings together a group of key international scholars whose work has played a leading role in debates in and across the fields of history visual culture studies anthropology geography cultural studies museum studies and literary studies      **Encyclopedia of Educational Theory and Philosophy** D. C. Phillips, 2014-05-19 Education is a field sometimes beset by theories of the day and with easy panaceas that overpromise the degree to which they can alleviate pressing educational problems The two volume Encyclopedia of Educational Theory and Philosophy introduces readers to theories that have stood the test of time and those that have provided the historical foundation for the best of contemporary educational theory and practice Drawing together a team of international scholars this invaluable reference examines the global landscape of all the key theories and the theorists behind them and presents them in the context needed to understand their strengths and weaknesses In addition to interpretations of long established theories this work offers essays on cutting edge research and concise to the point definitions of key concepts ideas schools and figures Features Over 300 signed entries by trusted experts in the field are organized into two volumes and overseen by a distinguished General Editor and an international Editorial Board Entries are followed by cross references and further reading suggestions A Chronology of Theory within the field of education highlights developments over the centuries a Reader s Guide groups entries thematically and a master Bibliography facilitates further study The Reader s Guide detailed index and cross references combine for strong search and browse capabilities in the electronic version Available in a choice of print or electronic formats Encyclopedia of Educational Theory and Philosophy is an ideal reference for anyone interested in the roots of contemporary educational theory      Antiquarian Bookman, 1957-09
