

Math Flash Cards

Grade 4

These flash cards were designed with several purposes in mind:

- Provide a **quick review** of key mathematical topics in a fun, fast, frequent, spaced and mixed manner.
- Help students become **familiar with the kinds of graphics/pictures, questions, and vocabulary** that they see frequently and need to know in math.
- Help students prepare for both **lower level** (recall) and **higher level questions** (compare, analyze, apply, generalize) by practicing these questions sequentially.
- Allow students to **emphasize on process** over computing so they can practice many kinds of questions in the form: *explain how you would find...*
- **Build reading skills** by asking students to slow down and preview a question before starting, asking: "What do I know here?". Next, they find key information in the graphs, titles, and sentences which set the context of the problem.
- Help **students to show work** by modeling a condensed but clear explanation.
- Allow students to **practice skills and recall key concepts** independently or with a partner, a teacher, tutor, aid or parent.
- **Make students aware of mistakes to avoid and look for common errors.**
- Help teachers to assign a **quick homework**: "study these 3 flash cards," and offer a **quick assessment**: "fill in these 4 sections from the flash cards."
- **Challenge each student at their level** by giving opportunities to create their own problems or try problems from another grade level.
