International Handbook of Mathematical Learning Difficulties Annemarie Fritz,Vitor Geraldi Haase,Pekka Räsänen,2019-01-30 This comprehensive volume provides teachers researchers and education professionals with cutting edge knowledge developed in the last decades by the educational behavioural and neurosciences integrating cognitive developmental and socioeconomic approaches to deal with the problems children face in learning mathematics The neurocognitive mechanisms and the cognitive processes underlying acquisition of arithmetic abilities and their significance for education have been the subject of intense research in the last few decades but the most part of this research has been conducted in non applied settings and there s still a deep discrepancy between the level of scientific knowledge and its implementation into actual educational settings Now it s time to bring the results from the laboratory to the classroom Apart from bringing the theoretical discussions to educational settings the volume presents a wide range of methods for early detection of children with risks in mathematics learning and strategies to develop effective interventions based on innovative cognitive test instruments It also provides insights to translate research knowledge into public policies in order to address socioeconomic issues And it does so from an international perspective dedicating a whole section to the cultural diversity of mathematics learning difficulties in different parts of the world All of this makes the *International Handbook of Mathematical Learning Difficulties* an essential tool for those involved in the daily struggle to prepare the future generations to succeed in the global knowledge society *Zimbabwe Books in Print* ,1993 *International Journal of Educational Management and Development Studies* Patricia Sonia Elardo-Zabala,Maricon V. Estrellado,Mercedita H. Silva,Chrizza Kaye R. Sotomayor,Joseph Jay U. Aureada,Jupeth Toriano Pentang,Edilberto A. Magsino Jr.,2021-06-30 *International Journal of Educational Management and Development Studies* IJEMDS is an open access refereed journal focused on educational leadership educational management teaching and learning across all disciplines and levels internationalization of education transnational education and societal issues on educational development The field of education has been continuously evolving as influenced by its nature and the societal factors As the journal celebrates the very dynamic and complex nature of education it provides educators and researchers a platform for their research findings This allows researchers to apply multiple designs to describe analyze and evaluate the history current issues and the future direction of education in regional and international contexts *Education in the New Zimbabwe* ,1988 *Resources in Education* ,1992-12 *Mapping research and innovation in the Republic of Zimbabwe* Lemarchand, Guillermo A.,Schneegans, Susan,2014-08-11

Education and Development in Zimbabwe Edward Shizha,Michael T. Kariwo,2012-01-01 The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe It challenges scholars to think about the role of education its funding and the egalitarian approach to widening access to education The nexus between education democracy and policy change is a complex one The book provides an illuminating account of the

constantly evolving notions of national identity language and citizenship from the Zimbabwean experience The book discusses educational successes and challenges by examining the ideological effects of social political and economic considerations on Zimbabwe s colonial and postcolonial education Currently literature on current educational challenges in Zimbabwe is lacking and there is very little published material on these ideological effects on educational development in Zimbabwe This book is likely to be one of the first on the impact of social political and economic meltdown on education The book is targeted at local and international academics and scholars of history of education and comparative education scholars of international education and development undergraduate and graduate students and professors who are interested in educational development in Africa particularly Zimbabwe Notwithstanding the book is a valuable resource to policy makers educational administrators and researchers and the wider community Shizha and Kariwo s book is an important and illuminating addition on the effects of social political and economic trajectories on education and development in Zimbabwe It critically analyses the crucial specifics of the Zimbabwean situation by providing an in depth discourse on education at this historical juncture The book offers new insights that may be useful for an understanding of not only the Zimbabwean case but also education in other African countries Rosemary Gordon Senior Lecturer in Educational Foundations University of Zimbabwe Ranging in temporal scope from the colonial era and its elitist legacy through the golden era of populist universal elementary education to the disarray of contemporary socioeconomic crisis covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching this text provides a comprehensive wide ranging and yet carefully detailed account of education in Zimbabwe This engagingly written portrayal will prove illuminating not only to readers interested in Zimbabwe s education specifically but more widely to all who are interested in how the sociopolitical shapes education how ideology policy international pressures economic factors and shifts in values collectively forge the historical and contemporary character of a country s education Handel Kashope Wright Professor of Education University of British Columbia *ICICKM 2017 14th International Conference on Intellectual Capital Knowledge Management & Organisational Learning* Prof. Eric Tsui ,Prof. Benny Cheung,2017-07-12 **STEM Education in Poverty** Brantina Chirinda,Gladys Sunzuma,Perkins Muredzi,2025-07-15 This book is about Science Technology Engineering and Mathematics STEM education in poverty and the lessons we learn from Zimbabwe The world is driving towards the fourth Industrial Revolution 4IR where economic growth has been attributed to STEM education STEM education is vital in this era where both developed and developing countries are undergo rapid changes Globally STEM education has been practised differently in schools and universities University programs new school curricula instructional methods extracurricular programs and professional development programs for in service teachers have been created to cater to STEM subjects STEM education is envisioned to produce critical thinkers inventors creators problem solvers innovators and professionals who will solve the world s ever changing

challenges including inequity food insecurity climate change inequality and poverty STEM is essential to modern education Zimbabwe has faced significant economic challenges but has made remarkable strides in STEM education By examining the successes and challenges of STEM education in Zimbabwe we can learn valuable lessons about improving STEM education in underserved communities This book contributes to the international debate surrounding the optimal STEM education for students in underserved schools It incorporates detailed accounts of STEM education in Zimbabwe schools shedding light on the challenges students and educators face in impoverished areas In Zimbabwe STEM education faces significant challenges such as materials and facilities pedagogy policy reform access and relevance Some of the main issues highlighted in this book are the need for more resources including funding teaching materials and adequate laboratories Effective STEM pedagogy is hampered by an education system that emphasises the curriculum and teacher centred focus instead of focusing on how students can be taught or learn Research has shown that in Zimbabwe STEM teachers must apply inventive pedagogies and suitable learner centred STEM teaching approaches As a result there is a need for more STEM related programs and courses in schools and universities to improve the opportunities for students to pursue careers in these fields Another challenge is the need for more awareness about the opportunities and importance of STEM education and interest in STEM subjects among students which can be attributed to a lack of exposure and understanding of the relevance and importance of these fields in today's world While lack of resources and other challenges hinder effectiveness opportunity lies in promising pathways of policy and practice In Zimbabwe there is a varying degree of success in the implemented competence based curriculum which emphasises inquiry based learning and STEM education Finally there is a need for early exposure to STEM based career opportunities and for more collaboration between the government private sector and educational institutions to address these challenges and promote STEM education in Zimbabwe This book uses Zimbabwe as an example to explore STEM education in poverty By examining the successes and challenges of STEM education in Zimbabwe this book offers valuable insights into how STEM education can be integrated into the curriculum in countries with developing and emerging economies This book is an essential resource for anyone interested in improving STEM education in underserved communities

Investigating the Impact of Information Communication Technology on Self-directed Professional Development of Teachers

Emmanuel Mushayikwa, 2011-03-02 The aim of this research was to investigate the perceived impact of ICT on Zimbabwean A level science and mathematics teachers self directed professional development The study was based on a questionnaire survey of 254 teachers throughout the country Supplementary data came from 54 interviews Some observations of teachers using ICT in teacher centres e mail correspondence and field reports also contributed to the database of the study An analysis framework was developed through the use of grounded theory on the interview transcripts The framework yielded 9 themes relating to the teachers use of ICT for their professional development These were 1 perceived professional identity 2 career development 3 Managing the ICT environment 4 theoretical and content knowledge

5 practical knowledge and skills 6 adaptation 7 professional networking and 8 9 perceived benefits to teachers and students

Chaos complexity theory was used to identify the major attractors goals for teachers self directed professional development using ICT Two attractors were identified These were personal professional development and classroom practice However an over riding factor common to both attractors was identified as self efficacy The study identified the over arching driver for self directed professional development as the teacher s need to improve their self efficacy A two dimensional model of self directed professional development was suggested The systemic element of the model focused on the self correcting impact of ICT use on professional development whilst the personal element focused on self efficacy as the central stratum for self directed professional development The study concluded by acknowledging the potent role that ICT is playing in the self directed continuing professional development of teachers in Zimbabwe and recommended among other things the inclusion of A level teachers in the development of localised online materials resources for their subjects This will help to enhance relevance of the materials to the Zimbabwean context
