Mertens, Micki M. Caskey, 2018-04-01 In 2015 16 the Middle Level Education Research Special Interest Group MLER SIG an affiliate of the American Educational Research Association undertook a collaborative project the development of a new middle grades education research agenda The purpose of the MLER SIG Research Agenda Mertens et al 2016 was to develop a set of questions that would guide the direction of middle grades education research Ideally this Research Agenda would serve to prompt discourse and generate research projects that could contribute to the middle grades knowledge base Members of the MLER SIG identified eight research areas a young adolescent development b cultural responsiveness c special populations d educator development e curriculum f social and emotional learning g digital technologies and h school structures This volume contains the extensive literature reviews and subsequent research questions for each of the research topics *Equity & Cultural Responsiveness in the Middle Grades* Kathleen M. Brinegar, Lisa M. Harrison, Ellis Hurd, 2019-04-01 While developmental responsiveness is a deservedly key emphasis of middle grades education this emphasis has often been to the detriment of focusing on the cultural needs of young adolescents This Handbook volume explores research relating to equity and culturally responsive practices when working with young adolescents Middle school philosophy largely centers on young adolescents as a collective group This lack of focus has great implications for young adolescents of marginalized identities including but not limited to those with culturally and linguistically diverse backgrounds LGBTQ youth and those living in poverty If middle level educators claim to advocate for young adolescents we need to mainstream conversations about supporting all young adolescents of marginalized identities It empowers researchers educators and even young adolescents to critically examine and understand the intersectionality of identities that historically influenced and continue to affect young adolescents and why educators might perceive marginalized youth in certain ways It is for these reasons that researchers teachers and other key constituents involved in the education of young adolescents must devote themselves to the critical examination and understanding of the historical and current socio cultural factors affecting all young adolescents The chapters in this volume serve as a means to open an intentional and explicit space for providing a critical lens on early adolescence a lens that understands that both developmental and cultural needs of young adolescents need to be emphasized to create a learning environment that supports every young adolescent learner **ENC Focus** , 2001 **Mathematics Education in the Middle Grades** National Research Council, Center for Science, Mathematics, and Engineering Education, 2000-03-11 In September 1998 the Math Science Education Board National held a Convocation on Middle Grades Mathematics that was co sponsored by the

National Council of Teachers of Mathematics the National Middle School Association and the American Educational Research Association The Convocation was structured to present the teaching of middle school mathematics from two points of view teaching mathematics with a focus on the subject matter content or teaching mathematics with a focus on the whole child and whole curriculum This book discusses the challenges before the nation s mathematical sciences community to focus its energy on the improvement of middle grades mathematics education and to begin an ongoing national dialogue on middle grades mathematics education
