information are absorbed through memorization and rules the middle school logic stage in which the student begins to think  
more analytically and the high school rhetoric stage where the student learns to write and speak with force and originality  
Using this theory as your model you ll be able to instruct your child whether full time or as a supplement to classroom  
education in all levels of reading writing history geography mathematics science foreign languages rhetoric logic art and  
music regardless of your own aptitude in those subjects Thousands of parents and teachers have already used the detailed  
book lists and methods described in The Well Trained Mind to create a truly superior education for the children in their care
